News & Notes

27th December 2014.................. A weekly bulletin for residents of Auroville.................. Number 579
HOUSE OF MOTHER’S AGENDA

As yet with the great world she had no link;
In a small circle of young eager hearts,
Her spirit’s early reign and human school,
Her apprenticeship she made to life and death,
Content in her little garden of the gods
As blossoms a flower in an unvisited place.
Earth nursed, unconscious still, the inhabiting flame,
Yet something deeply stirred and dimly knew;
There was a movement and a passionate call,
A rainbow dream, a hope of golden change;
Some secret wing of expectation beat,
A growing sense of something new and rare
And beautiful stole across the heart of Time.
Then a faint whisper of her touched the soil,
Breathed like a hidden need the soul divines;
The eye of the great world discovered her,
A wonder lifted up its bardic voice.
A key to a Light still kept in being’s care,
The sun-word of an ancient mystery’s sense,
Her name ran murmuring on the lips of men
Exalted and sweet like an inspired verse
Struck from the epic lyre of rumour’s winds
Or sung like a chanted thought by the poet Fame.
But like a sacred symbol’s was that cult.
Admired, unsought, intangible to the grasp
Her beauty and flaming strength were seen afar
Like lightning playing with the fallen day,
A glory unapproachably divine.
There came to join her heart no heart’s approach,
No transient earthly love assailed her calm,
No hero passion had the strength to seize;
No eyes demanded her replying eyes.
A Power within her awed the imperfect flesh;
The self-protecting genius in our clay
Divined the goddess in the woman’s shape
And drew back from a touch beyond its kind,
The earth-nature bound in the sense-life’s narrow make.
The hearts of men are amorous of clay-kin
And bear not spirits lone and high who bring
Fire-intimations from the deathless planes
Too vast for souls not born to mate with heaven.
Whoever is too great must lonely live,
Adored he walks in mighty solitude;
Vain is his labour to create his kins,
His only comrade is the Strength within.
Thus was it for a while with Savitri,
All worshipped marvellingly, none dared to claim.
Her mind sat high pouring its golden beams,
Her heart was a crowded temple of delight.
A single lamp lit in perfection’s house,
A bright pure image in a priestless shrine,
Alone amid surrounding crowds she dwelt,
Apart in herself until her hour of fate.

SAVITRI, Book IV, Canto II: The Growth of the Flame

SRI AUROBINDO

...the destiny which binds our physical being, binds in so long or in so far as a greater law does not intervene.
Action belongs to the physical part of us, it is the physical outcome of our being; but behind of our surface is a freer Life-power, a freer Mind-power which has another energy and can create another destiny and bring it in to modify the primary plan, and when the soul and self emerges, when we become consciously spiritual beings, that change can cancel or wholly remodel the graph of our physical fate. Karma, then, or at least any mechanical law of Karma, cannot be accepted as the sole determinant of circumstances and the whole machinery of rebirth and of our future evolution."

WORK GROUP REPORT

Work Group Meeting Minutes

5 Dec 2014 Siddharta Forest
Present: Dave, Julia, Jessamiijn, Dominik, Ananda, Jan, Diego, Kannyappan, Shivaraj, V. Boobalan, P. Elumalai, Rik, Hans, Cristo, Yuval, Kumar, Sathya, Christoph

Green Group- the Green Group needs recognition from the Farm Group and Forest Group members it represents so that it can function more effectively. Cristo will send the existing mandate to all Forest Group members for reading. Suggestions for amendments can be returned to Cristo by mail. Once the mandate is approved, it will be presented to the concerning sub group of AV Council. If needed, the sub group will rework the document and needs to get this approved again by Forest and Farm Group after which it can be sent for RA ratification.

Silence- Kumar and Sathya would like to improve the workshop building in Silence on the road side which is stewarded by Hans to use it for livelihood generating activities. The building has been neglected and recently vandalised. To come to a clearer understanding, this will be taken to TDC; Cristo will be the TDC contact person for Kumar, Sathya and Hans.

Siddharta Forest- Boobalan asks support from the FG for meeting with the Edyanchavadi Panchayat village elders for getting the cooperation to fence Siddharta Forest. He will organise the meeting and inform the group on time and location. The Forest Group recognised the need for support and urgency to act and expressed appreciation for Boobalans perseverance.

Maintenance- Two maintenances have been provided by HRT. Since the two to whom FG would like to allocate the maintenances to are not present at the meeting, the allocation is pending.

Participation- Due to the relatively low attendance of Forest Group meetings it was discussed how the foresters could be motivated to show up more often. Putting pressure on the people was not seen as a good way. Fact is that to have efficient meetings where things can be organized and issues can be solved, it is important that at least one person of each forest is attending the monthly meetings as regularly as possible.

Miracle- Ananda presents drawings for the extension of his house with two rooms for his children. Forest Group approves the extension.

Success - Rik presents drawings for the building of his house on the spot of his current capsule. Forest Group approves his building application.

Varuna- Cristo has received an invitation from Michael Bonke for the Forest Group to dialogue about hybrid energy systems and linking the Green Belt to the grid. The Forest Group welcomes the Varuna team representatives to the next FG meeting so that all can attend and participate.

Green Belt Planning- David Stein and his wife Achva Bentziger Stein return to Auroville beginning of January to work on a Regional Master Plan for the Green Belt of Auroville and the surrounding villages. They are known to all for their work on the Green Belt Development Plan they prepared a couple of years ago. At that time several Green Workers had participated in this work with enthusiasm and the same will be contacted to complete the work in the coming year. All are welcome to participate in this endeavour.

Thank you Boobalan for a delicious catering at this meeting!

Next Forest Group meeting is in Aurodam, 2 January 2015, 15.00h. A happy New Year to all!

Working Committee

Dear Aurovilians,
We are happy to inform you that on December 15th, the members of the new Working Committee have started the work.
We have been informed by the parting Working Committee that over 400 issues are waiting for our attention. We intend to attend to each topic any upcoming month. If there are any topics which you feel need urgent attention, please send us an email.

Our schedule is as mentioned below.
Please find below our reply to five ‘protocol’ questions:

Q 1. What is your policy on one of you being present at all RA meetings?
Reply: we intend to have at least 3 members of the team present in all general meetings as well as in meetings of the Resident’s Assembly

Q 2: When you make an announcement which carries all your names or is signed as a generic ‘Working Committee’, will it mean that all of you have approved the announcement?
Reply: we have agreed that, except in special cases, each note and letter will be signed by one of us on behalf of the Working Committee, on the condition that the majority of the members present have approved the draft. We intend to reach consensus but in absence of it, we agreed that 7 members are present, the majority is 5. If 6 members are present, the majority is 4. If 5 or 4 members are present, the majority is 3. If only three members are present, no decisions will be taken. However, the members present can deal with routine issues such as attestations of a person being alive or being a resident of Auroville etc...

Q 3: Will you be publishing your meeting minutes every week in a community forum, like AVnet? Or not? If not, where can community members access your minutes?
Reply: We will only keep notes of decisions taken in meetings. These notes are not accessible to the public. We will publish a report of our work once every month. We shall try to be present on AVnet when appropriate or necessary, in connection with particular topics or events. However for all official communication please write to workingcom@auroville.org.in or meet one of our available members in the office and/or, come to the RA or GM meeting.

Q 4: What framework and process are you putting in place for complaints? Please explain how it will discourage slander and false accusations.
Reply: There is no intention to put any ‘rules’ or ‘framework’ in place to deal with complaints. Doing so would not by itself discourage slander and false accusations. Complaints will be dealt with by the Council or Working Committee or jointly, and where issues can be resolved through mediation, will be referred to Koodam. Those who feel that their complaint has not been properly processed are requested to inform us.

Q 5: Will the Working Committee have a three-month apprentice programme as proposed by Chandresh?
Reply: It has been proposed that the WC and AVC host an event inviting youth and young adults. At the moment, at least 50% of the new WC feel apprentices themselves, so it is too early to put in place a program like this. This issue is to be further discussed as soon as there is time and preparation to do so.

In general, please understand that we are just at the start of our mandate, getting familiar with a great amount of tasks and responsibilities. Please give us the time to get acquainted with them and to settle at least the most burning priorities.
We are carrying with us the recommendations of the 3-day selection process, we are aware of the expectations of the community, we are already fully immersed in our job, and wish
to solve pending issues at the soonest, so that we can also be propositive in our actions.

We are also happy to inform the community that we received a report from Frederick about the visit he made to New Delhi as invitee of Mr. Srinivasamurthy from 9-12 December. Frederick reported:

1. About the meeting of an Auroville delegation consisting of GB member Ms. Ameeta Mehr, IAC member Dr. Vishaka Desai, under-secretary Mr. Srinivasamurthy and himself to the Honorable HRD Minister Ms. Smriti Zubin Irani, in which the Minister was invited to visit Auroville.

2. About the meeting of the delegation together with Hemant with the Chairman, Dr. Karan Singh. In this meeting the Chairman was briefed about the meeting with the Minister. The Chairman expressed that he was pleased that Auroville has a Working Committee and that the Land Board is in place. He expressed concern about the functioning of the TDC. He is looking forward to the ‘Retreat’ planned for February which has been envisaged by the Vision Task Force and will be organized by the Campus Initiative with Mr. Aromar Ravi as main coordinator. During the Retreat the participants will reflect on topics such as Organisation, Unending Education and Economics.

3. About the meeting of the delegation and Hemant with joint-secretary Shri. Rakesh Ranjan of the HRD Ministry, who is in charge with Unesco affairs and is an ex-officio member of the Governing Board of the Auroville Foundation. The project Humanscape for 500 volunteers was discussed.

4. About the meeting with joint-secretary Mr. Joginder Triparthi (Financial Advisor, HRD Ministry and ex-officio Board member) of the Auroville Foundation. Topics discussed were the possibilities of enhancing the annual GOI grant for Auroville, and the Government giving a special endowment for a corpus fund for the 50th Anniversary Celebration in three years.

5. About his meeting with the joint-secretary sports Sri Onkar Kedia and Sri Iyengar to discuss the various provisions under which Auroville could be eligible for funds for sports were outlined:

We would like to inform the community that our team has decided to recommend the following persons as Aurovilians and Newcomers. We are adding another section of confirmation to avoid further confusion.

**CONFIRMATION OF RETURNING AUROVILIANS:**

OBITUARY

Prema

This is to inform the community that our dear friend and sister Prema (Adelina Intanno) of Auromode, proceeded to higher spaces in the afternoon of 17 December at 3 pm in her home at Auromodele, in the presence of her partner André, Jacqueline and Louis C. She had been bravely fighting a terminal ailment during the last two years, and was 68 years old.

We will all remember Prema as a high spirited, strong willed and devoted Aurovilian who, from the moment she arrived from Argentina in 1979, started working toward the creation of ‘Auromode’ which would eventually become one of Auroville’s major commercial units and with which her name for ever will be associated. On Sunday 21st a silent commemoration was held for her at the Matrimandir’s Banyan tree.

Prema’s body remained for viewing in Auroshilpam’s temporary Farewell House till Monday 22 December when the remains were buried in Adventure’s funeral grounds at 4 pm in the afternoon with a great many of her friends, colleagues and former employees attending.

Farewell, Prema, and thank you for all your energies, generosity and dedication to Mother’s Auroville.

Our love and strength go out to André and their 17-year old daughter Pavithra, and other close friends.

AVTAS - AUROVILLE TSUNAMI ALARM SERVICE

Welcome from AVTAS, Auroville's Tsunami Alarm Service, a service with no budget, no maintenance, no employees, ..., only me, Raphael (Srima) and a few lost area coordinators with nothing much to do. Thank God!

It's been 10 years since I ran from the waters, from the approaching seas, from the trauma that stuck with me for years (and still lingers in the back of my head and my heart). 10 years of doubt if I really wanted to continue living next to the sea. Yes, everybody said 'Ah, tsunamis only occur every ... years, you don't worry.' But what do they know? Unless you have JUST escaped from one, unless you have seen your life, your place, your belongings, your peace of mind, your fragile security being destroyed in a matter of seconds, you do not understand, you do not have a position, you do not have a right, to judge what is appropriate, what is reasonable, what is needed to react in a sane way. You do not!

At this point I like to draw your attention, your compassion, and your humble feelings to the hundreds, to the thousands, to the lakhs of family members and friends to the worldwide 227,898 souls who lost their lives on that dreadful day. And to the lakhs of family members and friends who lost their relatives, their beloved and who still suffer and moan 10 years after...

Another dramatic tsunami occurred in Japan along with a nuclear tragedy, as well as a number of Cyclones and Hurricanes. But here in our region not too much damage has been done to people's bodies, but more to their lives, in terms of houses, livelihood and environmental damage.

We - me and my coordinators - will continue to 'bay watch' of houses, livelihood and environmental damage. But more to their lives, in terms of houses, livelihood and environmental damage.

We - me and my coordinators - will continue to 'bay watch' despite the laughter of the 'inland' people who do not know what they joke about, who do not know what drama they did not have to face on that day 10 years ago.

By the way: we do not really 'bay watch' as some might wonder. We are registered with a server in Germany who sends SMS alarms. We just make sure we have our cell phones next to us 24/7 and our list of phone numbers handy.

Neelanjani Auroville Visual Artist Center

Drawing, painting, photography, sculpture, calligraphy, etching, graphics, and instillations

Dear Community,

We would like to share this historical background of our existence in order to be transparent to all those who are interested in the Visual arts.

In July of 2012 the executives of the Visitors Center requested from the FAMC 8 Lakhs to complete their original plan of having an art gallery on the 1st floor of the new wing of the VC. They were refused. FAMC said they were already over extended and that they thought Bharat Nivas had much underutilized space. On July 30 Bharat Nivas responded that they kept the right to decide what activities were included in their compound.

At this point Auroville artists were asked to take over the responsibility of building the gallery, which to some of us seemed right for if the artists were not willing to get behind such a venture it would probably turn out to be another boutique selling arts and crafts. We have been an unstable alliance of people who attend one meeting or two, have strong opinions and then are not seen again until they are asked to participate in a show.

In order to raise money for the building of the gallery we wrote a proposal with the help of the architect, Suhasini, and are sending it out to possible donors. We had one serious offer. However, the terms and conditions of the donation were beyond our ability as we were not in a position to hire an engineer required to meet the demands of the donor. The lesson from this is that we must keep close track of the proposals that we send out and that we must have some funds that we can use at our own discretion.

In 2013 we were given a space on the ground floor of the VC for three months to make into a gallery and exhibit Auroville Artists. 26 artists participated. Our intention was to keep the gallery open 6 days a week but we did not have enough support from the artists, so sitting the gallery fell on just a few. As we were located on the path of the visitors going to see the Matrimandir we had hundreds of people coming through. The majority of them had no interest in the paintings but they were interested and bought the ceramic sculptures. The paintings that sold were by artists who had never shown their paintings before. If the visitors were interested they went away with a new understanding of art, and the Aurovilians who visited said: “I never knew there were so many artists in Auroville and how wonderfully diverse they are”.

Results of an Auronet pulse question

Now and again (this is the 7th time) we publish results of a question put on Auronet, under the header ‘Pulse Question’, to take the pulse of the community regarding a certain topic. The Pulse question topic this time: Private cars in Auroville. The choice of answers was simply between “yes” and “no”.

The question was ‘Do you agree with the following statement: “It is urgent to do something about the growing trend of private car ownership in Auroville.”’

Total no. of responses as of 17th December 2014: 130

Breakdown:
Yes: 77% (100 votes)
No: 23% (30 votes)

Background for the question was the following article on Auroinet: Private cars of Auroville

Two extracts from the 25 comments:
“I don’t own a car and don’t want one (…) and agree that our roads are not suited for all-car traffic, but it’s the attitude [of interference in personal choices] that worries me the most.”

“Cars are ok for the elderly (80+?) and the disabled and for transport. I would not like one for free. It’s hard to find in Pondy a parking place even for the bikes. Cars are slow and use too much space which is the most important point for Auroville. You have to provide huge parking places at every public place.”

Let’s bring beauty to Ecoservice

I am Alex and I am volunteering at EcoService for the next three months...When I went to EcoService my first impression was that it lacks something that is almost everywhere in Auroville...BEAUTY.

That is due to a simple false belief: What we think as waste and treat without care, is in fact a useful resource and can be treated with love! So instead of a “waste without care” policy, we propose the “love for resources” revolution.

What does this revolution imply?
- Let's treat those resources like offerings (before sending them to EcoService, washing them and honoring them as a gift to a friend, because the ladies employed to segregate the "resources" have to hand-sort everything.
- Let's improve the places where we stock these offerings as if it were a temple (keep your bins clean and segregated, clearly label them, put nice art, flowers, etc…)
- Let's bring more beauty to EcoService's facilities (so if you have any extra flower plants, banana trees, white paint, art, or anything you can think of that might do so, or have some funds to help us with this please contact us:

Suggested Holidays List for the Year 2015

Dear Friends,
From the following list of paid holidays you could choose a minimum of 10 DAYS in a year to suit your workers/Unit/Community. But please note that the National Holidays* are mandatory and see that they are included in the choice. Apart from this 10 days holidays we are recommending to give yearly 6 days leave (with pay) to the workers as casual leave for social and health reasons.

We recommend that the workers who are not covered by the Government Provident Fund Scheme better become a member of SEWA’s Retirement fund Scheme. The pamphlets on features and rules and regulations of the schemes are available at SEWA office.

For Annual wage increment for our workers SEWA suggests that up to the wages of Rs.250/= per day 10% increment and above Rs.251/= per day 8% increment. The employers are requested to bear in mind the high inflation rate and do the necessary changes.

We also recommend that the worker be insured against accidents. SEWA provides assistance in getting accident insurance for our workers.

Above are only our suggestions according to the prevailing conditions & norms. We are open to your suggestions & feedback.

For further details or enquiries please visit our office in Ilainarkal School Campus, Saaram Community, Auroville. Or call 262 2709.

In need of “Resource Persons”

Dear community members,

We are working on a few mandates; policies etc. and need help from the community to make it happen. If you have the time, the willingness and a form of expertise, please propose yourself as a ‘Resource Person’ to avcooffice@auroville.org.in.

The current topics are:
- Housing Service/ Board mandate, policy
- Entry Service mandate, policy
- Friends/ Partners of Auroville policy
- Security Policy as a follow up to Police Patrolling budget extension
- Accessibility of information, sharing and confidentiality
- Unity Fund executives - term of office

Thank you for your participation!
Sincerely, Auroville Council

I wonder

I wonder if we could try once more to have these Banyan benches at the Matrimandir rectified? Imagine: if we could have sat in one wide circle during the gathering for Prema last Sunday, what a strong energy field that could have created! Whereas now we were sitting in that bizarre zigzag formation that is nowhere conducive to a sense of togetherness, let alone unity - Mauna

Marathon Market at Visitors Centre

Once again it is planned to have an Auroville ‘market’ sited opposite the main entrance to the Visitors Centre, on the 7th and 8th of February. The timings are 4.30 - 7.30 pm on Sat Feb 7th and 8.00 - 10.00 am on Sunday Feb 8th.

This announcement is an invitation to Aurovilian units interested in having a stall at the Marathon - comprising one or more local marriage-hall-style metal-topped tables with chair(s). Please contact us so we can start planning for the occasion. There may be a small charge for each stall to cover table hire/admin costs, but this will be determined nearer the time.

Due to numerous outside requests it has become necessary to define the purpose of this market which is to give the many visitors attending on that day the opportunity to see - and buy - a wide variety of Auroville designed and made products, plus various Auroville snacks and food items, at the same time taking the opportunity to give a boost to the AV economy. A small market coordination team has emerged for outside participation which may be considered when offered on a pro-bono basis and/or when related to the Marathon Event: the team reserves the right to refuse items or individuals who are not connected with Auroville.

Please contact us at Prisma (ph.262-2296 / E-mail: prisma@auroville.org.in) before the end of the first week in January if you are interested.

AUROVILLE RADIO

Dear Listeners and volunteers the Auroville Radio is always looking for people who are passionate in communication and would like to share skills or learn audio production. We also welcome people who have capacities in web-site creation as we would like to merge the Radio site with the Auroville TV site. People are welcome to join us for short or long periods of time. Regarding ACUR and the sound barrier matter, we are waiting for a conclusion, the noise makes the radio work quite difficult and the matter is still pending since 10 months. Volunteer Lionel finished collecting the data and created the criteria for a population sampling for surveys. This information along with the interview explaining his work will be shared next week on our website, the criteria can be used by any groups.

Next Friday 26th Off the Cuff will focus on the 10th anniversary of the Tsunami; pls join us in person or by phone from 10.30-10.45 am to share your memories of that event.

Our Fund raising efforts will start again in the coming weeks as we are missing a third of the yearly budget.

These are the latest programs published by AurovilleRadio this week. All the recordings are available in CD or ready to be copied on your memory stick at the AurovilleRadio premises in Town Hall, opposite the Financial Service.

**Green Column Review 2014**
There was a lot to report on green and environmental events in this turbulent past year in the bi-weekly Green Column. Learning about the state of our planet, its environment, people, flora and fauna, searching beyond the headlines for reliable and relevant information, it’s hard to make sense of it all, and to try and find ways in which we can mitigate some of the degradation, suffering and turmoil the planet finds itself in.

We have reported on the following issues:
- Water supply & saving; World Water Day; Waste of water & the Monsoon (after four consecutive failed monsoons, this

Dear Community,
In collaboration with Pudhiyadh, an educational NGO in Chennai, Auroville will be hosting an Ultimate Frisbee Youth Camp in Dehashakti from the 26th-30th of December. It will be a 5-day intensive Ultimate Frisbee, art, dance and personal development camp whose aim is to bridge the gaps created by poverty, gender, caste, colour and language.
The main purpose of conducting this camp in Auroville is because Auroville itself is a much wider experiment that also aims at ‘Bridging the Gaps’. We hope Auroville can instill some of its ideals and the camp give us some insights.
There will be 120 kids and 35 youth coaches from different states and backgrounds in India.
This will offer a great exposure for the Auroville kids to be able to meet other Indian children and learn about their lives and for children from across India to be exposed to Auroville.

The new members introduce themselves to the community. As an outcome of the three-day selection process. - [English, 22 Minutes]

year’s rainfall has reached the annual average of 1300 mm; The Pondicherry waste dump and its legal implications; Plastic waste and how to reduce it; Safety of food on our plates; Monsanto, GM crops, Seed freedom; Chemical mango ripening practices: Auroville eggs; Auroville’s Local Food movement & vegetable gardens promoted by Solitude.

We highlighted some Bright Inventions, wrote about India’s Biodiversity; The UN summits on Climate Change in Lima and in Paris to come; the challenges of Climate Change; Sustainability; the WWF report on Vanishing Wildlife; Earth Day and The Urgency to Slow Down.

It is encouraging to see that people around the world are standing up, are much more vocal and take action in the face of the planet’s dire state. Social media and organisations like Greenpeace, Avaaz, 350.org and many others, report calamities and losses but also the victories gained for the Earth. Signature campaigns offer ways to actively help by registering one’s protest to hold off destructive mining practices, tar sand and oil explorations, and countless other projects that endanger our fragile environment. Global marches against climate change are forcing governments and large corporations to listen and recognise that they are leading the planet on a collision course.

Some corporations, churches, even Oxford University have pledged to divest from fossil fuels, withdrawing their large investments in oil and coal, and to promote alternative energies on a grand scale.

In Auroville, the effort continues to protect the lands and save the Greenbelt from further encroachment. As our small green haven gets more and more hemmed in by an expanding Pondicherry and growing villages, industries, sand mining, and swamped by tourism, we try to make sense, in our daily moving around, of mushrooming housing estates (on ‘farmland!’) and the multiplying small businesses along our roads, with the noise, pollution and traffic congestion that accompany them...

In this fourth year of the Green Column, we have endeavoured to bring updates on the environment in Auroville, the bioregion and the planet, and explored green, sustainable choices for day-to-day life. We’ve organised informative displays on climate change, the UN Summit and Earth Day, promoted the Farmers Market (don’t miss it, now every Saturday at the Youth Centre!), the Locallygious - Local Food - movement, and are once again organising the Sunday walks to Farms and Forests.

These weekly Farm & Forest Walks usually start after Pongal in mid-January and continue till the end of April. Open and free for all (including volunteers, guests and visitors), they are fun occasions for spending time in nature, discovering more of Auroville, learning, socialising and networking. You will be guided by one of the stewards either on a morning or afternoon walk. Look out for the logo and green posters appearing soon on the main noticeboards, and announcements in the N&N with timings and directions.

We wish our readers a green and peaceful 2015, a year where the many challenges and tasks facing us can be approached in creative, constructive ways for the good of the whole planet. Lisbeth, Bridget, Jasmin avgreencenter@auroville.org.in

The Green Column appeals bi-weekly in the N&N as an initiative of the Green Center. We invite you all to share with the community your green news, concerns, initiatives, and sustainable choices & tips for everyday life. The column is also published on AVNet.

We are still working on a dedicated space on the intranet where all the Green Columns can be accessed chronologically by subject, and hope in the coming year to compile and publish a Green Column booklet.

Notes

The Gregorian Savitri - An Impression

Note: On December 18, Heather Lee and Dr. Kim Cunio from Australia recited at Savitri Bhavan selected passages from Sri Aurobindo’s epic poem Savitri in, to quote from their announcement, “traditional Gregorian modes as well as later modes of the Cathedral of Notre Dame in Paris and those of the acclaimed mystic composer Hildegard of Bingen (1098 – 1179).” It was an exceptional experience to hear them recite - a mystical singing, I would say. Below, a poetic rendition of my impression.

The psychic airwaves
The music of voice from new lands, A different sound of Savitri
A different experience of the epic
The Gregorian Savitri
Heather and Kim, the two singers
The two lovers of the master’s labour
Takes you to the ether of words
Brings you the comfort of consciousness
The Gregorian Savitri
The software of hardware
The core of Christian civilization
The Western tune
The Eastern Veda

The Gregorian Savitri
The opening of the morning sky
The gorgeous blossoming of a bud
The graceful flow of a mighty river
The tranquil surge of a mountain stream
The Gregorian Savitri
The ancient aspiration
A modern Seer
A future vision
The Sweetness behind past, present and future
The Gregorian Savitri

Aryadeep ((24.12.14)
PS: Heather Lee and Dr. Kim Cunio are going to recite again on Friday 26 December at Bharat Nivas at 7.30 p.m. Do not miss it. They are cherishing “a long term project to chant the entire text” of Savitri in this way.

**More about the singers (from the announcement):** Heather Lee has Australia’s finest voice and has performed at the Whitehouse, the Olympic Games, the United Nations and many festivals, singing everything from opera to early music. Dr. Kim Cunio is a leading composer, researcher and performer of sacred music and has been commissioned to set many of the world’s spiritual treasures to music including the Dead Sea Scrolls, the Khalili collection of Islamic art and the Louvre’s collection of Egyptian antiquities. **Clarification Concerning Inuksuk**

The International Zone Coordination Team would like to respond to the letter that appeared last week’s M&N from the Board of AVI Canada opposing any movement of Inuksuk. We welcome this feedback even though it is based on a misunderstanding because there is no proposal from us or from TDC (who is the authority to do this) about moving Inuksuk. Certainly, moving the Inuksuk to make way for a symbolic focal point of the European area was never proposed as asserted in the letter, and never would have been agreed.

The misunderstanding may have arisen because the Canadian Pavilion is planned for the area of the International Zone which is under the stewardship of the Darkali Community. Many people are aware that there is an overall plan for the International Zone approved by L’Avenir as well as the International Zone Group from some years ago. In this plan the area designated for the American Continent is positioned in Darkali. As a result of this plan, the then USA Pavilion was also designated for Darkali creating a controversy that could only be later resolved by creating International House as a project of the US Pavilion Group and the Pavilion to be located in Darkali...

We would like to thank the Board of AVI Canada for clarifying that the Inuksuk is not the Canadian Pavilion and is meant for the Zone as a whole with a universal symbolism for indigenous people.

The present International Zone Coordination Team is working with L’Avenir to come up with a 5 year development plan, and the preliminary planning is being done. This work is at an early stage; with the IZ team working on a draft proposal for L’Avenir, which could be the basis for ongoing planning work. This new plan will take into account input from various sources, including Pavilion Groups and AVI Groups. Two well attended meetings have already taken place where all the Pavilion Groups were invited to participate and give their feedback. The work on the present proposal includes consultation with all interested parties and the incorporation of recent studies of the ground realities and environmental parameters. Sub-groups are presently working on this proposal.

We are happy to report to the Board of AVI Canada that much more has happened in the International Zone in the last forty years than just the Inuksuk and International House you have mentioned. There has been the establishment and expansion of the Visitors’ Centre, Savitri Bhavan, and Unity Pavilion. Two large developments are underway with the Auroville Language Laboratory and the Tamil Heritage Centre. Construction and renovation is almost never ending at Bharat Nivas. However, this is no defense of the past but an opportunity to now express our wish to accelerate development and activities. New permanent housing will soon begin supported by the new infrastructural developments of water and electricity. Temporary housing as well as one temporary industrial unit has also been recently introduced. Africa House is starting to take shape and innovations like the Sankalpa Art Project and the Hungarian Caravan are beginning.

We would therefore like to reassure AVI Canada and the Auroville Community that anyone who has any issue is most welcome to come and discuss it with us directly. Anyone who would like to contribute to this work is also more than welcome.

For any further clarification, please contact the IZ Coordination Team at izcoordination@auroville.org.in

**Message of L’avenir about the Inuksuk**

*The following e-mail has been sent by L’avenir d’Auroville on Dec. 18, 2014 to the following persons and groups: Renu, Monique P, Mita Radhakrishnan, B, Christian Feuillette, Vani, Auroville International Zone Team, Jyoti Naoki Eri, International Zone coordination group, Fif, ElaineCatherine, Martin Littlewood*

Dear all,

It has been brought to our attention that an exchange of mail is happening in relation to the relocation of the Inuksuk sculpture. In this regard we would like to clarify that TDC/L’avenir is not informed of any proposal to relocate the Inuksuk sculpture. It is only L’avenir that has the mandate to approve construction of building or their relocation.

For the time being this topic is not in the agenda of L’avenir and no party has formally approached L’avenir with such proposal.

Thanks, TDC / L’avenir Planning team

'Through Kolam Eyes' an Exhibition by Grace
At Pitanga Cultural Centre opening January 3rd with an inauguration at 6.30pm and light refreshments followed by 30 minute dance performance. The exhibition runs until January 25th.
Paintings, collages and installation of archetypal Kolam patterns that narrate and weave together stories of their origin, meaning and intention.

Kolam is practiced by the Tamil women in South India as a long forgotten Syllabus, still alive, it now is considered an Ephemeral art form made up of powdered dot and lines that are poured skilfully with the finger’s intelligence into a visual or non-verbal Language that has the ability to speak in symbols. These Kolam forms and shapes are Universal and accessible to all humankind regardless of religion, culture, tradition and race. Therefore the Kolam has a tremendous potential to enact as a learning tool. We find within the Kolam a treasure house filled with Riddles, Numbers, Sacred-Geometry, Mandalas, Yantra’s, Tessellations, Fractals, Mantras, Sound Patterns, Science, Animal and Plant DNA structures and so on...

YOGIC PERMACULTURE WORKSHOPS
Nath Yoga - Introduction and History
2-3-4 January 2015, 7 - 11 am
Venue: Sunspace at Windarra near Ganesh Bakery
Permaculture in India is as ancient as the vedas, it was known by the name panchavatika or 5 level plantations. Forest plants do not naturally carry the kind of calories we need, panchavatika is the technology of non-violently persuading the forest to produce crop we can eat, and its principles are similar to permaculture with one added focus, the farmer. In Yogic Permaculture (Panchavatika) the nath yogis have incorporated yogic techniques for the farmers so that they could be in tune with and focused on the rhythms of nature and the bio-rhythms of the planet. Understanding subtle life force energetic rhythms through yoga, the farmer is able to induce the right timing and rhythm on his permaculture farm. In the Yogic Permaculture course Ashwin Mohan will teach 44 important yoga practices that will clear the mind and focus on natural rhythms for the purpose of permaculture.

Ashwin Mohan is an ordained Nath Yogi and holder of the 312 techniques of the Nath Yoga Parampara. He is also a renowned activist; his non-profit Na Boli Trust is working to end sexual violence in India by inducing a culture of respect and value. Once upon a time a entrepreneur and business consultant he took sanyas and dedicated his life to empowering social causes by rejuvenating living environments for a harmonious human and nature interaction.

Timings: 8.30 AM - 12.30 PM (8 hours)
Bookings: Quiet Healing Center (tel. 2622329 / 9488084966)

Many consider Watsu the most profound development in bodywork in our time. The holding that working in water necessitates brings the receiver to a new level of connection and trust. This, combined with the therapeutic benefits of warm water and greater freedom of movement, creates a therapeutic modality that affects every level of our being.

Learn to give and receive some simple yet profound movements in warm water. Using the water as support, you will learn to float, massage, stretch, cradle and hold someone in tune with the breath. Watsu Introduction offers an excellent exposure to the world of Watsu and is an ideal precursor for the Watsu & Liquid Flow Basic course. No previous experience required!

Tantsu Yoga Introduction with Bogi
Dates: Thursday 8 - Friday 9 January 2015 (2 afternoons)
Timings: 1.30 PM - 5.30 PM (8 hours)
Bookings: Quiet Healing Center (tel. 2622329 / 9488084966)

Tantsu Yoga has grown out of Watsu, a bodywork modality developed in the 1980’s by Harold Dull that involves floating and stretching people in warm water. In Tantsu, the unconditional holding of Watsu is brought back onto land.

In this excellent intro into the world of Tantsu Yoga, you will stretch and move your partner in rhythm with the breath, engaging your whole core, both body and heart center. Rather than a fixed sequence, you will learn how to explore the potential in each position and move in ways that keeps each interaction new. No previous experience required!

Water & Dance with Dariya & Daniel

Timings: 9.00 AM - 6.30 PM (15 hours)
Bookings: Quiet Healing Center (tel. 2622329 / 9488084966)

A 2-day workshop for lovers of movement, dance and flow. We will playfully explore and express ourselves on our own, with partners and in group, on land and in water. From self-connection to allowing movements to unfold - no one deciding where to go, while opening doors for non-verbal communication and sharing.

Connecting on land with our deeper longings, we give the body permission to find its own ways of expression and possibly contact others. Warm water with its sense of weightlessness and fluidity invites us to let go and experiment with our own organic, flowing way of moving. Water & Dance gives 15 hours of credit for registration as a supplemental class with Watsu India. No previous experience required!

AT SAVITRI BHAVAN
Monday, 29th of December 2014 at 6:30 pm.
“MEDITATIONS ON SAVITRI - Book 1: THE BOOK OF BEGINNINGS, Canto 1: THE SYMBOL DAWN”
“It was the hour before the Gods awake. / Across the path of the divine Event / The huge foreboding mind of Night, alone / In her unlit temple of eternity, / Lay stretched immobile upon Silence’ marge. / ... A fathomless zero occupied the world.”
A film by Manohar of Huta’s paintings illustrating passages from Savitri read by The Mother and accompanied on her own organ music. We supply photocopies from the “Savitri” texts read by the Mother, so that the texts could be followed when watching the film. Duration: 46min.
Tocopilla, a coastal town on the edge of the Chilean desert. The director, Alejandro Jodorowsky was born in 1929 in an unhappy and alienated childhood as part of an uprooted family. Blending his personal history with metaphor, mythology and poetry, the film reflects Jodorowsky's philosophy that reality is not objective but rather a "dance" created by our own imaginations. An off-beat film presenting an interesting interpretation.
