Someone wrote to me from France that he had tried everything that everything had failed, that he is quite desperate and... So I answered this:

It is when all appears to be lost that all can be saved. When one has lost trust in one's personal power, one must have faith in the Divine Grace.

It's useful for many. It has been said I don't know how many times, but it always seems necessary to repeat it.

(...) No, no news....I don't quite know what attitude I should have with regard to this book. Not that I worry, but ...I think about it. I wonder whether it's guided?

You know, mon petit, MORE AND MORE and in an ABSOLUTE way, I SEE - I see, I feel that EVERYTHING is decided.

Everything is decided.

And each thing has a raison d'etre - which eludes us because our vision isn't wide enough.

You understand, if it were otherwise, life, existence, anyway the world, would have no meaning.

Yes.

It's... it's a sort of absolute conviction. And I SEE it, you know, it's something I see. How could I put it?.... That conviction, I am now paying for it! The body, in its transfer of authority (what I call the transfer) goes through difficult moments, really difficult, and then, seen with the ordinary vision, it would make no sense because difficulties appear to increase with what we might call the "conversion," but... to the true vision (when you are IN the true vision) it's what is left of Falsehood that is the cause of all unpleasantness (what's still mixed). Even quite materially (morally, it's been conquered for a long time: with the disappearance of desire of humanity disappear and are replaced by a perpetual smile, absolutely sincere - not willed, but effortless, natural and spontaneous), but what I mean is PHYSICALLY, materially: discomforts and difficulties and all that. It's the same thing. It's the same thing, but... one is less ready, you understand; matter is slower to be transformed, so there is more resistance.

The only solution, every minute and in every case, is... (gesture of surrender): "What You will." In other words, the abolition of preference and desire. Even the preference not to suffer.

But what's hard to understand is that this Consciousness ...I can understand that it guides everything in the immensity and eternity, but does it guide everything down to the smallest detail? That's the ...

In the microscopic.

That's just what I was seeing, I understand why. This morning the problem was there: the individual consciousness, even very vast, cannot realize, that is to say, cannot concretely understand the possibility of being conscious of everything at the same time. Because that's not the way it is. So it finds it difficult to understand that THE Consciousness is conscious of EVERYTHING at the same time: in the whole, in the totality as well as in the smallest detail. That...

Yes, it's difficult.... But it's comforting!

Ah, that makes you very peaceful, very peaceful.... The other day I told you that the body had had the experience of dying without dying, and it was useful in that the body said, "Well... it's all right." Accept without... (what's the word?) without effort - ADHERE. Then it's over. The entire old illusion of disappearing with the body's dissolution, it's a long time since it went away, of course, and now the body itself is quite convinced that even if it were scattered like that (in "death"), that would widen its field of consciousness.... I don't even know how to explain because for the consciousness, this sense of the personal and the need of the personal has vanished.

I clearly see, the body clearly realizes that it's only its own resistance - its resistance to the Truth - that makes it possible for it to suffer. Wherever there is complete adherence, suffering disappears instantly. (Silence)

But it's the same thing for countries and nations: it's the same change of authority. Instead of personal authorities, there will be a divine authority, and the same change of authority causes the unspeakable chaos we live in - because of the resistance.

(long silence)

The nearer a part of the being (any part) draws to the moment of the transition, that is, the more ready it is for that transition, the more sensitive it becomes. And then, when you reach the point where you can go beyond the stage of problems and see with the universal vision, problems take on, to the personal sensitivity, a most intense acuteness. I had noticed it before, and now it's recurring for the body. It's acquiring a... terrifying sensitiveness, you understand. People who don't know why things are like that really get terrified.... The possibility of discomfort, of... It's the same thing with problems. Only, for those who KNOW and who have understood, it's the opportunity of making the last progress, of doing this (Mother opens her hands upward).

Basically, what still has the illusion of being something separate must dissolve. It must say to itself, "It's not my business, I don't exist." That's the best attitude it can take. Then... it goes into the great Universal Rhythm.

(meditation)

TDC - L`avenir d`Auroville - 4th Jul 2015

The following Site and Building applications are announced for feedback from the community for a period of two weeks. The announcement is made for feedback only and does not mean that the project has final approval.

The final approval is given when L`Avenir / TDC issues an NOC (No Objection Certificate). This happens only once the feedback has been evaluated, final decision by TDC has been reached and the necessary financial formalities have been completed. It is only after issuing a final building permission that fencing, building or any other activity on the site can start. It has to be noted that site permission is given to reserve the site for a maximum period of two years in order to prepare a project proposal. It does not give any right to fence and clear the site unless, for practical reasons, there is a special permission of TDC.

1. AV Natural Camp, KodaiKanal, Storeroom

Site permission:
1. Site for Two Peripheral Fence with Gate in International Zone

Description: We are mainly focused on organic Dairy farming. It is a very healthy and environmental friendly product. It is free from pesticides/chemicals. Consumers` outlook for food products is becoming more precise and definite in terms of safety and quality. This will lead to the growth of milk products in particular.

Target Group: Farm Group
Background: we will produce Standardized and poison free food for our community. Supply high nutritious and healthy food at an affordable price to Auroville citizens. Minimize all
form of pollution to reduce carbon footprint that may result from agricultural practices.

**Triggers:** We were basically born in a farming family. We always loved to do organic farming. Boomadevi’s farm aims at growing healthy and sustainable food for the Auroville community and bio region. Currently there is a shortage of milk supply in Auroville which mostly depends on the outside market. We will soon participate with Auroville milk cooperative and try developing dairy industry more productive and standardized.

**Goals/Objectives:** Our intention is to do good work that helps to achieve a sustainable use of the land natural resources. We will keep on learning and discovering more about traditional organic methods of farming techniques. We are very confident; we will do farming work in harmony with nature rather than against it. We will use tried test techniques to achieve good cropping yield without harming the natural environment or the people who live and work in it. We believe that the methods used in AVFG are very close to Sri Auroboido’s integral yoga. We want to demonstrate sustainable practice in agriculture extension.

TDC asks for feedback from the residents of Auroville within two weeks from the date of publication. If anyone wishes to have detailed information, feel free to contact TDC - L’avenir d’Auroville office: 262-3568 or come personally to the Building Application section.

**Announcement - 1**

**WATER**
TDC is planning the laying of a waterline from the Crown Road (Gaia crossing) to Habitat/Administrative area. The extra water supply has become necessary because new projects are coming up (Sunship, Archives etc.). At the moment the zone is dependent on one bore well that is too fragile. The route will follow the existing mud road from the Gaia-crossing to Matrimandir. See map. (See map on Auronet)

**Announcement - 2**

Laying OFC
Laying of an OFC connecting Community Cluster to the Network Center in Town hall via the School Cluster. For details and map visit TDC office or contact Chandresh/Manu. (See map on Auronet)

2. All money transfers in this regard have to happen via Unity Fund/Financial Service.

I wish to transfer my current stewardship
1. A certified and registered Govt. evaluator will conduct the asset valuation.
2. The house/flat will be published in N&N/Auronet for 2 weeks, for community feedback. During this time interested parties may visit the asset by appointment, to set up please inquire at the office directly or via housing@auroville.org.in
3. Genuinely interested parties will enroll their name along with other details at the Housing Service, which will then be forwarded to the relevant community for review and selection; likewise 2 weeks are given for this step to be covered. Failing to respond within these 2 weeks, results in Housing Board filling in this role. More time can be given, taking into account any exception to the case.
4. When anyone decides to leave Auroville with no plans for return, a request can be submitted to the AVC, if s/he requires repatriation assistance. Such request for assistance in case of repatriation is in no connection to the estimated value of the currently stewarded house. All housing units whether residential or commercial in Auroville, are under the care of the Auroville Foundation, they are considered as ‘Donation to Auroville’.

In all such cases no reimbursement of liquid capital equivalent to the value of the housing asset will be entertained, as the unit is considered a ‘Donation to Auroville’. However, the present value of the house can be reserved for future housing at the Auroville Financial Service, under a given name and up to 5 years in case the steward decides to return. Failing to return within those 5 years would result in stewardship and all relevant rights being cancelled.

5. The Housing Service may be approached for assistance in case personal funds for repair/ renovation, or all cases of essential work, are limited in availability. Requesting such assistance would need to be accompanied by NOC (Non-Objection Certificate from L’Avenir/TDC for relevant work in other cases not, to be advised by members of that office) and an estimate of preliminary work. This will be reviewed and if need be relevant recommendations and assistance given. Priority goes out to members of this community without/ with limited means/ and all those working in recognized services for no less than 4 years.

**Attention**
We would like to kindly remind that all housing units, whether residential or commercial in Auroville, are under the care of the Auroville Foundation, these are considered as ‘Donation to Auroville’. Therefore all stewardship transfers need to be administered by the Auroville Housing Service. No housing asset can be altered into either an Office, Guest House or a Newcomer Unit, without prior concession of relevant working groups.

A/ If a steward of a housing unit leaves Auroville, no reimbursement of liquid capital equivalent to the value of the housing unit can be entertained, as the unit is considered a ‘Donation to Auroville’. However, the present value of the house can be reserved for future housing at the Auroville Financial Service under a given name and up to 5 years, in case the steward decides to return. The right to steward selection
FOR YOUR INFORMATION

NETHERLANDS = On 7 June AVI Netherlands held its general assembly in the southern city of Nijmegen. Board members are still Wim van Megen (president/secretary), Jan Pieter Derksen (treasurer), while Josee Lamers and Adri Bolsenga are general members. Ms Lamers, who presents the centre on the umbrella AVI Board, and who is candidate president for a new Dutch AVI board, has been requested to find new general members for the same.

In a pleasant ambiance, the general assembly was updated on various developments in Auroville. Among these was a detailed update of the ICT/optical fiber project of Aurovilians Chandresh, Manu, JV and others, that is getting more and more shape. It was given at the hand of the elaborate "Auroville Campus Area Network" presentation, put together by young Dyuman. All this and more in the centre’s recent newsletter downloadable at: http://goo.gl/CHc9Ez

UK = The AVI UK centre came out with a newsletter that endeavours to veer a bit away from the club bulletin format to a paper with more in-depth articles. “The Newsletter will continue to give news and updates from Auroville and AVIUK, but from time to time we will feature some aspect of the vision of the founder, whom we know as the Mother, and her originating purpose in creating Auroville. She saw the emerging township as a place in which the research into our human condition and the future evolution of our species, so brilliantly expounded in the works of Sri Aurobindo, would be carried forward for the benefit of all mankind. In this issue we begin to explore the nature and possibilities of human consciousness as an integral part of Auroville’s mission to India and the world.”

The articles in the current letter are mainly written by Alan Vickers (Vikas), Sonia Dyne and Alan Herbert. It can be obtained from the centre’s secretary Angiras via info@aviuk.org.

ACRES FOR AUROVILLE = Centres are rejoicing with regard to an announcement from the Auroville Land Board of a first 1.6 acres land acquisition directly adjacent to Matrimandir, made possible by the Acres for Auroville campaign, the joint action of Auroville International with Lands for Auroville Unified (LFAU). The A4A team writes: It was “the most central piece of unpurchased lands in Auroville” (the words of one Aurovillian) and it’s now fully recorded in the Tamil Nadu Land Registry. “We warmly congratulate Auroville’s Land Board for this success!”

AUROHOST = a small update from Bryan (AVI USA) tells us that AuroHost – Hosting traveling members of the Auroville worldwide family – lists at the moment 127 members from 19 countries (most of them from India, Germany and USA), while 5 hosting requests are in the process of being worked out right now.

FRANCE = AVI France held its general assembly in Paris on Saturday, 20th of June.

Remembering a vehicle registration plate number: Security Advice

Once I tried to stop a molester and he managed to escape. I only managed to get the first few numbers and letters, but it didn’t help much.

In a situation where you sense a vehicle is suspect, you don’t have much time, sometimes just a second, especially if it tries to escape. In addition, you would be emotionally affected/stressed, and here are a few tips. Basically, it is always better to first try to remember the 4 last digits if you cannot remember the whole number.

For example, take a Silver Unicorn with registration number TN 12 A 6789
TN: The State. In our area, mostly PY / TN / AP / KA / KL (other states are rarer but also possible). If you remember only the State, there are lakhs of such vehicles. 12 A: The District and RTO centre where the vehicle was registered. Potentially hundreds of such vehicles under the same code. 6789 The last 4 digits are the most important because they can allow you to identify one vehicle out of 9999 other vehicles.

In case you remember only the 4 last digits and the model/colour of the bike/car (i.e silver Unicorn 6789), it should not be very difficult to find all the silver Unicorns bearing number 6789 as there are only few. The Police would have an easier job in identifying the vehicle.

SNEEZE GUARD at Solar Kitchen

Since several days a new SNEEZE GUARD has been put at the food counter of the Dining Hall. This is a glass shield to protect the food from sneezing or coughing or other contagious stuff. The size was worked out along the existing infrastructure to disturb as little as possible the flow of movement everybody is used to. It’s an improvement of Solar Kitchen’s food safety needs to reduce the possibilities of getting infected via the food served. Bon appetite - Angelika, Solar Kitchen Team

From Home-growers to Farmers of AV

Is there anybody out there who knows what best to do in case of continuous invasion of goats/cows in your garden?
1. What is the best attitude towards local villagers? / 2. What is the policy if you injure a goat/cow during the chasing? / 3. Can I catch the goat/cow and keep it? / 4. What is the best way (functioning, cheapest, and most in harmony with nature) to build a fence? / 5. What happens if my “living” fence (e.g. Bamboo, bougainvillea) grows in somebody’s field? / 6. Any other suggestions?

lost & found

Books owner (lost)_I am trying to find the person who left some books in Vanaville workshop in April before I left for France as I can't figure out who this is. I forgot to ask the name and a tel no. So my number is: 9442485841 or the book owner can pass by in the morning at the workshop. The two books are: Snow White & Rose Red by Patricia C. Wrede and the other book is: The Empty House by Rosamund Pilcher. Thank you to contact me and sorry about that.

thank you

For enabling me to be a Fundraiser

It has been a sheer joy to do a bit of fundraising for the Aquadyn water project through AVHS, AV land purchase, TV for the World Cup fans at the Visitors Centre, AV schools under SAIER like Future school or Deepanam and my first Peace Tree project or Earthstewards project, founded by Danaan Parry in the early nineties. I was then a fresh graduate from Pondicherry University and I believe that all young Aurovilians have this potential.

Verite Eleanor, donated four hundred dollars for the above mentioned programme: only if I reached the U.S. I needed the extra cash since I was preparing for TOEFL exam at Portland in order to peruse my Ph. D. in English Literature. The program participants and the coordinators in America were impressed by my articles for their newsletter and handbook.

To conclude, I not only impressed them with my articles but also read my messages in Camden Sunday's mass. Had never heard such laud applause ever before. On my return I shared those documents and a few snaps with our last donor. She rewarded me with a cheque of five thousand dollars for the next batch. I assume that if that group would have reported to her like I had done, then the following batch would have got double or five times more! Donors like to have a report ultimately.

If you have lived in the Aspiration bathroom space for two or more years, as I had done in the past with a leaking roof, then your are bound to work for longer hours, do intensive fundraising for AV land and give the best to AV. As a teacher, it enabled me to make my students work harder than ever and score 98% in public exams on my subject at Udavi school.

"To strive, to seek, to find, and not to yield...” Ulysses, by Alfred Lord Tennyson.

Best wishes for the AV youths and future fundraising team. Thanking you all Aurovilians for allowing me to help.

AV famers

Thank you AV famers for growing all the tasty organic vegetables and fruits.

This year in PTDC and in food link we found much variety in AV grown vegetables and fruits.

In the season we got even carrots, beetroots, cauliflower and cabbage next to capsicum, cucumbers and all the known and more easily grown stuff.

in May and June tomatoes, different spinach types and cucumber were available together with good, tasty beans, lady fingers and egg plants.

Not to forget the wonderful bananas of different size and colours, papayas, citrus fruits, lemons, bullock hearts, castor apples, chikoo, mangoes and jackfruits, coconuts and avocados, and other exotic fruits.

Thank you for your big effort to provide Auroville with good health organic food!

For Goupi

Dear community members,

This is a request to those of us who have cars. Would it be possible for you to take turns and give Goupi a ride to the Matrimandir sometimes?

He has recovered well from his hip replacement operation and can walk short distances but the Matrimandir is still too far for him to make it on foot from Arka where he is at present. He also cannot cycle for some time to come.

We think it would be nice if he could be taken once a week in the morning (at 8.30/8.45) and once in the late afternoon (5.00/5.30). He simply needs to be dropped off at the office gate entrance and be picked up from there at a given time either by the same or another person. An attendant will accompany him during these visits.

Please contact Mechtild (9655963914) or Joy (2622372) for coordinating the trips.

With hopes for a positive response to this request. See you soon.

His friends and caregivers (on behalf of Goupi)

For Jayaram

I, Jayaram from Shanti community, and longtime member of the Matrimandir team need some support.

After the amputation of my second leg, I need daily dressing, medicine and home care. My family members cannot support me financially, so I request the Auroville Community for support and help. I hope you will understand my situation.

Any support is most welcome and a special PT account: 25 11 35 - Jayaram medical, has been installed.

Thank you in advance for your kind help and support, Jayaram.

To develop and edit “The Auroville Bioregion Handbook”

This is a call for Aurovilians support and advice, to whoever may be interested in assisting Mohanam to develop and edit “The Auroville Bioregion handbook” on the villages in the bio region. We have already captured information and data over the past 8 years. We are now trying to get it into a format to present to the PCG. They have already indicated some interest and support for the project and have suggested that we form a small group from within the community to manifest this. We have shared this with various Aurovilians who are familiar and engaged in village activity and they also feel that they would like to develop a co-creation process.

If you have any interest, please email: mohanam@auroville.org.in and we will reply with more information. Please feel free to contact Balu on: 9943644757.

TALKS, SEMINARS

The French Pavilion
Presents
“ALONE IN THE IMMENSITY OF THE COSMOS?”
A talk by Alain Doressoundiram
Astrophysicist at the Observatory of Paris

Since that day in August 1995, when a team of the Observatory of Haute-Provence, France, discovered the first extra solar planet near the star 51 Pegasus, the long quest of the astrophysicists has ended. Today, we know there are several thousand extra-solar planets. These discoveries found a lot of resonance among a large public as it is a subject touching many of us as it is about our place in the Universe. Admittedly, for the moment, many big “hot Jupiters” have been detected, but we are now able to observe planets similar to ours, and furthermore to start answering the fundamental question, maybe one of the biggest challenges of present-day science: are we alone in the Universe?

Friday, 17th July 2015, 5:00 pm Cinema Paradiso, Town Hall
The talk will be in French with simultaneous English translation.

**ONE MAN, ONE COW, ONE PLANET**

2007, 56 minutes. Directed by Thomas Burstyn

A film about the farming revolution in India and one man out to save the world. This film exposes globalization and the mantra of infinite growth in a finite world for what it really is: an environmental and human disaster. But across India marginal farmers are fighting back. By reviving biodynamics, an arcane form of agriculture, they are saving their poisoned lands and exposing the bio-colonialism of multinational corporations

This film tells the story through the teachings of an elderly New Zealander who many are calling the new Gandhi. Before the movie at exactly 6:30 you are welcome to join us for a full tour of Sadhana Forest and an update of our most recent work! After the film you are welcome to join us for a free 100% vegan organic dinner!!

**AT SAVITRI BHAVAN**

**“PLANET EARTH - THE FUTURE - INTO THE WILDERNESS”**

The film by the BBC “Planet Earth Production Team” is looking at many aspects: at the relation between Nature and Economy, at the problem of growing economy, consumption and wealth and that on the other side Nature is giving us food for free and that ever more the wilderness is shrinking as the human population is growing. The film is also reflecting on the true value of wilderness, the very interesting relationship between wilderness and sacredness. Wilderness gives something which civilization cannot give - you are in front of something greater then yourself and in this way Nature speaks to humans of the transcendence. Duration: 59min.
