Brahman always reveals himself to us in three ways, within ourselves, above our plane, around us in the universe. Within us, there are two centres of the Purusha, the inner Soul through which he touches us to our awakening; there is the Purusha in the lotus of the heart which opens upward all our powers and the Purusha in the thousand-petalled lotus whence descend through the thought and will, opening the third eye in us, the lightnings of vision and the fire of the divine energy. The bliss existence may come to us through either one of these centres. When the lotus of the heart breaks open, we feel a divine joy, love and peace expanding in us like a flower of light which irradiates the whole being. They can then unite themselves with their secret source, the Divine in our hearts, and adore him as in a temple; they can flow upwards to take possession of the thought and the will and break out upward towards the Transcendent; they stream out in thought and feeling and act towards all that is around us. But so long as our normal being offers any obstacle or is not wholly moulded into a response to this divine influence or an instrument of this divine possession, the experience will be intermittent and we may fall back constantly into our old mortal heart; but by repetition, abhyasa, or by the force of our desire and adoration of the Divine, it will be progressively remoulded until this abnormal experience becomes our natural consciousness.

When the other upper lotus opens, the whole mind becomes full of a divine light, joy and power, behind which is the Divine, the Lord of our being on his throne with our soul beside him or drawn inward into his rays; all the thought and will become then a luminosity, power and ecstasy; in communication with the Transcendent, this can pour down towards our mortal members and flow by them outwards on the world. In this dawn too there are, as the Vedic mystics knew, our alternations of its day and night, our exiles from the light; but as we grow in the power to hold this new existence, we become able to look long on the sun from which this irradiation proceeds and in our inner being we can grow one body with it. Sometimes the rapidity of this change depends on the strength of our longing for the Divine thus revealed, and on the intensity of our force of seeking; but at others it proceeds rather by a passive surrender to the rhythms of his all-wise working which acts always by its own at first inscrutable method. But the latter becomes the foundation when our love and trust are complete and our whole being lies in the clasp of a Power that is perfect love and wisdom.

The Divine reveals himself in the world around us when we look upon that with a spiritual desire of delight that seeks him in all things. There is often a sudden opening by which the veil of forms is itself turned into a revelation. A universal spiritual Presence, a universal peace, a universal infinite Delight has manifested, immanent, embracing, all-penetrating. This Presence by our love of it, our delight in it, our constant thought of it returns and grows upon us; it becomes the thing that we see and all else is only its habitation, form and symbol. Even all that is most outward, the body, the form, the sound, whatever our senses seize, are seen as this Presence; they cease to be physical and are changed into a substance of spirit. This transformation means a transformation of our own inner consciousness; we are taken by the surrounding Presence into itself and we become part of it. Our own mind, life, body become to us only its habitation and temple, a form of its working and an instrument of its self-expression. All is only soul and body of this delight.

This is the Divine seen around us and on our own physical plane. But he may reveal himself above. We see or feel him as a high-uplifted Presence, a great infinite of Ananda above us, — or in it, our Father in heaven, — and do not feel or see him in ourselves or around us. So long as we keep this vision, the mortality in us is quelled by that Immortality; it feels the light, power and joy and responds to it according to its capacity; or it feels the descent of the spirit and it is then for a time transformed or else uplifted into some lustre of reflection of the light and power; it becomes a vessel of the Ananda. But at other times it lapses into the old mortality and exists or works dully or pettily in the ruck of its earthly habits. The complete redemption comes by the descent of the divine Power into the human mind and body and the remoulding of their inner life into the divine image, — what the Vedic seers called the birth of the Son by the sacrifice. It is in fact by a continual sacrifice or offering, a sacrifice of adoration and aspiration, of works, of thought and knowledge, of the mounting flame of the Godward will that we build ourselves into the being of this Infinite.

THE SYNTHESIS OF YOGA,

SRI AUROBINDO

In moments when the inner lamps are lit
And the life’s cherished guests are left outside,
Our spirit sits alone and speaks to its gulfs.

ANNOUNCEMENTS

Youthlink Hub Design Workshop
When: 9:00 am - 12:30 am, Saturday 23rd January, Unity Pavilion
Facilitated by: Sindhuja, Michael, Suryamayi, UmaRamanan, Vinay, Kavitha

The Auroville Retreat highlighted the need for more youth engagement and opportunity within Auroville. In response to this need, YouthLink has developed a proposal to build a space in the International Zone which would serve as a hub for Auroville youth engaged in higher education programs, apprenticeships, and start-ups, and promote exchange and interaction with volunteer youth, visiting students, and others from the bioregion.

This is a “for youth by youth” project whose success depends on your participation. We invite ALL youth who have been brought up in the Auroville area, who care about our community’s development, to come design this space with us. If you are 17-35 yrs old and studying/working/Living in Auroville, we encourage you to join.

This proposal is very dynamic, and has received a lot of support from the Retreat’s Action Groups and many Working Groups and Services – thus we may have a real potential for this youth-designed and youth-implemented project to come to life. We are in process with L’Avenir. We have also presented this proposal to the Governing Board, International Advisory Council, Working Committee, Bharat Nivas, International Zone and AV 50th Anniversary Planning groups.

We propose to build a Phase 1 before 2018, so that we can inaugurate the space by hosting a Youth event to celebrate Auroville’s 50th Anniversary in February 2018, in line with the Vision for the 50th being, “To re-inspire our individual and collective aspiration, in order to contribute towards achieving the Auroville Charter and Dream…” and hoped outcomes of the 50th being “A renewed sense of the raison d’être of Auroville by means of inspiring events and initiatives…”

We hope to see you there and look forward to your input. Warmly, the YouthLink Construction & 2018 Event Teams [Email: youth@auroville.org.in, Phone: +91 8940568266, +91 9751944989]

Regarding the Data Management Group
Dear Community members,
Some residents have raised concerns about the existence and functioning of the Data Management Group. We would like to clarify its “raison d’être”.

Before the Data Management Group came into existence, the Residents’ Service was in charge of allowing access to the data of the Aurovilians. As the Service felt uncomfortable taking decisions all by itself, at some point in time it asked for the support of the Working Committee in answering to these requests.

As we mentioned in our monthly report of March 2015, published in the News and Notes # 594 of April 11th, 2015, we have set-up a Data Management Group to deal with requests for access to our collective data. Our concern is that a balance is found between protecting our data and allowing their access in the best interests, individually and collectively.

The Data Management Group is still working on a proper process for giving access to community data. It is not withholding data (as it has been wrongly stated). Its concern is that access should only be provided when required by officials, or when the purpose is clearly in the general interest and the data cannot be obtained through other channels.

Data required by the Auroville Foundation office or the RRO, for example, will be submitted without question as this is in accordance with the laws of India. Data required by a foreign embassy or consulate will only be provided when each of the foreign residents concerned informs that s/he has no objection. Requests for a list of all names and email addresses of all foreigners of a specific country, required, for example, to communicate to them the visit of a person from that country, will normally only be given to the person who regularly maintains contacts with the embassy or consulate of that country. Access to data for research purposes will only be given if such research is supported by a recognised Auroville unit or working group. Data will not be shared for advertisement purposes or when the information can be communicated through other channels (e.g. the News and Notes).

As the Data Management Group is still ‘new’ on the job, and is very cautious to protect data from falling in the ‘wrong’ hands, irritations have arisen. We are trying to work them out and arrive at an easier and less bureaucratic process. We thank you for your patience and understanding.

Call for Housing Board members representing community at large
Dear community members,
The term of the present representatives of the community at large in the Housing board has come to an end for a while; the Auroville Council invites you to volunteer yourself for the new community representative positions in the Housing board.

If you feel the call to volunteer in this community service, please contact: avcoffice@auroville.org.in, Phone: +91 8940568266, +91 9751944989] - before the 27th of January 2016.

To view the present housing policy and mandate, please visit the Auronet at these links:

Sincerely, Auroville Council

L’avenir d’Auroville: 16th Jan 2016
The following Site and Building Applications (SA and BA) are announced for feedback from the community for a period of two weeks. The announcement is made for feedback only and does not mean that the project has final approval.

The final approval is given when L’avenir d’Auroville / TDC issues an NOC (No Objection Certificate). This happens only once the feedback period is over; the feedback has been evaluated, a final decision by TDC has been reached and the necessary financial formalities have been completed. It is only after issuing a final building permission that fencing, building or any other activity on the site can start. It has to be noted that site permission is given to reserve the site for a maximum period of two years in order to prepare a project proposal. It does not give any right to fence and clear the site unless, for practical reasons, there is a special permission of the TDC.

FOR YOUR INFORMATION

Cristo confined to his home due to health condition
At the request of Cristo (Revelation) we inform the community that he has been released from hospital, but will be confined to his home for an unforeseeable period of time, going out for hospital check-ups only. He has been diagnosed with suffering from a rare, autoimmune disorder affecting the kidneys, something for which as yet no cure has been found. The current approach consists of keeping the kidneys functioning by using heavy anti-rejection drugs. Understandably, Cristo’s defense mechanism has no way to handle any extra stress, injury or infection and therefore visits to him have to be restricted and monitored.

He writes: “I must live the life of a recluse for a long while; I’m not too happy about this. So I’ll carry on serving Mother as long as it gets and work from home.”

Those who know him well and would like to visit, better first call or mail him (tel # 2622356, email cristo@gmx.fr). As currently the weather is quite fluctuating and people may carry a cold, you may be asked to wear a surgical mask for him to be safe.

May we all send him some healing energies and love.

50th anniversary project planning
The incredible and rich journey of Auroville takes us further into the future–as we approach the landmark of the first fifty years of its founding by The Mother in 1968. How do we move into the next fifty years? How do we prepare for the Future? This year...February 29, 2016...marks the 12th anniversary of the descent of the Supermind into the earth atmosphere, as an operative force.

The world moves ahead, amidst its upheavals...and the winds of change are visible in their contours! These are our challenges! Have we unusual, unprecedented projects to work on...that could take this universal move further?

From Aster, on behalf of the Envisioning Committee [Please write and share to: 50th@auroville.org.in]

Bharat Nivas... fast forward!

Dear Community,
To share with you the steps we are taking to renovate/complete... Wherever possible... the Bharat Nivas campus - started by The Mother in the early days and of service to us... In this long process, we have taken up the work step by step as funds permitted and as needs arose.

Now Suhasini has prepared a detailed plan of most of the final stages with Anupama, under the guidance of Shri B.V. Doshi. As the Bharat Nivas Group, we are collectively working with them to start implementation. In the coming two years, in may not be possible to continue with some of the present activaties. We will, however, remain in touch.

Be with us - as we embark on this lap of the Bharat Nivas journey!

With love, Bharat Nivas Group

People Food Music

Dear Friends,
People Food Music is a project we are running at Solitude Farm, bringing Permaculture to villages in Tamil Nadu. We successfully concluded a crowdfunding project and as a first project we are working with the children from Chinnamudalilarchavadi.

We have a simple circle garden module (https://www.youtube.com/watch?v=kPYqR6DW97M) which can be made in an hour, planted with a wide variety of edible plants. Along with the circle garden workshop, we give cooking workshops to educate participants about the use of local plants.

As part of this project, and as part of Auroville’s 50th birthday celebrations, we are initiating the circle garden project at Town Hall just opposite the graphic centre.

We want to invite newcomers and Aurovilians to come and learn how to create, maintain and use the produce from these gardens, and to engage in making use of public spaces in creative ways. We envisage a few groups of 5 to 6 participants each, taking care of each circle garden, learning about Permaculture and reconnecting with where our food comes from.

If you are excited by these ideas and vision, and have time you can dedicate, please come to a meeting at Solitude this Saturday, January 16th at 10:30 am.

Love, Krishna & People Food Music Team

**Organic Extra Virgin Olive Oil from my Family Farm in Sicily (Italy)**

Dear friends, as last year, I have an extra amount of organic extra virgin olive oil from Sicily (Italy) and I’m willing to sell a part of it. This is a very special organic extra virgin olive oil for real connoisseurs or those who want to try something totally new to their palate. It falls under the consortium “Monti Iblei” DOP (Denomination of Origin Protected) and in general it has been described by experts as having a harmonious taste; specifically a medium-intense fruity taste, with flavour of herbs, green tomato, artichoke, and hints of chilli, all harmoniously blended in equilibrium. In addition, I can say that the olives coming from my family’s farm (since innumerable generations and since ever organic) are hand-picked by my family and a couple of friends when still fully green, thus producing less oil, but of a different much better quality and taste. For those who don’t know, the best part of olive oil is actually coming from the seed inside the fruit and not from the pulp; in addition a ripe fruit will give a much larger amount of oil, but it will also enhance the acidity of the oil and dilute the pulp; in addition a ripe fruit will give a much larger amount of oil. For those who don’t know, the best part of olive oil is producing less oil, but of a different much better quality and taste.

**Organic Japanese “sushi” rice**

There are still a few kilos available from this batch, if interested please contact Giovanni at 9442328120 or giovanni@aurowille.org.in

George’s Departure

Dears Aurovilians,
It has been one week since my dad left this world. Days are painful for us, far from the ceremonies which took place in Auroville but the philosophy on life and death which my dad passed on to me helps me move forward. It is now more than 30 years ago when I came to Auroville with my father and my mother. I returned there 2 years ago with my husband and my children and I shall return in one year as was planned. I want today to thank you all for having taken care of my incredible dad. He was accompanied as he would have wished it. Furthermore, you, his family of Auroville all knew how to make us live and feel all the feelings in spite of thousands of kilometers. And this is the thing which allows us to move forward.
Thank you, thanks to all his friends, Her daughter, Eve

Thank you for your generosity,

There were some small and big donations for Loraine to feed dogs, at Solar kitchen on Saturday 9.1.2016. I thank you for all those donations - total Rs 7,420. Ivana on behalf of the street dogs in and around Auroville.

A big thank you from Gaëlle

I want to thank all the wonderful people I have worked with and that I have met during my stay in Auroville: you made my experience beautiful and full of surprises and learning! I feel like I have learnt so much about life in general and about myself by being here and sharing my experience with you all. I want to specifically thank from the bottom of my heart: the RAS team, the Auroville Today team, and the ARA group. Also a special thanks to Eco Femme and Koodam (and its partners). There are too many names I would like to write but I know you will recognize yourself! Maybe I’ll see you all again... who knows?
With all my gratitude and admiration, Gaëlle

The biggest and most beautiful Christmas gift I ever got

This gift is so big it is all around me, and so beautiful I never even dreamed I could ever live there...

Yes, those of you kind enough to feel concerned by my poor housing situation needn’t worry about me any longer: I am now living in Luminosity, near Vikas and Creativity, a place I first heard of only through the nice note by Peter A. some weeks back, that he was now in a different apartment there, and so his previous apartment had become available. From the description he was giving of it, I felt such a place would exactly fit my need, but the cost of it made it at once an utterly unattainable dream which I just forgot about… until ten days later or so, the Housing Service informed me it could be attributed to me if I liked it!!! My first actual visit there only confirmed my impression from Peter’s note: this place, and precisely this apartment, was perfect for me. Everything after that went quite fast, and after all the other residents gave their agreement, I have been able to start moving there soon enough to spend my first night there just before Christmas - A dream wonderfully come true, and just in time!
So the New Year too I celebrated there, and am gradually completing my moving there, thanks to the help, financial and/or physical, of many new or old friends.
May all receive my deepest gratitude for every smaller gift that has also been given to me for this occasion… and first of all, my gratitude to those in the Housing service or later on at Luminosity, who have given me their precious support, leading to the collective decisions subsequently taken in my favour. Let this be a shining example we all can be happy and proud of, that Auroville can sometimes take real good care of its old-timers; and may Auroville be blessed for that, as the needed sense of Unity does grow, however slowly, among all of us!
Happy New Year 2016 to all,
Bhaga

Thanks and gratitude.

Dear wonderful Aurovilians and friends who helped after Sebastian’s accident in many different ways. We are so grateful for all the help, energy, thoughts, love, prayers, day- and night care, therapy sessions, food, company... that we received from you in such a loving way. It was the greatest gift that we could get and all of you helped us to go through this very difficult time. We are deeply touched and full of gratitude to each of you!
All our love, Jorinde, Sebastian and family

The Auroville Theatre Group needs a little help

We need your help.
The Auroville Theatre Group has been invited to play ‘The Glass Menagerie’ at the Ranga Shankara Theatre in Bangalore in February. It is the best theatre venue in Bangalore and we are very excited!

Maybe you have already seen our performance at Bharat Nivas in December. We were especially grateful and fortunate to have Marta Cicionesi create a gorgeous set design (with Swar’s help on the design for the fire escape). So of course we would like to take it all with us to Bangalore. But it seems it’s pretty expensive to carry everything – set, costumes, props – there and back … Rs. 16,000 both ways by van (the safest way because we cannot count on it arriving on time by train).

So if some of you would like to help us create a beautiful show in Bangalore, you can deposit your donation in our theatre account at the Financial Service - 0057 for The Auroville Theatre Group! Please send me an email or SMS to let me know …

Thanks so much for your support.
Much love, Jill for The Glass Menagerie cast and crew [jill.navarre@gmail.com / 09486416173]

GREEN MATTERS
Auroville Green Center is happy to announce the start of this year’s Sunday Walks to Farms & Forests. These popular walks will be announced weekly in the News & Notes (watch out for the logo) and on Auronet, with details for the next walk, such as a brief description of the farm or forest, timings, directions how to get there, and phone contact of the hosts. The green posters on many community notice boards will provide an overview of 3 or 4 walks at a time. For visits to far-away places we will organise transport, in alternative to getting there by yourself (Cycling makes it a real green Sunday!).

The first walk of this season will co-hosted with The Auroville Campus Initiative (ACI) under their Joy of Learning program. It will be a visit to Annapurna Farm in the afternoon of Tuesday 26th of January (please note this isn’t a Sunday but Republic Day and thus a holiday.) Details will follow in the next News & Notes.

For February we have lined up a variety of visits such as Discipline Farm, the Urban Gardening project, and Hope Farm.

The series of over a dozen walks, organised during the cooler season between Pongal in January and Earth Day in April, invites to some of Auroville’s beautiful green spaces and projects. Auroville’s farmers and foresters welcome us in their places, many of them tucked away and not easily discovered, sharing precious insights into their vastly diverse work and environment. Come and connect with fellow Aurovilians, volunteers and guests on walks along pleasant green paths!

Georges Blanchet

It seems that the psychic being of certain people, familiar with Auroville or her founding inspiration, decides to come and live in Auroville for a few years before proceeding on its onward journey. It happened with Jehuda about a decade back. He came to Auroville from Germany, lived here for a few years, wrote even a small book, attended Chamber duty at Matrimandir and then, one day, suddenly left his body in good health. There are a few other instances of a similar nature. And now Georges joins the same ‘category’. He came to live in Auroville about 7 or 8 years ago and now proceeds. I was his neighbour at Vikas for a few months. He was a mild, benevolent person. He had a disposition to research things metaphysical, to study the works of Sri Aurobindo and the Mother. But what was equally appreciable was that he voluntarily offered to explain things related to Auroville, and Sri Aurobindo and the Mother to curious or interested visitors. A few months ago, he told me that he at times went to the Sadhana Forest to explain these things to the volunteers there. It is good to know from Mauna’s and Paulette’s notes that he also worked in other places as at the Matrimandir and made himself available to visitors at the Visitors’ Centre. This is all the more appreciable when we recall the Mother once expressing her unhappiness in the Agenda that often inmates of the Ashram do not take the trouble to explain things to curious or genuinely interested visitors.

Once, at Vikas, I was short of ₹50 to pay to someone I don’t remember now. Georges was passing by. Spontaneously, I asked him to pay, as if you asked a family member. He immediately complied without a single query (Of course, later in the day or the next, I put a ₹50 note on his doorstep).

Thank you, Georges, for the last part of your life in Auroville. Farewell on the sunlit path. The body’s life may end but the real life never ends. M.P. Pandit, one of the Mother’s secretaries told her during her last months “I would like to give my life if that could add one day in your life”, She took his hand, smiled and said “Life is eternal”.

[Georges on himself in his profile on Auroville Intranet: Name: Georges Blanchet Community/Location: About Me: Joined Auroville in September 2008. I try to be “a gardener of a better future”. Interests: Truth, Beauty and Freedom in each one and each situation.]

Rock Bees - an appeal

Some 5 to 10 years ago Rock Bee nests could be seen almost everywhere in Auroville, hanging on the structure of Matrimandir, suspended from the branches of trees or under the Bharat Nivas high roof extension, etc. Today they are becoming quite rare in Auroville; in fact it is now a cause for concern that this wonderful wild bee, a prolific pollinator and honey producer that has never been domesticated and lives only outside hives, seems to be disappearing from our area. Why? The answer is we don’t know, but a definite contributory factor must be the common reaction that most of us have had on finding a nest near our home or place of work i.e. calling the MM team to “come and deal with it before someone gets stung.”

The fact is, either smoking or suctioning out the nest’s occupants almost invariably results in death of the entire bee population, specially when the central queen has been killed in the process, because without her the nest loses its purpose. This note is an appeal to everyone in Auroville to please stop destroying their nests and thereby killing them, and specially to not call the MM team to come and “deal with” any nest near you. Bee populations are in decline almost everywhere, and we simply cannot afford to lose them (some 90 commercial food crops worldwide depend on them for pollination). Try to see them instead as an integral part of the natural world we live in; be protective of them; appreciate them and what they do to sustain our life on earth; and focus only on the good they do.

OK, we all know that they have occasionally “attacked” people, but this is extremely rare. Meanwhile, be aware that their “attack” is initially just an exploratory investigation. They fly around you checking you out, buzzing aggressivelly as they do so to see if you are a threat to their nest, i.e. it is a defensive action. Only when you start flailing your arms about and swatting at them do they start to sting (the first sting releases a chemical pheromone signal that triggers other bees to also sting). The secret, should you find yourself subject to such an investigation and can’t get indoors or escape rapidly on a 2-wheeler, is to remain as still and calm as possible, or to move only very slowly, ideally with some clothing item over your head. If you can manage to do this, there is a good chance they will decide you are not a threat and move on. Tim

Daniel Greenberg: After living at Findhorn and completing his Ph.D. in the early 90s, Daniel founded Living Routes, which partnered with UMass Amherst to run study abroad programs based in ecovillages around the world (including Auroville!). He also helped found Gaia Education and currently sits on the Boards of both Gaia Education and the Global Ecovillage Network. In 2012, Daniel left his position at Living Routes in order to start Earth Deeds, which helps groups support local solutions to global warming by accounting for the social costs of their carbon footprints.

He currently serves as the Office Manager and Internal Communications Director at GEN’s international office located in Findhorn, Scotland. From 2009 to 2012 he taught as a faculty for Living Routes in Auroville. In mid-2013 he became the Director of Living Routes’ Lotan program, until Living Routes closed its doors in January of 2014. Along with rebuilding NextGEN, the youth network of GEN, he has helped to develop regional networks, primarily in Africa and the Middle East. Prior to his shift towards ecovillages, Ethan spent four years working in the United States in the field of green building and energy efficiency, and then completed his Masters degree in Environmental Education at the Audubon Expedition Institute through Lesley University.

Moving Beyond Carbon Offsetting: Local Solutions to Global Warming

January 27th 3:00-5:00 pm - Unity Pavilion

Community is the missing ingredient in responding to global warming. Governments and corporations are still sluggish to account for our environmental impacts and, while ordinary citizens are becoming increasingly aware and willing to act, they often feel their individual behavior changes won’t make a big difference. We desperately need effective, collaborative tools to understand and respond to our collective impacts and create more resilient communities and ecosystems. Carbon offsetting has attracted over US$3B since 2005 to support mitigation projects around the world, but it is plagued by inefficiencies, lack of trust, and a negative story about buying a clean conscience while delaying meaningful action. This presentation will propose a radical alternative called “onsetting”, which drops the controversial claim of carbon neutrality, prices emissions based on the Social Cost of Carbon, and enables funding to support local and meaningful sustainability projects that are systemically responding to climate change. Onsetting's "big solution" is empowering the millions people and projects working now to create a positive future for all life.

Welcome to the Women Temple

In Sve-dame, Butterfly Barn

Wednesdays 20 & 27 January, from 7 pm - 9 pm

(Door opens at 6.45 & we start together on time)

"The relationship we have to other women reflects the relationship we have to our own feminine essence. We take a stand for a new way of being a woman together on this planet. Together we can heal and transform into a relationship of celebration and empowerment" - Chameli Ardagh of Awakening Women Institute

In the temple group we explore, worship and celebrate our feminine power through meditation, movement, touch, introspection, beauty and wisdom of sisterhood.

The space we create together and the exercises help us towards soulful connections - we meet behind our personal stories.

Welcome to bring a friend and a flower or two!

**Earthship Biotecture Presentation by Shanti**

Date & time: Saturday 23 January 4.30 pm  
Venue: Cinema Paradiso

"...the Earthship is the epitome of sustainable design and construction. No part of sustainable living has been ignored in this ingenious building."  

This presentation will give you some initial insights in the organic nature and structure of a completely new concept of building homes. An Earthship harvests its own water (using it three times), catches the warmth of the sun or keeps the house cool (according to your need), provides food, recycles its own sewage, harvests 100% of its used energy, and often includes local and recycled building materials. It can be built within one to two months and makes its inhabitants completely autonomous.

An Earthship is not the product of artful and sophisticated architecture but rather the outcome of a deep process of realizing the wish to build in a truly sustainable way that benefits humans, the environment and the elementary needs of all creatures living on this planet. This is now called “Biotecture” by its founder Mike Reynolds.

The presentation is given by Shanti, who cooperates with the original Earthship Biotecture Team of Mike Reynolds in Taos, New Mexico. He will also share some new film and photo material especially on Earthship buildings in tropical (Philippines, Malawi, Guatemala, Sierra Leone etc.) as well as in moderate and cold climates.

**World Cultures and Words**

India, China, Islam, the West- in all humility!  
A Talk and Readings from My Future Book (Diary)

Friday 29th. Jan. 2016, Unity Pavilion at 5.pm

Prof. Edwin Zappe has given talks and lectures in 19 countries, 13 in Asia and the Near East. Traditional cultures thought with the heart (heart/mind). In Sanskrit there is no word for “to teach”. Why? Socrates (Greece) and Confucius (China) did not say “I am a teacher”, but “I am a midwife”. Why? “No one can think anything different from that which one feels, and this is always true”, Socrates. Why? Buddha: Your worst enemy cannot harm you as much as your own thoughts, unguarded.

About Silence and Music
I have seen musicians listening to music, musicians, composers or players who truly love music, I have seen them listening to music. They sit completely still, you know, they are like that, they do not move at all. Everything, everything is like that. And if one can stop thinking, then it is very good, then one profits fully... It is one of the methods of inner opening and one of the most powerful.

Mira Alfassa

THE BEING A MIRROR OF THE COSMOS

Workshop on the 23rd and 24th of January 2016 from 10 am to 1pm at Cripa - Kala Bhumi Auroville
Theme: «The being a mirror of the cosmos» with Poumi Lescaut dancer, choreographer, singer, art-therapist. Sacred contemporary dance, voice and improvisation.

- Recognising the sacred in oneself and in the other, is the key to the transformation of the self and the society that cannot find its harmony solely from a materialistic point of view—It's a work on the cosmic memories we carry within ourselves by reaching out to the inconscient depth through the body. One creates the conditions for an opening and for perception through the structure and unfolding of contemporary dance by involving the body. Then there is the workshop where we work on the theme of “inquiry into the memories of the body” which then becomes instrumental to the revelation of these memories. We end with a sharing so as to put into words what one has just lived/experienced.
- It is a journey seeking unexplored inner spaces, intending to draw closer to the “wholeness” of our being.
- To know more visit: www.poumi.com
- Participation required per day: Rs. 500 for guests; Rs. 200 for Aurovilians and volunteers
- To book please call 9159344341 or poumi.l@poumi.com

ZEN SHIATSU INTRODUCTORY WORKSHOP with Yaor
Saturday & Sunday, 23 & 24 January 9 am to 3.30 pm & 9 am to 12.30 pm
Shiatsu is a Japanese therapy in which manual (hand) pressure is applied to certain points on the body to work on the body’s energy (qi/meridians). Based on the same principles as acupuncture, the purpose of Shiatsu treatment is to release energetic blocks that cause pain and disease, allowing energy to flow throughout the body. In this introductory workshop, you will learn how Shiatsu works by both feeling (receiving) and doing (giving). By the end of the session, participants will be able to give a basic Shiatsu treatment.

Please dress in comfortable, modest exercise clothes as we will work in pairs on mattresses on the floor. YAOR is in Auroville as a Savi volunteer. He has a 2-year senior diploma in Zen Shiatsu therapy and has been practicing and teaching Zen Shiatsu for the last 4 years.

SMILES OF A SUMMER NIGHT / SOMMARNATTENS LEENDE
Directed by Ingmar BERGMAN, SWEDEN, 1955
Cast: Gunnar Björnstrand, Harriet Andersson, Ulla Jacobsson, Eva Dahlbeck, Bibi Andersson ...
Synopsis: After fifteen films that received mostly local acclaim, the 1955 comedy Smiles of a Summer Night at last ushered in an international audience for the great Ingmar Bergman. In turn-of-the-century Sweden, four men and four women attempt to navigate the laws of attraction. During a weekend in the country, the women collude to force the men’s hands in matters of the heart, exposing their pretensions and insecurities along the way. Chock-full of flirtatious propositions and sharp witticisms delivered by such Swedish screen legends as Gunnar Björnstrand and Harriet Andersson, Smiles of a Summer Night is one of cinema’s greatest erotic comedies. The film received the Cannes festival award for poetic humor in 1955. Original Swedish version with English subtitles - Black & white - Duration: 1h.48’.

THE BITCOIN GOSPEL
2015, 49 minutes, directed by Hans Busstra, VPRO Backlight Productions.
Is bitcoin the blueprint for a bankless currency, or the biggest pyramid scheme ever?
What if we could create money ourselves, without the need for banks? Money that can’t be forged, that will appreciate rather...
than depreciate, and that can be used worldwide without transaction costs. It exists, and some people consider it to be the digital version of gold: bitcoin. Is this really a perfect bankless alternative for the failing finance sector, or are we simply shifting power from the current elite to a new one? A devoted group of entrepreneurs and activists believe they see the writing on the wall, and they're determined to add a new chapter. In their view, the world banks and governments harbour too much control over the financial vitality of the masses. But what if an ordinary citizen could bypass all the regulation and manipulation of the financial industry to become their own bank? The insightful new documentary The Bitcoin Gospel examines one such method for making this hypothetical a tangible reality.

The bus service is operated by Sadhana Forest. For more information about the bus service please contact Sadhana Forest at 2677682 or sadhanaforest@aurouville.org.in.

THE FRENCH PAVILION
Presents AN INSTANT OF ETERNITY
Viviane José Resteau’s Art of Light
French version with English subtitles (55min-2015)
This documentary will be shown in the director’s presence.

Wednesday, January 20, 5 pm, Cinema Paradiso, (Town Hall)
This film directed by Michèle Decoust*, presents for the first time the life of an extraordinary painter, Viviane-José Resteau, and the saga of her Work, whose “direct” inspiration transcends the specificity of an individual existence. Her visionary Art of Light belongs to the truth of our times, in which quantum physics teaches us that we are atoms in a single great body, connected to the Earth and the Cosmos, and bound by a common destiny. This unique Body of Work, recognized by eminent physicists, palaeontologists or professors of medicine, takes us back to the sources of our Humanity and the origins of Life. Her work connects, in various styles and independently of all dogma, the great archetypes of the Living World, the sacred geometry of nature forms, embryogenesis, the totemic signs of Indigenous Peoples, or the revelations of the Vedas and the Sufi mystics.

Powerfully drawing on all these sources - SATPREM vibrant life being one of them- the Art of Light reveals, enlightens, and heals.

*Michèle Decoust is a writer and movie maker. Since 2010, she directed: “Auroville, a Land for the Future”, “Auroville, the Golden Bond”, “Voyage into the Infinitely Brief” (in collaboration with Gabrielle Baud)

Auroville 50th Anniversary

The Participatory Planning Process

Beginning in earnest in November 2015, planning for the Auroville 50th Anniversary has been a unique collaborative process, in much the same way as the anniversary celebrations themselves promise to be.

To date 85 projects, developed by well over 100 Aurovilians are in the process of being completed according to a common format and under a united Vision and Outcome. The process has been / is as follows:

The overall Programme Proposal, with a common Activity Plan and Budget, will include all of the project proposals under their respective Themes and Groups. In addition, the Programme Proposal will provide details for the establishment of an overall Organisation group. This group will include teams for:

- Event Coordination;
- Programming and Support services, including finance as well as;
- External Liaison and Communication.

The Organisation group will be ready to start work at the beginning of April 2016, as soon as approval is forthcoming from the Governing Board.
