House of Mother’s Agenda

Sweet Mother, here Sri Aurobindo speaks of “the higher perfection” and “the lower perfection”...

The higher perfection is the spiritual perfection, integral union with the Divine, identification with the Divine, freedom from all the limitations of the lower world. That is spiritual perfection, the perfection that comes from yoga — quite independent of the body and the physical world — which, in ancient times, meant first rejecting the body and the physical life so as to have a relation only with the higher world and finally with the Divine. That is the higher perfection.

And the lower perfection is to be able to make the human being in his present form and in his body, in his relation with all terrestrial things, do the utmost he can. This is the case of all great men of genius: artistic genius, literary genius, genius in organisation, the great rulers, those who have carried physical capacities to their maximum perfection, human development to the limit of its possibilities; and, for instance, all those who have complete control over their bodies and succeed in doing miraculous things, as we saw, for example, during the war, with the airmen: they made their bodies do things which at first sight seemed quite impossible, they obtained from them an endurance, a skill, a power which were almost unthinkable. And from every point of view: from the point of view of physical strength, of intellectual realisation, of the physical qualities of energy and courage, of disinterestedness, goodness, charity; all human qualities carried to their utmost limits. That is the lower perfection.

The higher perfection is spiritual and super-human. The lower perfection is human perfection carried to its maximum limits, and this may be quite independent of all spiritual life, all spiritual aspiration. One can be a genius without having any spiritual aspiration. One can have all the extraordinary moral qualities without having any spiritual life. And even, usually, those who have a very great power of human realisation are satisfied — more or less satisfied — with their condition. They feel they are self-sufficient, that they carry in themselves the source of their realisation and their joy, and it is usually very difficult to make them understand and feel that they are not the creators of their own creations, whatever they may be. Most of them, with very rare exceptions, if they were told, “You are not the originator of this work you are doing, it is a force higher than you and you are only its instrument”, they would dislike it very much — and they will send you about your business! Therefore, these two perfections are really divergent in ordinary life. It was said in the old yoga that the first condition for doing yoga was to be disgusted with life. But those who have realised this human perfection are very rarely disgusted with life, unless they have met with personal difficulties such as the ingratitude of people around them, the lack of understanding of their genius which was not sufficiently appreciated — so all this disgusts them, but otherwise, so long as they are in their period of success and creation, they are perfectly satisfied. So, as they are satisfied — above all, self-satisfied — they don’t need to seek anything else.

It is not essentially true, but this is usually how things happen, and unless there is in this genius a soul which is perfectly conscious of itself and has come to do the most exquisite work on earth, he may very well be born, grow up and die without knowing that there is anything other than this earthly life. And above all it is this, you see, this feeling of having achieved the utmost realisation which gives a satisfaction that keeps one from needing anything else.... If they have a soul that’s fully conscious of itself and fully conscious of its purpose in the physical world, there could be a vague feeling that all this is pretty hollow, that all these achievements are a little too superficial and that something is lacking; but that comes only to those who are predestined, and after all, in the mass of humanity, there are not very many of them.

Only those who are predestined can combine these two perfections and realise something integral.... This is quite rare. The great spiritual leaders have very rarely been great realisers in the physical world. It has happened, but it is very rare. Only those who are conscious incarnations of the Divine naturally carry in themselves the possibility of the two perfections, but this is exceptional. People who had a spiritual life, a great spiritual realisation, were able at certain exceptional moments to have a capacity for outward realisation; this also was exceptional, but it was intermittent and never had the integrality, the totality, the perfection of those who concentrated on material realisation.

[...]

That is why Sri Aurobindo used to repeat and has always said: You must work from both ends, not let go of one for the other. And certainly, if you want to have a divine consciousness, you must not give up spiritual aspiration; but if you want to become an integral divine being on earth, take good care not to let go of the other end, and make your body the best possible instrument. It is a disease of the ordinary human intellect — which comes, moreover, from separation, division — to make a thing always either this or that. If you choose this, you turn your back on that; if you choose that, you turn your back on this. It is an impoverishment. One must know how to take up everything, combine everything, synthesise everything. And then one has an integral realisation.

(Stan Gerson)

Questions and Answers, April 24, 1957

Mother

The Ponder Corner

But her new body is there, living and glorious in its beauty and power, and it is still at work within us and around us in the world, incessantly, towards the final consummation of its material embodiment. What is expected of us is to see this golden Mother within us and try to become, as she always wanted, her golden children, within and without.

Nalini - The Mother Abides -

Cover photo of Mother, around the time of her final return to Pondicherry (April 24th, 1920).
Dear Community members,

Here are the results of the RAD (voting) called by Auroville Council to ratify or reject a new Entry Policy (in 5 sections) and a new FAMC Mandate. A total of 327 registered residents participated in the online and manual voting. Quorum was reached for all questions.

**Results**

1. AV + Mentor Pool
   - YES: 71%
   - NO: 29%

2. AV students
   - YES: 81%
   - NO: 19%

3. Friends
   - YES: 62%
   - NO: 38%

4. Relatives
   - YES: 67%
   - NO: 33%

5. Associates
   - YES: 60%
   - NO: 40%

6. FAMC
   - YES: 72%
   - NO: 28%

**Question:** Do you agree to the following sections of the new Entry Policy?

**How to become an Aurovilian including the Mentor Pool system**

**YES** - 218

**NO** - 90

Result: Sections “The Mentor Pool” and “How to become an Aurovilian” of the Policy are **ratified**.

2. **Status of Auroville Students**

**YES** - 241

**NO** - 56

Result: Section “Auroville Students” is **ratified**.

3. **Status of Friends of Auroville**

**YES** - 189

**NO** - 117

Result: Section “Friends of Auroville” is **ratified**.

4. **Status of Relatives/Partners of Auroville**

**YES** - 200

**NO** - 98

Result: Section “Relatives/Partners of Auroville” is **ratified**.

5. **Status of Associates of Auroville**

**YES** - 175

**NO** - 116

Result: Section “Associates of Auroville” is **ratified**.

**Question:** Do you agree to the new FAMC mandate as it is proposed?

**YES** - 209

**NO** - 81

Result: The new FAMC mandate is **ratified**.

Thanks to all participants of this Decision Making Event!

Warmly, Auroville Council, Residents Assembly Service

---

**Kalpana project - GENERAL MEETING REPORT from the RAS**

On Friday, April 15, 2016, the Residents’ Assembly Service (RAS) held a General Meeting to discuss:

- Lessons Learned from the Kalpana Project:
- Developing Systems for Harmonious Growth

Over 300 residents attended the meeting, a record high.

The RAS called the meeting at the request of the Concerned Residents of Auroville (CoRe) group.

The following report is assembled from a series of inputs that include:

A. Proposals made during the meeting; and

B. Proposals received by email after the meeting.

(The complete audio recording of the meeting is available on Auronet)

**Agenda:**

- Concerned Residents of Auroville (CoRe) presentation: 15 min
- Kalpana Project Team presentation: 15 min
- Town Development Council (TDC) presentation: 10 min
- Clarification session - responses to questions from the room: 20 min
- Consolidation of existing and new proposals for improvements: 30 min
- General Discussion: 15 min
- Conclusion: 5 min
A. Proposals made at the meeting

Proposals from CoRe

CoRe projected the following proposals on the meeting screen during the meeting.

It argued that Auroville needs: “A mechanism that would ideally address:
• the way new projects consult and engage the community; and
• the way new projects are implemented (see for example, the draft tree-cutting proposal below).”

Proposals
1. Collect concrete suggestions on how to find a common way forward - these should be formulated as invitations or ideas, not as ultimatums or conditions. These should be just offered and collected - not debated.
2. Agree on a first step forward on the pending question “How do we want to build Auroville?” - as Kalpana seems merely a symptom of an immature participatory planning process.
3. Agree to form a “Landing Group” that supports TDC with all site related processes (land surveys, tree surveys, ecological feasibility, information sharing, stakeholder dialogues, cutting of trees etc.)
4. See the beginning of a dialogue of all Kalpana stakeholders. This group will work with the project holders to ensure that the implementation of Kalpana is as harmonious as possible and will specifically address:
   o Amar’s relocation,
   o the allocation of apartments via a vis actual housing needs of Aurovilians,
   o construction timings,
   o agreement to avoid aggression, violence and threats,
   o the addition of public spaces for children to be creative and play
5. Leave the meeting in harmony

Tree-cutting Policy

The community needs to establish a policy that informs the cutting of trees. That policy could include:
• Structures must be designed around existing trees, such that:
  o Ideally no or the fewest possible number of trees are cut.
  o Trees that are to be cut should be clearly marked in a way that is visible from a distance.
  o Sufficient notice must be given before trees are cut.
  o Trees planned to be cut must be clearly marked on the site map.
  o Old and/or significant trees must be given priority and ideally left if possible.
  o Planning should include tree experts familiar with which trees are more valuable than others.
  o Any tree cutting should be done by a sensitive Aurovillian tree-cutting team (TreeCare for example).

Proposals recorded during the discussion

The following are a list of proposals made during the meeting discussion from notes taken by a resident at the meeting:
1. Take into account the access to Kailash for any development in the area (including the round-about).
2. Set up an Architects’ Service and stop the system of architect fees.
3. The system of exchanging houses on the basis of depreciated value needs to be reviewed.
4. We need more housing for young people as was done near Citadyn (La Maison des Jeunes).
5. Take into account the water balance for all types of development.
6. Set up a “Landing Group” for all projects.
7. Make use of external help, if needed, not only for the technical planning work.
8. Set up a “Stake Holders Consultation Group” for all development projects.
9. Make use of tree experts and the Tree Cutting Team.
10. We all seem to feel that we did everything “right”. Can we also reflect a little while on what we did “wrong”.
11. We need a Competent Planning team. This must be our first priority.
12. All our projects must be in accordance with a vision we have defined beforehand in the form of aims, objectives and a plan to refer to. This relates to city life, form, space, health, ecology, etc. During this early definition process participation of all interested groups is essential.
13. Present all projects at community level during different stages of development.
14. Gather in silence and solutions will come.

B. Proposals received by email

The following feedback and proposals were received in an email sent to the RAS:

Feedback One

• 1) Trees versus development: a false problem?
Once the site on the Crown had been approved, the architects came up with a first proposal for the buildings. This proposal thoughtfully avoided the destruction of the main tree grove around the Kalaripayat platform. It also concentrated the buildings more in the centre of the plot. This proposal for urban form was rejected after convincing inputs from Kaja who was working on the layout for Sectors 1 and 2 and the architects were asked to come up with another plan with the specific mention that they had to integrate the Crown frontage in their proposal. The architects then went back to the drawing board and came up with the present layout which uses the plot in a enclosed way, that is all the buildings are at the periphery of the plot. This brought the difficulties we know, sacrifice of the very significant vegetation and closeness to Vikas. When asked by the table to try and remedy these by bringing the buildings closer together, the architects and project holders argued that the West building was as distant from Vikas as it was from Kalpana’s North building so why should they squash up and that, as they were asked to change their original plans by TDC, we could not come again with concerns about the big trees as this would have meant going back to the drawing board yet again.
This to say that when in the meeting people argued that we needed to cut the vegetation in order to build apartments for people on that plot, it is not correct. Of course some would have had to be cut but not the clear cutting of a very special grove with rare and even unique specimen trees we are seeing associated to this project.

Proposal for the future:

Land stewards for the city area have to be appointed. They will be consulted when development is proposed and site applications are studied so that key elements regarding what to look out for in the vegetation and the run-off water management are taken care of and built form has to work its way around those.
I would propose Glenn, Peter, Dominik and Jaap.
I fully endorse the proposal of Renu that Tree Care be asked to carry out the necessary cutting so it is done in a conscious manner.

• 2) Seeing the plots as islands
Also, the table at the time pointed out that the present layout will mean a severe restriction of options for the use on the next plot between Kalpana and Kailash. In order the ensure a minimum breathing space from the West building the architects for that plot will be forced to concentrate high density in the centre of their plot. Whereas the Crown frontage continum was well thought through with the architects of Kalpana, they did not respond to the TDC’s concerns about them using the plot all the way up to its borders, - again citing the impossibility for them to get back to the drawing board- resulting in the difficulty with Vikas about what they perceive as a further encroachment of a couple of meters onto their space.
This is symptomatic or the deeper unease with Vikas at seeing luxury apartments coming up very close to the existing low cost, simple lifestyle they are enjoying.

Proposal for the future:

Architects for a particular site need to show how their plans are taking care not to restrict the options of the next plot.

News&Notes 23rd April 2016 [646]
• 3) Addressing the guilt feeling
Kalpana got their Building Permission not because TDC felt this was a good project but because members felt they could not block it due to the lengthy process that had gone on.
With the present functioning chosen by the community 3 years ago, as Sauro pointed out, not only have we lost the communication platform of L'Avenir but we also have in place coordinators for each aspect.
This leads to in the case the architects having to deal with the coordinator on Urban Design, which understandably takes time for a project like this.
Once they have gone through that series of meeting that tries to take care of that particular aspect they are not open to go through more lengthy meetings about other aspects.
It is important that we review this community decision and that the totality of the project be looked at by the totality of the TDC.

Proposal for the future:
Proposals to the community, be they about TDC structuration, Entry, Famic etc... need to be better presented to the community with the ins and out, pros and cons and consequences of the choices clearly explained. Where we want to go, why, what are the advantages and disadvantages.
For what regards TDC, a clear brief to the project holders of the different aspects they need to clear with TDC has to be established.

• Questions
I would also like to have answers to the following questions:
  a) How many Aurovilians have put their names down for paying for an apartment in Kalpana (excluding Satyakam and Devasmita)?
    Proposal for the future:
    A minimum number of 40% of the apartments for a specific project need to be spoken for before the building can get its NOC. It is crucial that genuine interest from Aurovilians in the project by elucidated. Otherwise it is back to rich people deciding what they want to do which may not be what others actually need or want.
  b) How come, when the TDC specifically rejected parking spaces for residents cars that the project holder is announcing the very same are still in the project?
    Proposal for the future:
    A detailed presentation to the community when the Building Permission is about to be given so that the community can be cognisant of what is really being proposed and how the concerns regarding for example mobility are taken care of.

Feedback Two
"The TDC prior to the present one had set up a "Communication Platform". It may be of interest to find out why that also did not work.
TDC publishes the detailed development plan (DPD) for each of the four zones so that instead of all these ad-hoc feedbacks on small stretches of road and individual buildings the totality of the development is discussed and finalised including the urban plan, the urban design and the lay-out of the infrastructure.
Mr. Doshi has offered to have his team in Ahmedabad prepare such DPP.
Never in the history of Auroville has so much communication and interaction taken place on a housing project. Give the Kalpana team a big applause for having done that even though this should have been done by the TDC Communication Team.

• It is recommended that Auroville Foundation undertakes construction works (buildings and infrastructure) with its own internal design, engineering construction and infrastructure services with the following implementation models:

• For projects for which internal services of Auroville Foundation have sufficient capacity, skills and experience, the project may be taken up entirely by internal Auroville services on a turn-key basis. In this model there is no involvement of an external contractor.

For more information please don’t hesitate to email the RAS at raservice@auroville.org.in or call us on 948 6623 749.
Kind regards,
Residents Assembly Service

REPORT FROM THE GREEN GROUP FOR THE FIRST QUARTER OF 2016

1. GREEN GROUP REORGANISATION: Cristo resigned at the beginning of the year because of ill health, but was then able to withdraw his resignation when we found a way of including him in our meetings with Skype. We have welcomed Gowri as a temporary representative of the Farm Group as once the mandate is agreed it is likely that membership of the group will change. In this fluid situation with the Green Group mandate still under discussion and the imminent reorganisation of the TDC, the group agreed to keep in touch and do as much as possible by email. Meetings have only been called when there are substantive issues to discuss.

2. LAND USE PLAN FOR THE GREEN BELT; the group were very happy to talk to David Stein in February about the Green Belt Development Plan (2013) and the Green Belt Land Use Plan of 2015. While both plans have been presented to the community and are available online there seems to be little knowledge about or enthusiasm for the plan in the community. Given the importance of this plan, which is crucial to the recharging of the aquifer on which we all depend, the Green Group continues to look at ways to inform the community about the plan and to facilitate the work necessary for implementation.

3. ACCESS ROAD TO THE INDUSTRIAL ZONE; the Green Group supports the Farm Group in requesting that a community participation process be set up to make decisions about this and other roads in Auroville. A letter was sent to TDC requesting this.

4. LAND EXCHANGE; at the beginning of the year a letter was received suggesting that the stalled land exchange process for land in the north of Auroville be restarted. A letter was sent to Land Board saying the Green Group will support efforts with land exchange in this case if it was feasible. Referring to a previous land exchange possibility where Service Farm was to be used in land exchange, the Green Group sent a letter to the FAMC, WC and TDC saying that it is unacceptable that an asset like Service farm has been allowed to fall into disrepair and become non-functioning for such a long time. It is also completely unacceptable that the promises made to the stewards have not been honoured. The group supports the steward’s efforts to bring this matter to the community for discussion.

5. BUILDING PERMISSION; the Green Group gave permission for Prema and Segar to build a house in Equality. The Green Group also had a request for permission for non-Aurovilians to build in the green belt. The Green Group is not comfortable with non-Aurovilians building on land in the Masterplan area and if people want to do so they should be encouraged to become Newcomers. The Green Group wrote to the TDC saying that they will not give NOC for non-Aurovilians building in the Masterplan area.

6. MOONLIGHT LAND; there are still problems with this project. Despite promises the land has not been fenced and many people are coming onto Auroville land and using it like a toilet. Green Group supports the Farm Group in following this up with TDC.

7. IRUMBAI LAND; land allocation of this large area was carried out some time ago but it seems nothing has happened. Green Group will follow this up.

If you have feedback or would like further information please contact Priya: greengroup@auroville.org.in
FOREST GROUP MEETING - AZHAGU BHOOMI, 1st APRIL 2016

PRESENT: Rita (chair), Madda (notes), Balu (host), Aravinda, Aurore, Aviram, Biggie, Boobalan, Christoph, David (Aurodam), Dave, Didier, Diego, Enea, Fabian, Georg, Glenn, Ianaar, Ingrid, Jan, Jasmin, Jean-Marie, Jeremy, Julia, Kannayappan, Madu, Mani, Quentin, Philipp, Rishi, Sandeep, Satyaaji, Segar, Shivaraj, Thanajayan, Theri, Vengatesh, Yorit. Martin & Olivier from the ARA study group

The meeting starts with a moment of silence for our friend and brother Rauf Ali.

Topics discussed

ARA Housing fact-finding mission:
Martin & Olivier from the ARA study group for Decision-making and Housing came to present a few questions and seek the input from the Forest Group into the urgent issue of Housing for Auroville.

Many newcomers and also Aurovilians are in need of Housing (Entry had previously to close down and the acute shortage has not been resolved since then). Available apartments in the city area, priced between 20 - 60 lakhs, are no option for many of them, especially for the youth. The Forest Group is being asked if they see a need - for protection - and/or possibility to accommodate more people - suitable for green living - in the Greenbelt, for instance in temporary, movable low-cost housing. It is pointed out that very occasionally new people can be integrated into the greenbelt, but that this is rather the exception and cannot be a solution for the majority of people wanting to join Auroville. Concern is expressed about the tendency of building an affluent city with expensive apartments in the residential area with those who are less wealthy being pushed into the periphery - i.e. the Greenbelt! One should look at available plots in the residential area and create the possibility of building affordable houses there. In general, people should be encouraged to live simply and modestly (many Newcomers are longing to be in close contact with nature), while town development should listen to and plan in consultation with the people. Building should be less profit-oriented and commercial, more in tune of what people need.

In addition to this, the FG would like to underline the fact that the surface area under AV forest today is insufficient to ensure biologically productive lands in the long term or to create a regulated microclimate for the community. Moreover, in numerous cases, the AV forest stands are extremely fragmented and subjected to adjacent private infrastructure development (so increasing impervious surfaces). In other words, due to their fragmentation and small size, the forests of AV are in a rather febrile and vulnerable position today.

Newlands news:
Georg announces that he is passing on the Newlands stewardship to Philip, while still sharing the work and responsibilities to ensure a smooth transition. The Forest Group warmly thanks Georg for many years of dedication and exemplary forest work!

Meadows:
Satyaaji and Thierry would like to build a tree house and a yurt in Meadows, joining Didier who is building a house for him. Concern is expressed about the tendency of building private land for his access. It is therefore now possible to fence the land off entirely. Concerning Shankaravarnan: he was working at Pitchachandikulam years ago and was made steward whereabouts unknown, the land was given to Thanajayan to steward in 2011. Since, Shankaravarnan has claimed the land off entirely. Concerning Shankaravarnan: he was working at Pitchachandikulam years ago and was made steward whereabouts unknown, the land was given to Thanajayan to steward in 2011. Shankaravarnan has claimed stewardship.

He is invited to come to the next FG meeting to clarify the situation. Thanajayan has requested the fencing of the plots of which he is steward to prevent more encroachment.

The next meeting will be on Friday, 6th May 2016 at Newlands, 15.00.

General: Auroville as a group is a commercially important customer for BSNL and AVTS has leveraged this advantage to encourage and motivate the Corporation to step up to meet our legitimate aspirations. As a liaison between the clients and the company, AVTS has achieved satisfactory results. We are now in a situation where our fault status is monitored on a daily basis by the highest officials and daily feedback is exchanged.

While new buildings are being constructed, the existing infrastructure is rapidly reaching its capacity, leaving little room for redundancy. BSNL is reacting positively to our increasing demand and is cooperating, in its own limited way by providing high capacity cables to enable connectivity.

New Connections: In the past 12 months, 52 new line connections, 21 shifting, 117 broadband connections and, 209 changes in plans were provided.
**Self Care Portal:** The website is a powerful tool which provides for excellent management of individual connections. New plans, changes, data usage details, call details including numbers dialed, duration, cost, bills for previous 6 months, billed and unbilled data usage are all available at the click of the mouse. AVTS has created accounts for each number and provides login details suo moto to subscribers.

**Figures etc.:**

**Future Plans:**

- Continue to motivate and encourage BSNL to meet subscriber aspirations.
- Constant liaison with BSNL on behalf of AV consumers.
- Continue to lower cost of service to community.
- Continue to empower subscribers by providing relevant links and information about their connection through regular interaction via Auronet and News & Notes.
- Work with the TDC for the planning and development of Auroville’s internal communication network.

Be actively engaged in the ICIT project to provide green and reliable communications.

~~~ Reminders from AVTS ~~~~~~~

- **To register/report:**
  1. BSNL landline or Broadband faults dial: 1500 from BSNL landline/cell phone OR 1800 345 1500 from other phones
  2. BSNL cell phone issues dial: 1503 from BSNL landline/cell phone OR 1800 180 1503 from other phones

OR go to [http://selfcare.sdc.bsnl.co.in/selfcare/start.swe?SWECmd=Start&SEWeb=selfcare.sdc.bsnl.co.in](http://selfcare.sdc.bsnl.co.in/selfcare/start.swe?SWECmd=Start&SEWeb=selfcare.sdc.bsnl.co.in)

At the end of the call, note the 12 digit Docket number and inform AVTS so that we can follow it up for you.

- For telephone directory changes: contact telephoneservice@auroville.org.in
- For new email address: contact sysop@auroville.org.in

**ANNOUNCEMENTS**

**Announcement from BCC on Wage Increase effective after April 2016:**

BCC has decided to increase the wage-budget by 8%. This figure has been reached after carefully considering the inflation rate and the local variations therein. However, a raise in the wage-budget does not mean each wage should increase by 8%. Instead, BCC recommends the services to decide on the percentage increase of wages for the workers within their activities such that those earning less can get a higher raise than those earning more per day.

**About PTPS**

Dear Auroville Community,

Considering food and essential supplies are basic needs for the community, after reviews over several months, the Budget Coordination Council (BCC) along with the Financial Asset Management Committee (FAMC) has come to the decision that PTPS (Pour Tous Purchasing Service at Aspiration) should be run as a community supported (budget based) service and not one that generates any profit from an Aurovillian. Moreover, there should be increased involvement of Aurovilians advising, and participating in running the service. For this purpose the BCC has requested the Auroville Board of Services to identify at least five active Aurovilians who will be involved with the service. In addition BCC hopes to set up a Steering Committee of people with relevant experience and interest to oversee the food and grocery supply chain in Auroville. Ideally, we would like these changes to be implemented by August 2016. We are inviting the present PTPS team (the active executive and manager) to participate in this new venture.

We will look forward to hearing from you.

BCC

**Invitation from the AVCouncil: TDC Restructuring Workshop**

You are invited to: Auroville value-based Town Planning and Development Workshop

When: 30th of April and 1st of May, two full days
Timing: 8:30 am to 5 pm
Where: Unity Pavilion

The workshop marks the 1st phase and is meant to build up energy, align our vision and values and prepare the ground for a further participatory process which includes the whole community.

“Auroville is conceived as an urban experiment that would address the work of the ‘evolution of consciousness’: a spiritual way of life while dealing with challenges posed by the economic, sociological and cultural factors of the region.”

(The Mother, 1970)

**Workshop Objectives:**

1. To generate a shared vision for planning as a true base for collaboration and initiating a participatory process for emerging from values into action
2. To find agreement around key issues with regard to Town Planning and Development in Auroville and how we can work together with integral vision and inclusiveness towards their realization.
3. To identify levels and stages of participation to put in place a process of a larger community participation in order to encourage and gather community input to Auroville planning.
4. By November, create a strong, vibrant and collaborative l’Avenir d’Auroville with an integral approach which takes into account all the facets of Auroville’s ideals and development, working together, transcending opinions and positions.

**Background:**

In February 2016, the Working Committee called a General Meeting to discuss a Town Development Council restructuring proposal, that involved moving Auroville’s entire town planning process to an external body - The Vastu Shilpa Foundation,
which according to the proposal would: “be given the work of making the detailed development plans of the Galaxy.”

In response to this, a group of concerned Aurovilians came together to take the following action:

1. Sent a letter to the Governing Board informing them that Auroville would organize a community participation process that would address the city’s town planning and the structure of the Town Planning Council.

2. Formed a small task force (this task force was formed on a voluntary, open participation and self-filtering during several meetings) under the AV Council’s purview to organize a first phase “stakeholder” workshop and a second phase community-wide forum for community participation in planning the city.

Who are the “Stakeholders”?

Although every Aurovillian is technically a “Stakeholder”, an effort was made to keep the first workshop as focused as possible, in order to make it practical and effective. We need to build up Trust and Positive Energy towards collaboration of diverse viewpoints. To this end an initial list of a limited number of “stakeholders” (due to lack of space and facilitators for the workshop) was drawn up representing different areas, considerations, approaches and ideologies in Auroville grouped in the following categories:

- Architecture, art and culture
- Ecology, food, farms and forests
- Land and ownership patterns, infrastructure, mobility, village and bio-regional cooperation, Auroville Services, integral educational environment (life-long learning), economy, business, entrepreneurs, liaison with GOI-GB-IAC etc.

Prevalent opinions: Despite our original intention of keeping the workshop to a specific number of people based on areas of work/interest they represent, however, the events of the last week has allowed us to reflect on this - we are now happy to welcome anyone that may wish to be part of this first preparatory workshop which is intended to be the start of a detailed process on the topic.

If you have a strong interest to participate in this initial workshop, please contact the AVCouncil at: avcoffice@auroville.org.in. Attendance for two full days is required.

Please remember to mention one or two categories (as above) that you feel you represent when you send in your name. The sub-group will shortlist participants based on areas of representation (if necessary) as we have limitations of space and facilitators.

Please also be aware that you are required to sign up beforehand in order to be able to participate in the workshop.

The intense process undergone by this group of about 15 Aurovilians over the past two months, with active facilitation to organize this process, has been one of building up Trust and Hope in the next steps to the Planning of Auroville. We hope that all the current issues and Challenges facing Town Planning and Development in Auroville can be put on the table with honesty and sincerity so that we can address them without brushing the uncomfortable issues under the carpet.

This is a critical working session for the community. This workshop intends to be part of a program working on a new approach. It has the potential to significantly shape the future of the planning and development of Auroville, the city the earth needs!

Please write to us by the 25th!

We look forward to seeing you at the workshop.

For the AVCouncil: Sandhya, Sindhuja

Sub group composed by:

Amy, Bridget, David, Deoyani, Eugen, Fabian, Heather, Helena, Isha (Swayam), Jana, Jaya, Mamata, Meera (inspiration), Mona, Pashi, Peter A., Sauro, Shama, Shivaya, Suhasini

We would like to inform the community that our team is happy to recommend the following persons as Aurovilians and Newcomers. We will wait for two weeks (Newcomers and Returning Aurovilians) and one month (Aurovilians), from the date of this publication, for your feedback, before confirming.

Aurovilians:

- Erik JANSEGERS (Belgian) - Staying at Grace, working at Auro Orchard.
- Fanny CANETTE (French) - Staying at Grace, working at Pichandikulam.
- Maguy (Maggie) POINT (French) - Staying at Maitreye 2, working as a coordinator at Savi.
- Frederic POYET (French) - Staying at Auromodel, working at Matrimandir, Botanical Garden & French Pavilion.

Newcomers:

- Omar RABIE (Egyptian) - Staying at Discipline, working as a researcher at Earth Institute.
- Gerard ARNAND (French) - Staying at Reve, working at What's Up Cafe.
- Bitna ARSHI (Indian) - Living at Celebration, working at Aurovil Services.
- Christophe BENESE (French) - Staying at Utility, working at Nandini Tailoring Service.
- Juergen AXER (German) - Living at Udavi, working at Teacher Center.

N.B. The announcements done in the News and Notes are for feedback only and sometimes, after announcement, there can be either an extension of status or a decision to stop the process. We have added Confirmation Section below:

CONFIRMATION OF NEWCOMER TO AUROVILIAN STATUS AFTER ANNOUNCEMENT IN N&N AND CONSIDERATION OF FEEDBACK RECEIVED FROM RESIDENTS:

Aravinda MAHESWARI (Indian from UP)
Jasmin MAHESWARI (South African)
Marie Del Milagro IBANEZ (Spanish)

We will soon invite you to fill in the B-Form request for a meeting with the AV Foundation Secretary with the aim to add your name to the Register of Residents.

People who have left Auroville on their own:

Wendy D'Olive (Italian)

In case the above person(s) wishes to come back to live and work in Auroville, (s)he will need to restart his/her newcomer process.

Dear Newcomers,
The Entry Service team would like to inform you of the timings designated specifically for you to collect or submit the Newcomer Kit. Please pass by our office in Town Hall during these hours only: Monday & Wednesday at 2pm to 4pm.

Please return these Kits within one month of the process goes on hold.

We are open for B-Forms and Recommendation letter matters, on appointment only.

For all other matters, the office is open on Mondays, Wednesdays and Fridays at 10-12am, except for every last week of each month when we are closed to the public to do the internal office work.

The Entry Service team (B, Chitra, Christiane, Eva, Giridev, Ishita, Neeti)

L’avenir d’Auroville: 16th April 2016

The following Site and Building Applications (SA and BA) are announced for feedback from the community for a period of two weeks. The announcement is made for feedback only and does not mean that the project has final approval.

The final approval is given when L’avenir d’Auroville / TDC issues an NOC (No Objection Certificate). This happens only once the feedback period is over, the feedback has been
evaluated, a final decision by TDC has been reached and the necessary financial formalities have been completed. It is only after issuing a final building permission that fencing, building or any other activity on the site can start. It has to be noted that site permission is given to reserve the site for a maximum period of two years in order to prepare a project proposal. It does not give any right to fence and clear the site unless, for practical reasons, there is a special permission of the TDC.

**Individual Project**

**Building Application Feedback:**

Segar - SAIER Transport, House in Equality on plot no IR 291/1 for an area of 80 sq.m.

**Collective Project**

**Building Application Feedback**

1. Joy Guest House - Giovanni Scollo Abeti, Center Field, Renovation

**Project writes up given by the project holder:**

**Project Title:** Joy GH rooms & office

**Proposed Site Location:** Joy Guesthouse

**Project Holder:** Giovanni, Stefania & Sara

**Architect:**

**Contact Persons:** Giovanni

**Description:**

Plot No: IR 226/0

Total Area of the project: 143 m²

Build up Area: 80 m²

**Target Group:** guests and volunteers who need additional comforts

**Background:** Joy is a beautiful guest house with a lot of potential. As it is quite old, we have been improving the place since the past couple of years and we want to continue doing so.

**Triggers:** the keet roof of the existing building (hosting 3 rooms, an internal courtyard, and the office) was collapsing and the walls were in very bad shape to stand a new type of roof. As the building has no foundations, we decided to take the opportunity to remake a new construction so that we could have a proper office and 4 new rooms. As we already have many other spaces to host guests on a budget and we have been asked by many regular guests to have some rooms with improved facilities, we have taken the opportunity to serve this purpose with this new building. However, we will continue being a guest house catering mainly guests and volunteers on a budget.

**Goals/Objectives:** to have some accessible rooms that can cater people who need/prefer more comfortable facilities to stay in Joy and a proper office where we can work worry-free.

TDC asks for feedback from the residents of Auroville within two weeks from the date of publication. If anyone wishes to have detailed information, feel free to contact TDC - L’Avenir d’Auroville office: 2622-170 or come personally to the Building Application section.

**Kavunji nature camp - Group 2**

**Compulsory Meeting** for everyone (adult participants, children and children’s parents) on Saturday April 23rd at 5pm in Certitude Sports Ground.

2016 KAVUNJI - 2nd GROUP

- Leaves Auroville on May 11th in the evening (Transport Service).
- Leaves Kavunji on May 21st in the afternoon
- The children will be back in Auroville on May 22nd early morning.
Kavunji nature camp - Group 3

Compulsory Meeting for everyone (adult participants, children and children's parents) on Sunday April 24th at 5pm in Certitude Sports Ground.

2016 KAVUNJI - 3rd GROUP
- Leaves Auroville on May 20th in the evening (Transport Service).
- Leaves Kavunji on May 30th in the afternoon.
- The children will be back in Auroville on May 31st early morning.

FOR YOUR INFORMATION

April 24, Darshan Day: Mother's Second Arrival in Pondicherry

On 24th April 2016, the Ashram doors will be open for Darshan from 5 am to 12 noon. No tokens.
- 3 to 3.30 pm - For people who walk with difficulty or aged people.
- 3.30 to 4 pm - For people who are not mobile.

With Love, Maliika

A U S T R A L I A = We're happy to announce that Australia now has two AVI liaison persons. One of them is Jan Allen (goo.gl/kDpRnP), long term Aurovillian of Fertile community who was very instrumental in the early greening years of the City of Dawn. Jan currently lives at the continent's eastern side, near Sydney, NSW, from where she has been representing Auroville since years. She now gets a counterpart at the western side of the country, namely Ms Kavithanjali Ramachandran, an OCI who has been living in Wanneroo near Perth in Australia for the last 9 years. Kavitha has been connected with the Ashram since childhood, has a solid collection of Sri Aurobindo’s, Mother’s and related works and has been regularly staying in Auroville during the last ten years. As she works for the Wanneroo government she found herself, naturally, at times giving presentations on Auroville and what it stands for, and the next step was evident! Kavitha can be reached via Kavithanjali.Ramachandran@wanneroo.wa.gov.au, while Jan is available at Janaviaus@aurovile.org.in

L I T H U A N I A = As circumstances of his life forced AVI’s earlier Lithuanian representative, Egidijus Skudrickas, to leave Lithuania, he was most happy to make place for two new AVI representatives in the country, and they are Laime Kiskune and Kazimieras Seibutis, stationed in the capital Vilnius. Laime, originally a pharmacist and botanist, works as perfumer in her own company, while Kazimieras, a journalist and translator, functions as chief editor of the foreign desk in a news agency. As many other members of the former USSR, they were acquainted in their youth with Sri Aurobindo’s, Mother’s and Satprem’s writings via papers circulating in the underground only. After Lithuania’s independence they created in 1991 a Sri Aurobindo study group which is still active. In the mid-nineties Kazimieras lived and studied for a year in Pondy’s

News&Notes 23rd April 2016 [646]
Ashram, and both are now grateful to have the opportunity to make Auroville’s aims and vision more known in their country as “We are sure that efforts to present the message of Auroville are necessary for a general understanding that unity of mind must be based on a more essential spiritual ground.” The pair can be reached via kaziseibu@gmail.com

**N E T H E R L A N D S** = The April newsletter of the Dutch AVI centre (goo.gl/6Mahll) gives, besides highlights of Auroville’s faring, also a fine translation into Dutch by JanPieter Derksstra of Sri Aurobindo’s ‘Life and Yoga’ introduction to The Synthesis of Yoga. As the centre regularly maintains Savitri gatherings and workshops, and once a year invites expert guidance from f.i. Sonia Dyne of AVI UK or Aurovilian Shraddhavan, this newsletter contains a detailed report with photos of the Savitri Immersion Weekend guided by Aurovilian Rod HemseII that took place on 9 & 10 April of this year in Holland’s country side.

**G E R M A N Y** = Once again AVI Germany is preparing for its annual three-day AVI-D gathering, which will this year start on Thursday May 5th. Venue will be the Christianopolis conference centre, near Bonn/Cologne. The centre is run by the German Rosicrucian Society, which has already hosted two events where members of the AVI Germany board were invited to speak about the Integral Yoga.

Interestingly, an exceptionally big number of first time participants and AVI Germany ‘newcomer’ members are among the more than 80 people registered for the gathering. And of course, also the next group of ‘weltwaerts’ volunteers will be present during these days, receiving their first round of training.

An important focus of the meeting’s programme will be the AVI preparations for Auroville’s 50th anniversary. In this regard, the team is especially happy to have Aurovilians Karin and Peter A attending, and also Gijs who will present UnLtd Tamil Nadu & its training programmes for groups of ‘changemakers’.

**From AVES on Air Conditioners**

Dear Auroville Residents,

In recent times Auroville Electrical Service has received a lot of requests for the installation of air conditioners.

**There are a number of things to consider before installing an air conditioner:**

**Energy Conservation**

Before considering the installation of an air conditioner you may like to check out alternatives including:

- Improving the heat insulation of the building;
- Improving cross ventilation;
- Installation of a ceiling fan or pedestal fan;

**Energy Efficiency**

If you need to install an air conditioner, make sure to install an energy efficient type and model. Select air conditioners with energy efficiency ratios of 3.50 or better.

See also: [https://beeindia.gov.in/sites/default/files/tools/Schedule3A-RAC9yun.pdf](https://beeindia.gov.in/sites/default/files/tools/Schedule3A-RAC9yun.pdf) (page 5)

**Sanctioned Load**

Each electrical service connection in Auroville has a “sanctioned load”, also referred to as the “contracted load”. This is the maximum load that can be connected to the service connection. If the load exceeds the sanctioned load, a penalty may have to be paid. If the planned addition of an air conditioner would result in the sanctioned load getting exceeded, first an application has to be made for additional load approval.

**Energy Consumption**

Domestic electricity tariffs work with slabs. The addition of an air conditioner may result in the energy billing at a higher slab rate. The present slab rates can be found here: [http://www.tangedco.gov.in/inkpdf/Tariff%20payable%20by%20consumer%2812.12.2014%29.pdf](http://www.tangedco.gov.in/inkpdf/Tariff%20payable%20by%20consumer%2812.12.2014%29.pdf)

The installation of an Air Conditioner will increase energy consumption and may result in the service connection being billed under a higher tariff slab. The increase in the bill amount can be significant.

**YEN KALVI - Short report and upcoming programs**

“YEN KALVI - My Education” event in LEC conducted on 15/4/2016 was well attended by around 50 students and their parents from the bioregion. The speaker, Mr. Jayakumar, Professor of Computer Science and coordinator of Placement Cell in Pondicherry University shared a wealth of information about different college courses and their career prospects. The girls who participated were largely unaware of these choices. The event brought to light the dire NEED for such a program. Friends from the bioregion who work in Auroville shared the fact that first generation students aspiring to go to college are often left without guidance regarding higher education and recollected that they themselves were in this situation when they went to college (some succeeded going to college while others didn’t). The need was also affirmed by educators in Auroville.

Thanks to all those who supported and gave suggestions. The program will be conducted again in the academic year 2016 - 2017 to inform and guide the next batch of students. Various factors like the best suited time during the year to benefit maximum number of students, including boys etc. will be taken into consideration while planning future sessions.

YEN KALVI is expanding to include other programs. This Thursday, 21/4/2016 at 2:30 pm, teachers and students from Auroville Institute of Applied Technology (AIAT) will share information about the opportunities in their institute. This will be followed by a “Role Model Talk” session the same afternoon when a confident young woman from the bioregion who has successfully completed her Engineering degree and now works in a unit in Auroville will share her experiences. Please share information about the program with whoever might benefit.

More programs under YEN KALVI are in the pipeline - information session about residential program in Aravind Eye Hospital by the program coordinator, talk by bank manager regarding educational loans, a tour for students to Pondicherry University to visit various departments are all under way.

Looking forward to your continued support and collaboration.

Devi for the LEC Team

**Security Advice**

Dear friends,

This is to inform you that during the month of March, 2016, 4 thefts (Swayam, Surrender, Future School campus, near Koodam office) 2 bag snatch incidents (near Revelation & Realization gate), 2 harassment incidents (near Prarthna & Future School), 1 physical violence (AV bakery) and 1 nuisance incident (near KK Mangalam project) occurred in different areas of Auroville.

We request all Aurovilians/Newcomers/Guests to be more conscious of their valuable belongings and use additional locks for their vehicles and houses to lower the risk of thefts.

We recommend that women avoid travelling alone at night, and to store our security numbers in their phones to report any incidents as soon as possible.

Women of all ages and modest dress codes have reported harassment, so be on your guard at all times. Be wary of three boys on a bike and do not stop for local men asking for directions. For post-incident support and counselling you may call the Women’s help line (open in the morning) at 262-2425 or email AV health services: avhs@auroville.org.in.

For escort (for people with bikes/cycles only), call the Auroville Safety & Security at: 9443090107. Please note that
the guards cannot leave their posts without prior permission from Security management.
To those who are leaving town: please inform your neighbours to keep watch over your houses/apartments. Kindly inform your watchman/gurkhas or house sitters to contact us immediately when there are any people / incidents to be reported.
We recommend all residents and guests to travel in and around Auroville:
- With Xerox copies of your documents only. Leave the originals in your guest house safe.
- Not to carry large amounts of cash or valuables on your person unless absolutely necessary.
- To secure / tie up your bags properly or to keep bags on your person instead of in cycle baskets.

To contact the new AV Safety & Security Team:
- Call us 24/7 for emergency, assistance or escort on 9443090107, Police Liaison: 9443362691
- Visit our office (2nd floor of Town Hall) from Monday to Saturday (9AM to 1PM - 2PM to 4PM)
- contact us on 0413-2623400 / avsecurity@auroville.org.in

Some inspiration from our last World Café "Restoring Connection" on April 11

Healing the Hurts - a healing process of Canadian First Nations
Attunement for the evening was a quote of Lakota Chief Crazy Horse from 1877:
"Upon suffering beyond suffering the Red Nation shall rise again and it shall be a blessing for a sick world, a world filled with broken promises, selfishness, and separation, a world longing for light again. I can see a time of seven generations when all the colors of mankind will gather under the sacred tree of life and the whole Earth will become one circle again. In that day there will be those among the Lakota who will carry knowledge and understanding of unity among all living things, and the young white ones will come to those of my people and ask for this wisdom. I salute the light within your eyes where the whole universe dwells. When you are at the within you and I am at that place within me we shall be as one."

Two questions we asked our tables and some responses from the participants:
1. What touched you about this film?
   - Look at integrating our different cultures in Auroville, especially in regards to what our schools are promoting. Do we teach primarily Western education?
   - We are afraid to go so deep
   - If we loved ourselves more, we would love others more easily
   For the full "Healing the Hurts"-movie, please see here: https://m.youtube.com/watch?v=Q6BM71WZPPI
   Our next World Café evening will be on Monday, May 9th / See you at 7 pm at Le Zephyr (Visitors' Centre). All are welcome!
   For upcoming workshops and practice group dates, contact: joyvileingelearning@gmail.com
   Restorative Auroville team - Laura, Janet, Shanti, Kati, Helene - restorative@auroville.org.in

Auroville Barefoot Run 2016

The 10k Barefoot Run started from Certitude on Sunday with 55 runners and it has been a huge success!
Participants came from as far as Chennai, Tirupati, Pondicherry, Auroville, and the villages around Auroville. The success is entirely thanks to the volunteers (Aurovilians, Guests and friends from the Ashram) who came to assist the runners, marked the route, set up aid stations, took care of time keeping and helped in any possible way to make sure that the runners would find their way and have an enjoyable Auroville experience. Thanks for making this possible!

Congratulations to all of those who took part in this barefoot adventure, from the fastest with 46 min to the last with 1h40 min. Running barefoot through the Auroville forest is a treat and we thank to all those who have helped to buy, protect and plant the earth of Auroville and turn it into this admirable and unique green wonder over the past 48 years.
On Sunday, three runners were sponsored thanks to LFAU and the process of the fundraising has been transferred to the Unity Fund with the aim to buy more land for Auroville and its greenbelt. Our intention is that with the next edition, all runners will be sponsored so we can raise more money for this noble cause of protecting the integrity of Auroville and its greenbelt which is under threat from developers and real estate agents.

We came up with three ideas:
1) Let's do it twice a year. Once in April, like this time and once either around Sri Aurobindo's birthday in August, or the last Sunday of October, when the monsoon has started and running barefoot is really fun and we can get ashramites before their school holidays and 2nd of December practice which starts on 1st November.
2) We explain to each runner, especially the ones who will come more and more from Pondy Chennai and other Indian cities after the success of the first race, that they get the privilege to run in one of the greenest routes in Tamil Nadu (and probably India's plains), because of the efforts of Auroville's pioneers, who planted 3 million trees - but that this forest is endangered. Also in the Indian tradition, doing a 'prakrama' of the Matrimandir is a unique privilege and gives a spiritual symbol to this race. Thus we ask (without imposing it), that each runner tries to get a sponsor for himself or herself and we set a minimum rate per km (I would say Rs 500). In this way, I am sure we can raise at least 10 lakhs per race. No registration fee, we keep everything simple
3) We will mark a permanent 10 KM route starting from Certitude, more or less in the line of last Sunday's race, so that people can practice and we can use it, even in monsoon time (chalk gets erased by rain).

Eric, Frederick, Francois
Permaculture garden

Dear friends,
We can grow food all year round in Auroville! How will we build the city of dawn if we only grow food in our winter season? Come and learn to make a summer permaculture garden this Saturday at 4 pm @ the Town hall public space permaculture garden. The Town hall permaculture project is a public space, community garden project aimed at reconnecting us with where our food comes from.

Krishna Mc Kenzie

Applications Open for the 4th Auroville Singing Festival 2016 (unplugged)

Dear friends,
This year the Auroville Singing Festival will probably take place during the first 2 weeks of October 2016. It will be more simple and modest and will last only one evening. We propose that participants perform alone or in small groups songs with simple accompaniment or “a cappella”, to reduce the load of technical installation.

We reserve ourselves the right to decline accepting songs which are not sufficiently in the Auroville spirit.

We would prefer that participants organize their own accompaniment as Rolf and Ananda may be able to help only in a limited capacity.

Application forms can be obtained by email from avsingfestival@auroville.org.in - The deadline for submitting application is on 31st July 2016 (For warm memories of last year’s edition, see https://www.facebook.com/communityculturalcolors?ref=hl)

Welcoming you, Ananda, Noeul and Rolf

Free Store Summer Opening Hours

Dear community,
We would like to inform you that in the summer months May and June we will be open ONLY in the MORNING. As usual: Monday to Saturday from 9.00-12.30. Please take note that we will be closed in the afternoon. A gentle reminder to bring all items in good condition (clean and usable) to Free Store!

Thank you and have a relaxing & fun summer :)

Warm greetings, Free Store Team

Great Books on Raw Vegan Diet

Dear Aurovilians,
I am very happy to inform you that I found a generous donor who could buy Dr. Gabriel Cousens famous, great books on Raw vegan foods. These books are about Spiritual Nutrition, Conscious Eating and Reverse Diabetes.

Dr. Gabriel Cousens has been following a raw vegan diet for the past 42 years, successfully proving to all how raw foods contribute to vibrant health, anti-aging and longevity. He is the one who graciosly granted me a scholarship inviting me to his place - Tree of Life Rejuvenation, USA and introduced me to this magic diet style.

Jean Francois Noubel one day like many walked into the raw food restaurant Satchitananda and had lunch, got impressed and asked me if there anything that he could give me. I wanted these books for our community. I have given these books to our library. So my friends please look for those and enlighten yourself and start including this wonderful raw foods in your diet.

Satchitananda offers lunch daily except Sundays and on holidays. You can also cleanse your body by juice feasting. These juices are made with greens, medicinal plants, herbs, fruits, vegetables, grass, banana stalk etc. By drinking 8 juices a day this is a powerful but pleasant way of detoxing the body. This is why it is called not fasting but feasting.

With Love - Anandi from Kopu [PS. Satchitananda is near Ganesh Bakery, Kottakal]

Mix-Ups and Confusions: Deepam School Names

At Deepam, we work with children with special needs. Deepam is located in Kuliapayam. Our entrance is about twenty meters down the beach road, on the right side. You will see our signboard and the signboard of NESS School in front of the big orange gate. We get sometimes mixed up with Deepam Candles and Deepanam School. Deepam Candles is further down the beach road, on the left side. It is a business and not related to our school. Deepanam School is one of the primary schools of Auroville, located in the centre of Auroville. Deepam school is run by Selvi and Angelika. There are several Selvis in Auroville. This Selvi is the wife of Shankar and her handle-address is selvis@auroville.org.in. Angelika is the wife of Jeff and her mail-address is angel@auroville.org.in. It is not the same Angelika who is in charge of the Solar Kitchen and who uses the mail-address angelika@auroville.org.in

Angelika for Deepam

Aurocabs 7th year

Dear Friends,
Aurocabs Taxi Service is happy to share with you all that it is stepping into its 7th year from the end of April. Without your support, we could not have reached this mile stone. Thanks to you all and hoping to get same support in the future!

Regards,
Raju for Aurocabs Taxi Service. (Phone : 0413 2623200 / 2623201 Mobile: 9843734825 aurocabs@auroville.org.in)

A View on Kalpana.

Auroville is not the Auroville anymore what we had in mind when we came in 2000. We wanted to start a completely other life. A life concentrated on inner development and work. We left behind our cars and nice machinery for a different way of living. It is very sad to see that also Auroville tends to attract rich people who can pay huge amounts for luxury housing with garages for their cars. 38 Lakh! For that money one can build at least three nice houses. Auroville has lot of architects! Let them study on that!

I propose a referendum. Let every Aurovillian give his/her view and vote!

I am strongly against this!
Henk. Petite Ferme

Puppies!

We have 6 very small puppies to give away for free. They still need milk but you can also take them in a few days when they can eat solid food. Contact Laura at lhaslelt@gmail.com or 8525961875 if you are interested!{}

Looking for Lego - do you have any?
Dear Friends, Neelabh, our 4 year old son is quite into playing with Lego and likes to create different forms. Looking at his growing interest and to provide support for his further creative exploration via Lego, we are looking for some more quantity and variety of the same. Sets of wheels are one sure thing which he would love to use apart from other types of pieces. If you have any and not using them, we would be happy to have them. If some contribution is preferred to be made in any case, we would be very willing to consider. Thanks, Lalit & Shailaja, <lalit@auroville.org.in>, 9443790172

Wooden chair
I am looking for a basic but sturdy and able wooden chair with straight back and wide armrest for my writing work. If anyone in the community has one lying unused and is happy to give it away, please let me know. Thanks, Gaurav (medimedia@gmail.com, 9787897947)

Lost & Found
A Green Butterfly Plastic Ring (Lost): Hello kids & parents coming to the Certitude playground - my young daughter Nadia lost there her lovely plastic ring: green colour, with a butterfly shape. If you found it please call! Phone no. 9786401213. Thank you! Dorota and Nadia.

Stolen Phone and Wallet (Lost): Hi! My Samsung Galaxy 2 Tab and wallet were stolen from my bike near Forecomers Guest House Community on April 16th. I'm staying at Youth camp for one more week. Please Help!! Contact panchamlonkar@gmail.com or Pancham Lonkar on Facebook.

Accommodations available and needed

2 House Sharings needed in France
I am Christine P from fertile. I have to stay in Montpellier from June 21 to July 29, so I am looking for a room in a House Sharing there. And I am also looking for a room to rent in a house share in the Valence/Crest (26) area from 1st of August to 15th of August and from 29th of August to 11th of September. You can contact me by mail: christinep67@gmail.com - Thanks, Christine

House-sitter1
Seeking one Aurovillian or Newcomer to house sit in Madhuca from half may - half July. Contact lisbeth@auroville.org.in to discuss contract and expenses. Lisbeth

House-sitter2
House in quiet, just in front of the beach. Wonderful view, little pond to refresh oneself while looking at the sea, a couple of cats and a quiet wild garden :) We are looking for house sitters from 12 of May to 13 of July. The house can host up to 4 persons (one couple bed upstairs, two single beds on the ground floor). Contact by mail teresa@auroville.org.in or by phone 9159008653. Thanks! :) Teresa & Manolo

TAXI SHARING

April 24th: To Chennai airport, leaving at around 22.00 from Sharanga Guest House. You can contact me on 97-51-247092 or whazzap: 0041-766-41-35-42, email: fatso@smiley lemon.ch. Thank u very much! “Smiley Lemon” Bogdan

April 25th: Taxi leaves Auroville on 25th (Monday) in the morning at 9 am for Chennai Airport drop and will be free to return at 12.30 Noon. Taxi leaves with one passenger and can be shared coming or going or both ways. Contact Josee: joseelitalien1701@gmail.com, 07639069253

April 26th: Tuesday 26th of April, leaving from Auroville at 4 pm to Chennai Airport. Taxi can be shared both ways, only 1 person is going. ingrid@auroville.org.in / 9443843976. Thanks, Ingrid

Lively Boutique garments
Dear Friends, Lively Boutique, Kottakarai, Auroville, offers Garments sale up to 50% - for the period of April 20 to May 20, 2016. All are Welcome - Lively Team - Please contact Lively for more information: 0413 2622589 or lively@auroville.org.in

News&Notes 23rd April 2016 [646]
**WORK OPPORTUNITIES**

**System administrator for BlueLight**

Blue Light is urgently seeking for a system administrator preferably with experience. Minimum one year commitment. Financial support can be provided. Contact: bluelight@auroville.org.in or phone 2622500

**English Teacher at Oli School**

From June onwards, Oli School (Outreach Creche and kindergarten located in the old building of Last School) is looking for an English conversation teacher to help the teachers communicate better in English. Some of the team members are true beginners. They would need the person either from 1 to 2 pm, 2 to 3 pm or 4 to 5 pm every day (or less if not possible...)

The team is young, very enthusiastic about learning and fun to be with!

Anybody interested? Contact Oli School 0413-2623321

Marie Claire and Marianne for the Oli School Support Group.

**From Youth Link**

YouthLink is looking for help with secretarial tasks such as filing, maintaining records and simple coordination for workshops, events and projects. The work is fun! As it is a hot summer, the work is less intense over the coming months, however we do call for someone with genuine interest and dedication.

We currently have a few areas we are focusing on, such as the Construction Team for Hive project in International Zone, Eco-village Design Education Team for a course planned for December 2016, and we are creating an Information Point for Apprenticeships/Internships in our office. We also have a Paalam Youth Team for our bio-regional work, links to YC, and hopes to link to the Ashram Youth and to Auroville International. As you may remember from last year, International Youth Day is scheduled for 12th August... we have lots of plans... come find out more by scheduling an appointment to visit our office and by reading online: [www.youthlink.org.in](http://www.youthlink.org.in).

Part-Time Maintenance available - starting in May 2016. If interested please contact us immediately for an interview in April. Please send us a description of your background, skills and why you would like to join the YL team to youth@auroville.org.in.

Looking forward to hearing from you,

Warmly,

YouthLink team

**From The Auroville Earth Institute**

The Auroville Earth Institute is looking for a permanent employee or Aurovilian who can help us with training courses, research and supervision. The candidate will initially be trained by the Director and Co-Directors of the Institute for a period of several months and he/she will progressively undertake responsibilities as described below. Please send CV or resume (PDF) and a motivation letter to earthinstitute@auroville.org.in and lara.earth@gmail.com and/or phone to 262 3064 / 262 3330.

**Job description**

- Soil analysis by sensitive testing and helping with research on various stabilised earth technologies
- Writing reports on various subject
- Checking block making and quality of blocks
- Supervision of workers
- Conducting practical courses in Auroville on production of CSEB, Masonry with CSEB, Building AVD
- Checking the Auram presses before their delivery
- Checking works in Aureka (link between Aureka and Earth Institute)

**Skills and Experience needed**

- Strong interest for experimental research
- Good knowledge of Autocad, MS Word and XL
- Fluent Tamil and English (writing & speaking)
- Sense of initiative and ability to work independently and efficiently toward deadlines
- Preferably graduated engineer (in civil or material engineering), with knowledge of various construction materials

**Auroville Earth Institute team**

**From Auroville Papers**

Along with Serge and Hervé, in 1997 Luisa created a unit for making hand-made paper. At that time the place used for it was an old building built by Poppo in the 70s and which had been abandoned for many years after the collapse of the old Hand Made Paper factory run by the SAS. The building was in a terrible condition. One by one, all the rooms and the dark corners had to be cleaned, emptied and refitted. Old employees had to be compensated. Machinery had to be bought (beater, hydraulic press, etc.). Production had to be started. None of them knew anything about paper making. Everything had to be learnt from scratch.

Today after many years of hard work, as you probably know Auroville Papers produces beautiful stationery and decoration items made with handmade paper. The financial situation is reasonably healthy. The important thing is that we create beautiful things and that we love doing that.

**News&Notes 23rd April 2016 [646]**
To complete that picture, it should be added that Jean-Jacques has joined the team a few years ago. Moreover, the entire team comprises also the people working in Auroville Press and Auroville Publishers (Jayalakshmi and Christine) as these 3 units are intimately connected. And it is important to note that the whole team manages also the bookshop at the Visitors Centre.

All this long introduction in order for you to understand that now Luisa would like to have an assistant: An Aurovillian who would be part of the team and would help her in the managing of the unit, in the creation aspect of the work and in the day-to-day decisions. The ideal would be if in the course of time, naturally, she would take more and more responsibilities.

You are welcome to visit Auroville Papers and talk to any person of the team if you feel that this is a possibility you would like to explore.

**A Volunteer for the Auroville Online Store**

Are you interested in an inside view of several Units in Auroville at once? Then we are the right place for you! We are looking for a full time Volunteer, who would like to join our team and support us in marketing, everyday business and an upcoming project. Good English skills are required. We are looking for someone available from three to twelve months. Interested? Then contact Luise at networking@auroville.com, or call 0413 - 2622069.

Have a look at these to get a better idea:

**HEALTH**

**Santé Summer Timings**

Hello Community!

During the months of May and June, Santé will work on a new summer schedule as some of our doctors and therapists will be out of station. Santé will be open from 8:45 am to 12:30 pm from Monday to Saturday during May-June 2016.

Have a lovely summer break everyone!

---

**AUROVILLE RADIO**

These are the latest programs published by AurovilleRadio this week. All the recordings are available in CD or ready to be copied on your memory stick at the AurovilleRadio premises in Town Hall, opposite the Financial Service.

**Shakespeare, Cows, Earth** (News from Auroville 18/04/2016)

At Adishkati on weekend two plays, AV theater Group celebrates 400th anniversary of Shakespeare on 23rd at CRIPA - [English, 9 Minutes]

**Mother’s Q & A - 21/12/55** (The Mother 17/04/2016)

Mother explains why Sri Aurobindo’s Yoga has to be done as a collectivity in the Ashram for the transformation to be. - [English, 63 Minutes]

**Discuss Kalpana Project** (Infrastructure 16/04/2016)

General Meeting to discuss the Kalpana Project - [English, 132 Minutes]

Dear Listeners,

As the mercury rises and summer advances the radio team enjoys a cool work environment thanks to the low consumption AC’s installed last year with your contributions. Thank you! This year we will sound proof the editing studio, as it’s not possible to converse and record in the studio at the same time. Our equipment is slowly being upgraded, 3 professional earphones, 1 new computer and the new mixing table. We are receiving several applications for media internships from universities around India, thus our team is always busy working on: recording events, editing, improving content, IT and technical upgrades and welcoming and training volunteers/students/people.

---

**SPRINTS**

Past - Present- Future Tennis-players and Tennis-lovers:

1) A summer coaching camp is organised during the May/ June for tennis-players by Murthi at Certitude.

Please register yourself for a two weeks camp: Murthi - 94 42 086090

2) The courts need urgently a face-lift and an appeal to all to contribute towards it - acc: 252024

*For Certitude Tennis Team, Frederick*

---

**Tibetan doctor**

The Tibetan Doctor and the team visit Auroville on Saturday the 23rd of April. We no longer give appointments but Aurovilians, Newcomers wanting to visit the doctor are requested to call us @ 0413 2622401. The consultations happen every 4th Saturday of the month at Pavilion of Tibetan Culture.

---

**Samuel Chabre en studio** (Social Development 15/04/2016)

La façon de concevoir sa vie et l’esprit dans lequel nous faisons notre travail sont intimement - [French, 34 Minutes]

**GM on Kalpana 15th** (News from Auroville 14/04/2016)

General Meeting on Kalpana with working groups tomorrow 15th at 4.30 pm at Unity Pavilion - [English, 10 Minutes]

**Savitri, B. 2, C. 3, Part 3** (Sri Aurobindo 13/04/2016)

The King lives too near suffering worlds for Life’s glory. In earth’s beginnings Life enters matter and falls. - [English, 18 Minutes]

We don’t know how we will find our eventual way to the new archive building with OutReachMedia, but … we will get there, as it seems like the right place for this activity. For financial help towards housing for a radio team member, the account number is 251774 or donate via www.auroville.com/donations, and specify “for Miriam’s Family House”.

We wish all of you safe travels if you go out and to enjoy the mangoes if you stay here!

You can listen to all of the programs and more on www.aurovilleradio.org

For more info call 0413-2623331 or email radio@auroville.org.in
Latest News from the Travel Shop - Inside India (located in Auroshilpam)

We are open from 09:00 to 13:00 and from 13:30 to 17:00, Monday to Saturday.

We suspect that most of the Airlines will raise the fares from May onward, therefore we recommend to book the flight before!

Insurance: We strongly recommend to avail of a Travel Insurance for all foreign travels.

Hotels: International and Domestic hotels can be booked through us on discounted rates.
International Flight Tickets / International Hotel booking / Flight date changes: 0413-2622078, travelshop@auroville.org.in.
Domestic Flight Tickets / Trains / Bus / Travel Insurance: 0413-2622604 / 2623030, domestic@inside-india.com, doulat@inside-india.com
Tours and Domestic Hotel Bookings: 0413-2622047, insideindia@auroville.org.in

EATING OUT

Jolly Kimbap Closing for Summer Break

We will be closed during summer (from 18 April till July). We promise that will bring back more fresh and healthy food for your delight!

Our big thanks to all our valuable customers for loving our food last year!

With love, Your Jolly

Sunday Chill at AuroAnnam

Feeling the heat? Drop by our farm for an evening of delicious food, god send breeze, trees, hanging lights and of course lovely music!

Bring instruments of any kind if you want to kick start a jam session. CYA!

Call: 8523915031 for registration.

GREEN MATTERS

Summer’s here and while everyone is adjusting to the heat, dust and sweat, with hot topics in our city abounding, the 46th Earth Day is around the corner. It is celebrated on April 22nd every year since 1970, when the idea was born to inspire gratitude and respect for the Earth, while drawing awareness to the urgent need to save our environment.

As Earth Day nears its 50th anniversary, one of its five chosen major goals for the next five years is TREES. Planting 7.8 billion trees is expected to have a measurable impact on the Earth and help fostering a cleaner and healthier planet. Over a billion people in 192 countries are celebrating Earth day.

For quite some years Auroville used to honour Earth day with a week-long schedule of activities, a market, campaigns, school programmes and parades. Recently it has kept a lower profile, but this year EcoFemme is organising an original event at Dreamers Café, and Cinema Paradiso is screening its12th Eco Film Fest, from 16th through 22nd April.

Auroville’s Green Center, conceived as a platform for any sort of ‘green’ initiatives and concerns, is a small voice with a big task, especially in absence of a proper environmental coordinating body in Auroville. At this deciding time when Sustainability tops the agenda everywhere, our dark-green island on the Google map, the City the Earth Needs, doesn’t have a formally constituted group dealing with the environment! A wish list for Earth Day would include many ideas, from major ones like standards for sustainable building, to small ones such as a distinct category for the many ‘green’ postings on AVNet.

The Green Center is calling for your contributions in the form of sharing your knowledge and research in a wide range of green topics, writing Green Columns, or helping with organising initiatives such as Sunday walks etc. Our small team needs to grow and evolve!

This Sunday morning, Green Center invites to a special Earth day walk... (Details see below)

Last walk of the season:
Sunday 24 April, 8.30-12.30
ARANYA with Saravanan & Vatsala (tel 0413-290 3590).

The Green Center offers transport from Solar Kitchen, departure 8.30 am sharp. We’ll enjoy an adventure walk, juice and a power point presentation, and an organic lunch to which you can contribute some organic snacks and salads. Back at Sokar Kitchen ca. 12.30 / 1 pm.

Aranya is one of Auroville’s outlying keyhole forests and sanctuaries, in the north-west of Auroville (direction Sadhana Forest and Ousteri Lake). It has a Biodiversity Conservation & Education Centre and organises workshops and adventure survival programmes.

Happy Earth day!
Lisbeth ,Jasmin & Bridget for the Auroville Green Center - avgreencenter@auroville.org.in

Fly ash has been in use in concrete and many other construction and consumer products since the casting of the Hoover Dam (USA) in the 1930’s. It has become a common additive in the construction industry, principally in cement, concrete, gypsum wallboard and lightweight blocks such as Aerocon. Yet the US Environmental Protection Agency (EPA) has done nothing - until recently - to regulate or address the safety of this material.

What is Fly ash? Also known as Coal Ash or Coal Combustion Residuals (CCR), Fly Ash is a by-product of combustion from coal-fired power plants. Depending upon the source of the
coal, its components vary considerably. All fly ash includes principally silica and burnt lime. It can also include a wide and varying range of highly toxic and carcinogenic trace elements such as arsenic, barium, cadmium, chromium, lead, mercury and selenium. Other sources show the high prevalence of radioactive isotopes in Fly ash (Navroz). This industrial waste material is stored in wet and dry landfill storage ponds, and is also recycled into a wide range of products.

“Beneficial Use”: The EPA defines “beneficial use” of Fly ash as recycled use which can “produce positive environmental, economic, and product benefits”, including “reduced use of virgin resources, lower greenhouse gas emissions, reduced cost of coal ash disposal, and improved strength and durability of materials”. There are many technical arguments for engineered use of Fly ash (e.g. improved mechanical performance of concrete). The environmental argument is that Fly ash, as a “pozzolan”, can supplement cement in concrete, while providing a use for an otherwise super-abundant toxic landfill material. This has been challenged by independent experts, as the carbon footprint of fly ash is much higher than that of Portland cement. Some have even pointed out that the EPA’s qualification of “beneficial use” is used to “aggressively promote unregulated recycling” (HBN).

Hazards for environmental and public health:
Physicians for Social Responsibility & EarthJustice have produced an independent investigation, which is among the most detailed publications of the medical risks of toxins in fly ash. Pharos, an independent organization advocating for transparency in consumer building products, lists known chemicals and elements in products along with the scientifically verified human/environmental health risks. It lists for Fly Ash:

- PBT (persistent bio accumulative toxicant), very high (polycyclic aromatic compounds);
- Carcinogens, high (arsenic);
- Developmental toxicants, high (lead);
- Reproductive toxicants, high (lead);
- Genetic mutagens, high (polycyclic aromatic compounds);
- Acute aquatic toxicants, very high (polycyclic aromatic compounds);
- Endocrine disruptors, medium (aluminum);
- Respiratory sensitizers, high (cobalt);
- Mammalian toxicants (e.g. by inhalation), very high (bromine);
- Skin/ eye irritants (e.g. severe skin burns), very high (bromine);
- Skin sensitizers, high (mercury);
- Organ toxicants, high (cadmium);
- Chronic aquatic toxicants (e.g. long lasting effects), high (arsenic);
- Ecotoxins (e.g. to terrestrial vertebrates), high (arsenic);
- Flammables, high (aluminum);
- Reactives (e.g. spontaneous combustion), very high (magnesium);
- Eye irritants, high (butoxypropanol);
- Neurotoxins, potential concern (manganese).

Exposure: The EPA states that exposure may occur through various routes, including “ingestion, inhalation, or dermal contact,” and that the primary concern is “the potential for waste leachate to cause ground-water contamination.” The recommended methodologies for “risk evaluation” are extremely vague and inadequate. There is little published information about exposure routes from products that Fly ash is recycled into. The question remains: How to determine risk?

“Encapsulated” re-use: “Unencapsulated use” is the reuse of Fly Ash in an unaltered form (e.g. fill, soil amendment, anti-skid material and blasting grit). Conversely, “encapsulated use” refers to the incorporation of Fly Ash in products that may “alter or provide long-term containment of hazardous contaminants” (e.g. filler or lightweight aggregate in concrete, plastics, rubber, raw material in wallboard production) (PSR & EJ). It has been a common belief for many years that “encapsulated use” can prevent trace toxins and carcinogens from leaching out. However, there is little to no scientific research which justifies this (Perkins-Will).

Government Regulation & Corporate Interest: The EPA has historically supported the “beneficial” use of fly ash as “Sustainable Materials Management”. Nevertheless, its “Final Rule” (2014) lists it as a “Special waste” subcategory of “Hazardous Waste”. As the Chesapeake Climate Action Network explains, “Coal ash, in EPA’s new leach tests, certainly behaves like a hazardous waste in terms of the deadly chemicals that leave the ash when exposed to water. In fact, EPA admits that for some coal ashes the levels of arsenic, barium, chromium and selenium leached from the ash exceed hazardous waste standards—sometimes by 100s of times.” By the EPA’s own explanation, this decision was taken due to the concern of lobbies that “the stigma associated with regulating the disposal of CCR as a hazardous waste would “cripple” the current beneficial reuse market.” CCR landfills and surface impoundments are now more heavily regulated; however, “EPA is deferring its final decision” on re-use of Fly ash in consumer products on account of “regulatory and technical uncertainties”. The energy industry currently benefits from the sale of Fly ash as a marketed “green product”, whereas the safe storage and containment of Fly ash is a multi-billion dollar liability.

The default ruling is that “encapsulated” use of Fly ash should be safe. However, there is no evidence whatsoever that toxic trace elements are chemically neutralized in this form. There is also no consideration of construction, renovation and post demolition phases of a building. E.g. What about health of workers working with these materials, toxic dust in residential environments during renovations, or water tables once a building has been torn down and landfilled? Documented research addressing these concerns is non-existent.

As the debate begins worldwide about whether or not Fly ash should be banned and/or how it can be safely regulated for use in building materials, etc., regulation has been deemed by independent scientists as completely inadequate in the US. In India, there is virtually no research or regulation. As 65% of India’s electricity is produced by coal (and growing fast!), this is an urgent question. 154 million tons of Fly ash were produced in 2011-2012 alone and state governments already mandate fly ash inclusion in nearby cement manufacturing plants! Today almost all cement on the local market has Fly ash in it.

This material is not new to Auroville, nor are the related discussions. Yet this debate now seems to present itself: whether encapsulated fly ash poses zero risk, or whether it poses such a hidden risk, on the order of the human health impact of asbestos and lead in buildings. Only extensive, unbiased research can treat this topic appropriately. Please feel free to request the full technical report on this material from the Auroville Earth Institute.

Auroville Earth Institute: lara.earth@gmail.com; AV Green Center: avgreencenter@auroville.org.in
TO MĀ MOTHER OF LOVE
This new sanction of new times explodes the wormy barks with their labyrinths of forgetfulness, ignorance and false wealth... She resurrects in us Her irrevocable Force with Her honey pot where all is possible.
The fiery beings return with their golden moments which extend into that immense bird which flies over the Divine Plan that She has transmitted to us.
When the archers strike all the targets at the same time, supported by the sound of the magic flute, justice is done again in a white uplift that liberates and raises the collective Consciousness.
With Her golden steps and Her varied pallet She pulls us towards all kinds of explorations with multiple liberating facets.
Her Light guides our acts to come in the surprise of Her vast silent pause where She smiles.
With the seal of immense gratitude where Her perpetual movement is anchored in the fire of Her eternal Embrace.

A MĀ MERE D’AMOUR
Cette nouvelle sanction des temps nouveaux fait éclater les écorces vermoulues avec son labyrinthe d’oubli, ses ignorances et ses fausses abondances...
Elle ressuscite en nous Sa Force irrémédiable avec Son puits de miel où tout est possible.
C’est le retour des êtres de feu avec des instants dorés qui s’étirent tel cet immense oiseau qui survole son Plan Divin qu’Elle nous a légué.
Quand les archers touchent toutes les cibles en même temps, soutenues par le son de la flute enchantée - alors la justice prend ses droits dans une verticalité blanche qui débride et soulève la Conscience collective.
Avec Ses pas d’or et Sa palette variée, Elle nous entraine à toutes sortes d’explorations aux multiples facettes libératrices.
Sa lumière conduit nos actes à venir avec la surprise de Sa vaste pause silencieuse où Elle sourit.
Avec le sceau d’une immense gratitude où s’ancre son mouvement perpétuel à l’élan de Son Étreinte éternelle,

With Joy’s Grace, Avec la Grâce de la Joie
Submitted by Ganga Lakshmi [Savitri Bhavan - House of Mother’s Agenda]

For your calendar

AMPHITHEATRE - MATRIMANDIR

Meditation with Savitri read by Mother to Sunil’s music
Every Thursday at sunset
From 6.00 to 6.30 pm (weather permitting)
Enjoy the beautiful open space, an immense sunset, heavenly music in the very center of Auroville!
Reminder to all:
The Park of Unity is a place for silence, meditation and inner work and is to be used only as such. We request everyone: please do not to use cameras, I-pads, cell phones, etc.
Dear Guests, please carry your Guest Card with you - No photos there.
Access only for the Amphitheatre from 5.45 to 6.30 pm.
Please be seated by 5.55 pm
Amphitheatre Team

Reminder: Meditation on 24th, 5.30 pm. at the Banyan Tree Matrimandir

INVITATIONS

A DOME TO OWN
This Friday 22nd April early evening you are very welcome to explore our charming dOme at Unity Pavilion Gardens, which opens its space with a small ceremony.
To get a better feel of what kind of gatherings and activities this space may offer most,
you are invited to later join a Dream Catching session under full moon and candle light … it’s Earth Day!
All are welcome! snacks&refreshments will be provided.
Venue: Unity Pavilion Gardens
Date&time: April 22, 5-8 pm
Contact: 948 848 3348, peter@auroville.org.in
Open House at Deepanam School
We warmly invite you all on 22nd April Friday from 11am to 12.30 for our open house.
You will be able to see work done in the classroom and Art (Clay, Craft, Painting) by the students of the school.
There will be a special presentation by the Light Group children (age 7, 8) from 11 to 11.20.
Looking forward to seeing you in Deepanam!
Thank you
The Deepanam Team and Children.

Annual Cultural program at Udavi School
On Sunday 24/4/2016 at 4:30 pm!
At Udavi School (stage area)
The Udavi students will entertain you with music, dance and dramas.
The play on “water” (in Tamil) will be performed again for the parents.
So come and enjoy!
Udavi School

“The true Stories of Volunteers”
Creating the New Earth, a continuation of Auroculture’s Mandalas
Thursday April 28th - 5.00 pm to 7:30 pm in Pavilion of Tibetan Culture

Auroculture, an old time Aurovilian, started to create earth from Samadhi flowers, more than forty years back. She used to make mandalas with flowers before they turn into earth.
Once, on her birthday, she went up to Mother and presented that earth. Mother did like it.
Avigal, long term Auroville Volunteer, will present the project of New Earth today, show us flowers mandalas and share her experience of working together with Auroculture for the last eight years.
Often volunteers’ input is not considered at its real value; yet, many of them are genuinely connected to Auroville, and their adventure brings progress and creative solutions in many areas. Once a month, Savi would like to share with the community the beauty of their involvement.
Everyone is welcome: Volunteers, Newcomers, Residents and Guests - Tea and snacks will be served - No previous registration.
Contact Savi at: 0413 262 2121 for more info.

An event organized by ArtOmic, In Spanish ONLY
Presentación de la obra del artista-performer Carlos Felices
(A presentation of Carlos Felices’ art work)
representante del arte de acción en España
y residente temporal en Auroville.
in Terra Soul Community (Windarra Farm)
Domingo 1 de Mayo, 18:00 h / Sunday 1st of May at 6pm
Idioma: Español- in Spanish only!
Coloquio acerca de los antecedentes históricos de la performance
e incidencia en el entorno cultural y social.
«El material con el que trabajo es mi propio cuerpo. En mis acciones el juego con el absurdo ocupa una parte sustancial. Intento ser crítico con un sistema político y social estúpido y sin sentido en el que lo absurdo es convertido en lógico y aceptado por la gran mayoría de las personas como algo razonable. La calle suele ser mi campo de juego y confrontación. Pienso que romper el continuo cotidiano de la gente es necesario y regenerador».

Probiotics Open House
Do not miss the Probiotics Open House, in Creativity, every Thursday from 3 to 6 pm.
What is new this time?
Your PET, called: dog, cat, bird, fish, chicken, cow, etc. Now they got also the Probiotics Food Supplement.
Just come and take for them!
And of course you have the full menu of: stunning beauty bath bars, muffins, mignon, Probiotica Drink Food supplement, Probiotics Ceramic for structure water, and more is coming soon.
ALL NATURAL, handmade, homemade and artisan made.
For large orders, please let us know your thoughts with 2-3 weeks in advance.

Your Probiotics Friends,
MG Ecotuties, Guidelma and Margarita

Matt - sax, Holger - double bass
Suresh - percussion, Rolf - acoustic guitar

Nuages
Jazz Concert at the Visitor Center
Wednesday 27th, April, 8:00 pm

News&Notes 23rd April 2016 [646]
**Seed Mantra Musical Meditation Workshop**

Through a specific musical rhythm of the elemental seed mantras, we unfold petals of the ‘karmic black box’, releasing blockages of stored emotions. This is an ancient technique of channelling the cosmic energy flow within oneself, practiced by the Himalayan mystics. Experience the individual embracing the collective through group chanting and dancing sessions.

**Workshop Dates & Time:** April 25th (Monday) to April 28th (Thursday), 5.00 pm to 6.30 pm

**Venue:** Dome, Unity Pavilion Garden

This is a free offering, just kindly register by sending an email to: lavanyara23@gmail.com.

Contact No: 8531914100 (Network has issues, so kindly drop a message if you are unable to reach me)

**About the facilitator of the Workshop:** "On this sojourn towards a collective evolution of consciousness, I am integrating and sharing my experiential wisdom of years of practice, through the yoga of breath, music, dance and silence”. Lavanya Rao is a poet, classical dancer and flautist, yoga facilitator, photographer and film-maker.

**Inner-Work-Workshop**

Introduction to the Integral Yoga of Sri Aurobindo and the Mother

26th April (Tuesday)
- Overview with multimedia presentation
- Questions and Answers
- Practice in Daily Life
- Complimentary Concentration Exercises
- Creative Arts, Interactive Games
- Life of Sri Aurobindo and the Mother
- Introduction to the Reference Books

**Focus this week on:** 'The Supermind'

These Workshops are conducted every Tuesday, each week with a different focus. Study, play and creativity go hand in hand with various inner exercises.

**Place:** Savitri Bhavan

**Time:** 9 am to 12 Noon (pl be present by 8.50 am for preliminary study)

Led by Ashesh Joshi - Contact: 9489147202, 2622922

No Registration required (except for groups)

Fees: Voluntary Contribution

All are welcome

For details on the Integral Yoga and the upcoming workshops: please visit www.integralyoga-auroville.org

**Water Session for Pregnant Couples**

Sunday, 1st May, 9-10:30 am with Appie and Ally at the Quiet Healing Center.

Enjoy a quality time of bonding in water with your partner and baby before your baby’s arrival. Gift yourself and your partner an opportunity to feel nurtured, relaxed while being floated.

For more info, visit http://quiethealingcenter.info/index.php/classes-and-events/131-water-sessions-for-pregnant-couples. Please contact Ally to register, 7639318959, ally@auroville.org.in

**Babyswim and Watsu-class in Quiet**

With Appie.

**Sunday 1st May, 11 am**

For all babies from 2-14 months with at least 1 parent.

Bring a swim-nappy (available in la Piscine), your swimsuit and a big towel and please be on time as I would like for us to start together.

Welcome - appelle@auroville.org.in

**AT SAVITRI BHAVAN**

Monday, 25th of April 2016 at 6:30 pm.

**“MEDITATIONS ON SAVITRI - Book 8 & 9: THE BOOK OF DEATH” and “THE BOOK OF ETERNAL NIGHT”**

Savitri: “At last she spoke; her voice was heard by Night: / "I bow not to thee, O huge mask of Death, / Black lie of night to the cowed soul of man….. / Conscious of immortality I walk….. / First I demand whatever Satyavan, / My husband, waking in the forest’s charm / Out of his long pure childhood’s lonely dreams, / Desired and had not for his beautiful life. / Give, if thou must, or, if thou canst, refuse.”(Savitri ,p.588)

A film by Manohar of Huta’s paintings illustrating passages from “Savitri” read by The Mother and accompanied by her own organ music. (We supply photocopies from the “Savitri” texts read by The Mother, so that the texts could be followed by seeing the film). Duration: 47min.

**CINEMA**

C I N E M A - Bharat Nivas - AUDITORIUM

Reminder: Friday 22 APRIL “NATOKER MOTO” - LIKE A PLAY by Debesh CHATTERJEE, India, 2015

FRIDAY 29 APRIL- 7:30 PM (Film show starting at 7.45 sharp)

“BHUMIKA” - The role

Directed by Shyam BENEGAL, India, 1977

Cast: Smita Patil, Anant Nag, Naseeruddin Shah, Amol Palekar, Amrish Puri...

Synopsis: Another great S. Benegal film, Bhumiaka. It is the story of Usha, a sweet, sensitive child; she lives an inner life of her own brightness only by music and songs. When her alcoholic father dies, Keshav, a family friend steps in as the man of the house. Keshav takes the family to Bombay, where Usha, spotted in an audition rises meteorically in the film world. Keshav will convince Usha to marry him. Suffocating in this marriage, Usha leaves home, heartbroken as leaving her daughter behind. She lives a ‘free’ life but is never really satisfied. Years, later when she returns home to find her daughter grown up and married, does she realize that she has ‘lived’ a number of roles, but not, a life? Based on the autobiography of the doyenne of Marathi theatre and cinema Hansa Wadkar, Benegal contrasts the filmy fantasies with the stark reality of life. Wadkar was a product of the times when words like feminism had not taken root in India. A great role for Smita Patil, a talended and generous actress who died too early...

Original Hindi version with English subtitles - Black & White and Colour - Duration: 2h.22’.

**THE ECO FILM CLUB**

Sadhana Forest, April 29th, Friday

Schedule of Events:
16:00 Free bus from Solar Kitchen to Sadhana Forest for the Tour
16:30 Tour of Sadhana Forest
18:00 Free bus from Solar Kitchen to Sadhana Forest for the Eco Film Club
18:30 Eco Film Club begins with “previews” of short Sadhana Forest films
20:00 Dinner is served
21:30 Free bus from Sadhana Forest back to Solar Kitchen

Before the movie, at exactly 16:30 you are welcome to join us for a full tour of Sadhana Forest and an update of our most recent work! After the film you are welcome to join us for a free 100% vegan organic dinner!!

**OUR RISING OCEANS**

2015, 43 Minutes, English, Produced By Bill Maher

In the opening moments of Our Rising Oceans we learn that global catastrophe lies beneath the awe-inspiring pale blue skies and ghostly white icecaps of West Antarctica. The scientific data regarding the effects of climate change on the ongoing process of glacial melting is overwhelming. Yet according to the many subjects featured in the film, a staggering percentage of the public remains doubtful, and our politicians and other policy influencers remain hesitant to act due to ill-informed scepticism and corporate interests.

The bus service is operated by Sadhana Forest. For more information about the bus service please contact: Sadhana Forest at 2677682 or 2677683 or sadhanaforest@aurivolle.org.in.

**AT SAVITRI BHAVAN**

Monday, 25th of April 2016 at 6:30 pm.

**“MEDITATIONS ON SAVITRI - Book 8 & 9: THE BOOK OF DEATH” and “THE BOOK OF ETERNAL NIGHT”**

Savitri: “At last she spoke; her voice was heard by Night: / “I bow not to thee, O huge mask of Death, / Black lie of night to the cowed soul of man….. / Conscious of immortality I walk….. / First I demand whatever Satyavan, / My husband, waking in the forest’s charm / Out of his long pure childhood’s lonely dreams, / Desired and had not for his beautiful life. / Give, if thou must, or, if thou canst, refuse.”(Savitri ,p.588)

A film by Manohar of Huta’s paintings illustrating passages from “Savitri” read by The Mother and accompanied by her own organ music.

We supply photocopies from the “Savitri” texts read by The Mother, so that the texts could be followed by seeing the film.

Duration: 47min.

**VISITOR CENTER MOVIE SHOW**

Dear Viewers

The Shows at the Visitor Center will resume after a short break, to start again from the 20th of May.

Sorry for the inconvenience, Suresh

**KINGSDAY SCREENING**

“THE VOICE OF THE WATER” (DE STEM VAN HET WATER)

Every year, on April 27th, the Dutch celebrate Koningsdag (Kingsday). A national holiday in the Kingdom of the Netherlands. This day is dedicated to friendship and community. It’s not an outburst of patriotism; it’s not about the popularity of the royal family. It is about a sense of belonging. On this day, everybody is equal in Holland. Celebrating a day of togetherness with bright orange and in good humor.

As a small token of unity with the Dutch, we’ve arranged a documentary screening on this year’s Kingsday with 2 gently humorous documentaries about the Dutch.

Please join us on Wednesday 27th in Cinema Paradiso for an evening of Dutch nostalgia, with two documentaries showing the Netherlands a few decades ago, documented by director Bert Haanstra.

- The Netherlands 1983
- The voice of the water (de stem van het water) 1966

See announcements of MMC paradiso for timings.

Dress code: anything orange (the national color) will be very much appreciated!
Cinema Paradiso
Multimedia Center (MMC) Auditorium
Film program 25 April 2016 to 1 May 2016

Indian - Monday 25 April, 8:00 pm:
• DHEEPAN
Dheepan is a Tamil Tigre. In Sri Lanka, the Civil War is reaching its end, and defeat is near. Dheepan decides to flee, taking with him two strangers - a woman and a little girl - hoping that will make it easier for him to claim asylum in Europe. Arriving in Paris, the ‘family’ moves from one temporary home to another until Dheepan finds work at a run-down housing block in the suburbs. He works to build a new life but the daily violence quickly reopening his war wounds, and Dheepan is forced to reconnect with his instincts to protect the people he hopes will become his true family. You simply CANNOT miss this film!

German - Tuesday 26 April, 8:00 pm:
• EIN GESCHENK DER GÖTTER (A Godsend)
Germany, 2014, Dir. Oliver Haffner w/Katharina M. Schubert, Adam Bousdoukos, Paul Fahnacht, and others. Drama, 102 mins, German w/ English subtitles, Rated: NR
An unemployed actress and 8 long term unemployed men and women come together in a training program intended to help them find a job later on. In view of the psychological condition of most of them, this just looks like an impossible task.

Special - Wednesday 27 April, 8:00 pm:
• THE NETHERLANDS
• DE STEM VAN HET WATER (The voice of the water)
The Netherlands: Netherlands, 1983, Dir Bert Haansra, Documentary, 16mins, No spoken word, Rated: NR (G) - The director was commissioned by the Dutch Ministry of Home Affairs to make this film where he observed the country from the air, creating a mosaic in the 1980s. De stem van het water: Netherlands, 1966, Dir Bert Haansra, Documentary, 92mins, English (narration)-Dutch w/ English subtitles, Rated: NR (G) - The Netherlands and water are inseparable from one another. The Voice of the water portraits the Dutch in their relationship with water. Water in its soothing form, as a place of work and pleasure and as a source of threat and misery. The film observes in a gentle humorous way. These films are being screened in observance of the Dutch national holiday on 27 April - Koningsdag or King’s Day.

French - Thursday 28 April, 8:00 pm:
• LE DERNIER COUP DE MARTEAU (The Last Hammer Blow)
France, 2014, Dir. Alix Delaporte, w/ Romain Paul, Clotilde Hesme, Gregory Gadebois, Drama, 83 mins, French WITH ENGLISH subtitles, Rated: G
Victor a 13yrs old, pushes the doors of the opera of Montpellier. He knows nothing about music nor does he know his father who came to perform as a conductor for Malher's 6th symphony. He observes his father from a distance, discovers the universe of rehearsals…. and decides to meet him for the symphony. He observes his father from a distance, discovers his motley crew.

International - Saturday 30 April, 8:00 pm:
• MUSTANG
France-Germany-Turkey-Qatar, 2015, Writer-Dir. Deniz Gamze Ergüven w/Günes Sensoy, Doga Zeynep Doguslu, Tugba Sunguroglu, and others, Drama, 97mins, Turkish w/ English subtitles, Rated: PG-13
Early summer. In a village in northern Turkey, Lale and her four sisters are walking home from school, playing innocently with some boys. The immorality of their play sets off a scandal that has unexpected consequences. The family home is progressively transformed into a prison; instruction in homemaking replaces school and marriages start being arranged. The five sisters who share a common passion for freedom, find ways of getting around the constraints imposed on them.

Children’s Film - Sunday 1 May, 4:30 pm:
• PANIQUE AU VILLAGE (A Town Called Panic)
Belgium, 2009, Dir. Stephane Aubier, w/ Stephanie Aubier, Jeanne Balibar, Nicolas Buysse and others, Animation, 75mins, Dutch w/English subtitles, Rated: PG
Cowboy and Indians plan to surprise Horse with a homemade birthday gift backfires when they destroy his house instead. Surreal adventures take over as the trio travel to the center of the earth, trek across frozen tundra and discover a parallel underwater universe where pointy-headed (and dishonest!) creatures live. Will Horse and his girlfriend ever be alone in this papier mâché town?

HENRY-GEORGE CLUZOT Film Festival @ Ciné-Club Ciné-Club - Sunday 1 May, 8:00 pm:
• L’ENFER (Hell)
France, 1994, Dir. Claude Chabrol- Henry-Georges Clouzot w/Emmanuelle Beart, Francois Cluzet and others, Crime-Drama,100mins, French w/English subtitles, Rated: PG
Paul, an irritable and stressed-out hotel manager, begins to gradually develop paranoid delusions about his wife’s infidelity. As he succumbs to jealousy, his life starts to crumble. Each step on his downward spiral seems to accelerate, driving him further along the path to a personal hell. Finally, the former shell of his personality cracks completely, with tragic consequences.

Rating codes we often use are from Motion Picture Association of America (MPAA): G=General Audiences, PG=Parenthood guidance suggested, PG-13=Parents strongly cautioned, R=Restricted (equivalent to Indian rating: A i.e. for Adults), NR=Not rated, Rating awaited, or Rating not available.

Kindly do not bring food, drinks, snacks, munchies or your pets into the auditorium.

As a courtesy to the fellow viewers please be sweet and stop chatting after the film starts.

For booking programs at MMC/CP venue: please email us at mmcauditorium@aurovile.org.in.

We appreciate your continued support. Please make a contribution to “Cinema Paradiso” account (#105106) at the Financial Service.

Thanking You,
MMC/CP Group - Account# 105106, mmcauditorium@aurovile.org.in

How to submit material: Material (no pdf files, please) may be sent (in English only) to the N&N Material (no pdf files, please) may be sent (in English only) to the Media Centre, Town Hall. Phone: 2622133, email: newsandnotes@aurovile.org.in
On April 24, 1920, the Mother arrived in Pondicherry to join Sri Aurobindo - she called it “the tangible sign of the sure victory” – and she never left again. For the next 30 years, the “united two” collaborated for the establishment of a new Consciousness for humanity and for the Earth. Then the Mother inaugurated Auroville, the City of Dawn, as a concrete, material act for the further evolution of this new possibility. Establishing this spiritual Force in Matter and anchoring it through land was the next crucial step. As she declared:

“There should be somewhere upon earth a place ...”

The Indian Parliament affirmed the goal of fostering Auroville on behalf of Humanity, and designated the intended land. But today the essential task of acquiring this defined land remains an unfinished and urgent task. Land is needed for all of Auroville’s material body – to protect the Matrimandir, to unify the City’s urban center and complete its infrastructure, and to assure the green areas that give the township water, food, life, and protection.

The ACRES FOR AUROVILLE campaign is dedicated to securing the land needed for completing the City Area and for protecting the consecrated atmosphere of the Matrimandir. The GreenAcres campaign is dedicated to securing the land for the Greenbelt.

Let’s give Auroville the land that the Mother envisioned!

Later will be too late! The time to do it is NOW!

Please specify your donations for either ACRES FOR AUROVILLE (City Area) or GreenAcres (Greenbelt):

via the Auroville Unity Fund (checks/bank transfers) - via www.auroville.com/donations/
or via your country’s Auroville International center www.auroville-international.org

Auroville - 605 101, Tamil Nadu, India

ACRES FOR AUROVILLE – 24 April 2016

The Mother first met Sri Aurobindo in Pondicherry on March 29, 1914. Her diary entry for that week noted “but now all is changed; a new stage has begun.” Circumstances intervened, leading her back to France and then to Japan. At last, the Mother was able to return to India definitively on 24th April 1920. This was the start of their collaboration, the bedrock of their evolutionary work and vision and the foundation for the Auroville to come. On this occasion of 24 April, we are pleased to share this extract from the Mother’s talks with Satprem on the subject of her return (Agenda Vol.2, 20/12/1961):

“Suddenly everything in me became immobile; the whole outer being got immobilized completely, I had a vision of the Supreme... more beautiful than the one in the Gita. A vision of the Supreme. And then this vision literally took me in its arms, it turned towards the West, that is, towards India, and it presented me, and I saw that at the other end there was Sri Aurobindo. It was... I felt it physically. I saw, saw – my eyes were closed but I saw... indescribable. It was as if this Immensity had reduced itself to a Being slightly gigantic; he lifted me like a feather and presented me. Not a word, nothing else, nothing more than that. The very next day, the preparations began to go back to India.”

Then, when the ship was nearing Pondicherry on 24th April, she had another great experience: “I felt the atmosphere of Sri Aurobindo (felt materially) ten miles away from the coast: ten nautical miles, not kilometers! It was suddenly, very concretely, a pure atmosphere, of lightness, lightness, which was uplifting you.”

The Auroville project is a direct outgrowth of Sri Aurobindo and the Mother’s 30 years of collaboration for a new consciousness and spiritualized humanity. As the Mother described, one characteristic of the new consciousness is this “..pure atmosphere, of lightness, lightness, which was uplifting you”. This is the basis for Auroville – a state of consciousness. It follows that when we try to secure the unified physical base of Auroville, we try to secure a material ground for the new consciousness to work in matter and to reveal itself in its own time and way. What is Auroville after all? A place to embody the consciousness of the next future.

Aryadeep

Mandakini
