News & Notes
18th March 2017...............A weekly bulletin for residents of Auroville.............Number 691
“Death is the question Nature puts continually to Life and her reminder to it that it has not yet found itself. If there were no siege of death, the creature would be bound forever in the form of an imperfect living. Pursued by death he awakes to the idea of perfect life and seeks out its means and its possibility.” Sri Aurobindo, Thoughts and Glimpses, Cent. Vol. 16, p. 386

There seems to be matter enough here for us not to need to go any further. This is a question which every person whose consciousness is awakened has asked himself at least once in his life. There is in the depths of the being such a need to perpetuate, to prolong, to develop life, that the moment one has a first contact with death, which, although it may be quite an accidental contact, is yet inevitable, there is a sort of recoil in the being.

In persons who are sensitive, it produces horror; in others, indignation. There is a tendency to ask oneself: “What is this monstrous farce in which one takes part without wanting to, without understanding it? Why are we born, if it is only to die? Why all this effort for development, progress, the flowering of the faculties, if it is to come to a diminution ending in decline and disintegration…?” Some feel a revolt in them; others less strong feel despair and always this question arises: “If there is a conscious Will behind all that, this Will seems to be monstrous.” But here Sri Aurobindo tells us that this was an indispensable means of awakening in the consciousness of matter the need for perfection, the necessity of progress, that without this catastrophe, all beings would have been satisfied with the condition they were in—perhaps…This is not certain. But then, we have to take things as they are and tell ourselves that we must find the way out of it all.

The fact is that everything is in a state of perpetual progressive development, that is, the whole creation, the whole universe is advancing towards a perfection which seems to recede as one goes forward towards it, for what seemed a perfection at a certain moment is no longer perfect after a time. The most subtle states of being in the consciousness follow this progression even as it is going on, and the higher up the scale one goes, the more closely does the rhythm of the advance resemble the rhythm of the universal development, and approach the rhythm of the divine development; but the material world is rigid by nature, transformation is slow, very slow, there, almost imperceptible for the measurement of time as human consciousness perceives it…and so there is a constant disequilibrium between the inner and outer movement, and this lack of balance, this incapacity of the outer forms to follow the movement of the inner progress brings about the necessity of decomposition and the change of forms. But if, into this matter, one could infuse enough consciousness to obtain the same rhythm, if matter could become plastic enough to follow the inner progression, this rupture of balance would not occur, and death would no longer be necessary. So, according to what Sri Aurobindo tells us, Nature has found this rather radical means to awaken in the material consciousness the necessary aspiration and plasticity.

It is obvious that the most dominant characteristic of matter is inertia, and that, if there were not this violence, perhaps the individual consciousness would be so inert that rather than change it would accept to live in a perpetual imperfection. That is possible. Anyway, this is how things are made, and for us who know a little more, there is only one thing that remains to be done it is to change all this, as far as we have the means, by calling the Force, the Consciousness, the new Power which is capable of infusing into material substance the vibration which can transform it, make it plastic, supple, progressive. Obviously the greatest obstacle is the attachment to things as they are; but even Nature as a whole finds that those who have the deeper knowledge want to go too fast: she likes her meanderings, she likes her successive attempts, her failures, her fresh beginnings, her new inventions; she likes the fantasy of the path, the unexpectedness of the experience; one could almost say that for her the longer it takes, the more enjoyable it is. But even of the best games one tires. There comes a time when one needs to change them and one could dream of a game in which it would no longer be necessary to destroy in order to progress, where the zeal for progress would be enough to find new means, new expressions, where the élan would be ardent enough to overcome inertia, lassitude, lack of understanding, fatigue, indifference.

Why does this body, as soon as some progress has been made, feel the need to sit down? It is tired. It says, “Oh! you must wait. I must be given time to rest.” This is what leads it to death. If it felt within itself that ardour to do always better, become more transparent, more beautiful, more luminous, eternally young, one could escape from this macabre joke of Nature. For her this is necessary. So, according to what Sri Aurobindo tells us, Nature has found this rather radical means to awaken in the material consciousness the necessary aspiration and plasticity.

This is the problem which confronts us now. With the addition, the new help of this Force which has descended, which is manifesting, working, why shouldn’t one take in hand this tremendous game and make it more beautiful, more harmonious, more true? It only needs brains powerful enough to receive this Force and formulate the possible course of action. There must be conscious beings powerful enough to convince Nature that there are other methods than hers. This looks like madness, but all new things have always seemed like madness before they became realities. The hour has come for this madness to be realised. And since we are all here for reasons that are perhaps unknown to most of you, but are still very conscious reasons, we may set ourselves to fulfil that madness—at least it will be worthwhile living it.

QUESTIONS AND ANSWERS, 6 February 1957 MOTHER

Native-American Wisdom

A Native-American boy was talking with his grandfather. “What do you think about the world situation?” he asked. The grandfather replied: “I feel like two wolves are fighting in my heart. One is full of anger and hatred. The other is full of love, forgiveness and peace.”

“Which one will win?” asked the boy.

To which the grandfather replied, “The one I feed.”

Funds and Assets Management Committee (FAMC) monthly report for February 2017

In December 2016, during a participatory exercise at a workshop, we learned that there are generally four stages in team formation, “forming, storming, norming and performing”. We perceived at that time that we were somewhere between the forming and storming stage. A few months down the road, we still find ourselves to be working through the storming stage and yet to move fully into the next phase of norming. Nevertheless, the work continues full speed. Read on:

FAMC revised public hours: Members will be available to meet with you during the following hours in our office on 2nd floor, Town Hall, next to L’avenir library. Phone: 0413-262-3649.
- Mondays from 2 - 4 pm
- Wednesdays from 9:30 - 11:30 am
- Fridays 9:30 - 11:30 am
NB: the secretary is there from 9.30 am to 12.30 pm on all days except Mondays and Thursdays—the days when we have our bi-weekly meetings.

COMPLETED TOPICS

- Auroville Child Development Research Centre executive changes: FAMC and WCom approved the following new executive appointments: Mr. Eric Avril; Ms. E. Padmanaban Pramithi (aka Pushpa); Ms. Mary Tardell (aka Marie Babu) and accepted the resignation of Mr. Andre Tardell.
- Auroville Health Services, under Auroville Village Action Trust, executive changes: FAMC and WCom approved the following new executive appointments: Ms. Paula Fischer and Ms. Mechtild Schubert; and accepted the resignation of Mr. Manfred Lehnernt and Ms. Franca Crocetti.
- Auro Small Scale Activities (ASSA), under Team Trust, executive changes: FAMC and WCom approved the executive appointment of Mr. Guy D. and the executive resignation of Ms. Sourya S., as recommended by ABC.
- Papyrus, under Artisana Trust, executive appointments: FAMC approved the addition of two new executives Mr. Nicolas T. and Ms. Selvi T., as recommended by the ABC support group. Bruno is the continuing executive.
- Athena, under Kattida Kalai Trust, new unit: FAMC approved that the activity Athena be reorganized as a new unit under Kattida Kalai Trust with Ms. Ane U. and Ms. Diana Z. as executives, as recommended by the ABC support group. The unit is to engage itself in the following activities: “Interior décor consultancy and manufacturing tailoring”
- Pitchandikulam Forest Project, under Auromitra Trust: Some positions in the project’s last balance sheet needed clarifying. The matter was solved in a timely manner in accordance with government regulations. The government of India, sent a list of requests to the Auroville Foundation regarding income tax issues. FAMC followed up on this policy.
- Village Cultural Heritage Centre (Auroville unit, Mohanam-Svaram, and Department of Tourism, Government of Pondicherry): very recently a joint collaboration between the FAMC and WCom was initiated to work out final details and resolve logistical questions with the project holders, ITDC, FAMC, and ABC. It has been agreed this will be pursued as a priority and all parties will cooperate in a timely manner.

ONGOING TOPICS

- Village Heritage Centre Construction (THC): We have submitted a final report of our findings to the Auroville Foundation. The report includes recommendations that will be followed up with the Auroville Foundation.
- Village Cultural Heritage Centre (Auroville unit, Mohanam-Svaram): This fund was started during the time of the former FAMC. The new FAMC members were concerned that this option would create an unwanted precedent and much-needed funds would be diverted from City Services. It was agreed that participation in this fund should be only open to individual Aurovilians. Auroville units can contribute under certain conditions that ensure that their City Services unspecified contributions do not decrease. The operation of the fund will be reviewed after one year.

POLICIES AND GUIDELINES

- Web-based GIS systems: Some FAMC members went to a presentation to review the work done by CSR and Blue Light to explore possibilities for collaborating on improved data services and asset management.
- Optimal and/or transparent use of funds and assets: We are looking into concerns raised about the units: Auroville Water Service, Farm Fresh, Swagatham Guest House, Discovery, Imagination, Inside India, and The Colours of Nature to ensure optimal and/or transparent use of funds and assets. Where appropriate, we are collaborating with the ABC.
- Housing reimbursement policy: We are currently reviewing this policy.
- Quality & safety standards for Auroville taxi services: Given the recent initiative by Earth & Us to create a Shared Taxi Service, we have approached Min for help in creating standards for all Auroville taxi services.
- Code of Conduct for Trusts and Units: FAMC and WCom, at the request of, and in collaboration with, Auroville Foundation, are revising the operational policies and regulations for units and trusts.
- Village Cultural Heritage Centre: The FAMC had no objection to the recommendation by ITDC to allocate a plot of land in the Industrial Zone for Auroville Consulting.
- Housing Reimbursement Policy: We are currently reviewing this policy.
- Code of Conduct for Trusts and Units:
- Quality & Safety Standards for Auroville Taxi Services:
- Housing Reimbursement Policy:
- Auroville Consulting Site Application:

Miscellaneous

- Two income tax issues: The Income Tax department, Government of India, sent a list of requests to the Auroville Foundation regarding income tax issues. FAMC followed up on each of these issues immediately with the units and Trusts. Many units have not complied to submit the request in spite of reminders. This lack of a timely response from the Income Tax department is undeserving of fiduciary responsibilities of an executive. It may also place our tax exempt status into serious jeopardy.

“Accessible Auroville” Meeting with Puducherry Governor Kiran Bedi

On 10th March 2017 at 5 pm I met the Puducherry Governor Kiran Bedi. It was a friendly and warmly meeting. We both agreed with converting Pondicherry to be more Accessible to All.

We talked about some cooperation between “Accessible Auroville” and the Puducherry Government to reach this aim. I talked to her about the “Accessible Auroville Public Bus” - She was very curious and asked if it was possible to see it. The bus was already parked nearby; the driver was looking forward to receiving my call to drive inside the Governor’s palace (but first we had to wait for the last visitor to leave the palace). While I was waiting some policemen and attendants questioned me about accessibility, helping aging people etc. how to raise awareness as they want to do something about it. It was very encouraging to see them so interested in this topic!

Finally the “Accessible Auroville Public Bus” was allowed to enter into the garden of the Governor’s Palace!

### FOR YOUR INFORMATION

#### Eco-service

**Dear All**

We, the Eco-Service, would like to inform the community that we have collected 98 tons of waste from Jan 2016 to March 2017. 25% of this waste goes to landfill to be burnt, which include about 12% of organic waste such as brooms, baskets, mats, cloth and other compostable items. The other 15% are shoes, bags and unwashed plastic bags. Our aim is to reduce the landfill and to do so we really need your help and request everyone to **please wash** their cheese, dosa and food plastic bags, so they CAN be recycled, not attract pests, and not sent to the landfill for burning. **Please dispose** of organic waste in your community itself by composting organic waste, so it doesn’t end up in the landfill unnecessarily.

We have 300 collection points in Auroville and about 10 from non Aurovilians who want to deal with their waste as carefully as possible.

We are all responsible for the waste produced so let us do a collective effort and try to do better in 2017.

We have clean and perfectly re-usable packing materials such as bubble paper and white and black foam so if anyone needs to do some packing come visit us instead of adding more plastic into this endless machine, Thanking you,

*Kali and Palani K.*

### On Wells

Do you know where your water comes from? It seems like a simple question, but perhaps it’s not that easy to answer. Those of you in the Residential Zone might think that you know - but do you know how many wells there are in the R2? From which one does your water come? Wells are a big topic in the work we do. We’re currently starting from the ground level and simply trying to determine the number of wells that exist in Auroville. In 2006, 253 wells were recorded, however, since then data collection hasn’t been consistent, and applications for new borewells only started last year. We are trying our best to collect information on all wells (in use or not) within each community. So why is it important to know how many wells exist here? Let’s talk about that next week.

In the meantime, can you help us? We want to hear from you. Send us an email and let us know the following:

- Your Name:
- Your Community:
- Where does your water come from?
- How many wells do you have in your community?

We’re going to compare what you send us with the data we have. Then it’s all going to be published for you on our upcoming website - so that you can see it too. This World Water Day, March 22nd, learn where your water comes from, and then be a part of the process and give us a hand.

Call for Things!

The Auroville Library of Things is almost set to begin! Now we need to reach into our homes, closets and shelves for “things” that are not being used to their full capacity. Let’s dig them out and share with others! For phase 1, we are looking for (a) home tools, (b) toys, (c) games, (d) kitchenware/utensils, and (e) camping gear. If you believe that you have some under-used things in your possession, it’s probably time to declutter and set them free!

Location: Outside PTDC (benches at the garden)
Time: 11:45 am and 1 pm
Dates: Fri, March 17 to Fri, March 31 (every day except Sundays)

Please contact one of the numbers below to find us.

*Note: Currently, we are only accepting items as “giveaway” Not sure what you can share? Have other things to give? Send us a picture and details of the item at alot@auroville.org.in

Information from the Residents Service

Please keep in mind the following points:

- The Residents Service is only helping the Residents of Auroville, who are holding an Entry or (X) Visa, to make the papers needed for the registration and extension at the RRO (Regional Registration Office in Pondicherry)
- But every person is still responsible for their own Visa-related Requirements! If you are coming at the last moment or past the expiry date, we cannot be pushed, or prioritize you online.
- If you furnish all the relevant information to the Residents Service, we can help you to keep track when your Residential Permit is running out, but for that you have to give us a copy of your valid Residential permit or Stay Visa.
- Under all circumstances you are responsible for your own Visa requirements. You must keep in mind the end of validity of your Passport, Visa and Residential Permit.
- All new passports and new Entry Visas (X) have to be registered at the RRO within 14 days of issues or arrival in India, failing that a penalty of Rs. 1800/- will have to be paid. Avoid the fine by coming to the Residents Service on time.
- All PIO and OCI card holders have to inform the Residents Service your IN’s and OUT’s abroad and your update in Auroville.

Please, don’t forget to inform us when you are leaving and arriving from abroad. Also inform us when you change your residing place, working place, phone number and email id, in order to contact you easily.

1. Regarding to passport renewal, advisable to start 6 Months before the expiry date, if your visa renewal dates are also close. The passport can take up to 3-4 Months, and only after this can we start your visa extension process.
2. If somebody has a 5 year visa application coming up, but the passport validity is shorter, please also think about applying for a new passport, or maybe you won’t be able to get a 5 years visa.

For any information needed please contact us at the Residents Service, (0413) 2622191, E - mail: resservice@auroville.org.in

open Monday to Friday morning from 9:30 am to 12.30 pm and Tuesday, Wednesday and Thursday afternoon from 2:30 to 4:30

Nature Camp First Group Gathering: All those who applied for the First Group Nature Camp kindly come to an information meeting on Sun. the 19th March at 10 am at Certitude.

Question of general interest: Dear All, late last year I read in the News that all foreign Aurovilians have now to declare their income and inform Revenue Department of their foreign bank account details. I enquired among friends who seem in December 1989.

Stealing of Petrol: Dear Friends, this Sunday, at about 5:15, Marie-Ange stepped out onto our terrace and immediately found that was only a small amount of petrol left in the tank. We went to our bikes and there was a wave at Marie-Ange. We went to our bikes and there was a strong smell of petrol because the ground under my bike was saturated with it. I opened the fuel cover and checked and found that was only a small amount of petrol left in the tank. That means that there is the necessity to be careful on Sundays and at night. I imagine that during the week at daytime, when there are many people moving in and around the parking place, petrol thievery would be virtually impossible. But on Sunday and at night, Communities are quiet with very little human traffic. Therefore, your parking place gate must be kept locked all day Sunday and at night. The stealing of petrol is a matter of fact. Don’t

Accommodations available and needed

House-sitting 1: Dear friend, my name is Monique, from Dana, (Aurovillian working at the Visitor Center cafeteria). I'm looking for approximately 2 months of house-sitting, from the end of March till the end of May. I urgently need a place to stay till my house is finished. If possible not too far from the center, as I work at dinner time. I'll take care of your place with all my best will.
9487913904 or matthieu@auroville.org.in - Thanks, Monique

House-sitting 2: Dear Fellow Aurovilians, I am looking for a house sitting opportunity to stay at with my wife and 3 children for one year, preferably from May onwards. I am waiting for the confirmation of a place in a housing project which is expected to be completed in one year. Kindly let me know if there are any available houses. Thanks in advance, Mohan: mohan@auroville.org.in, Mob - 9585 550709.

House-sitting 3: From July 2017 long term (6 months to 1 year) - We are a young family of 3, starting our newcomers process in July 2017 and looking for some accommodation. I'm a 42 years old Bosnian, I'm a filmmakers, educator and dancer. During our stay in Auroville I will be working with kids & women as a meditation dance and art expressions facilitator, my partner Pedro (Portuguese) is a yoga instructor, primary school teacher and Ayurvedic therapist and would be working with kids in school. Our little son is Atesh Noa, he is 3 years old and he will be going to kindergarten from July. We are responsible, very tidy people with a great sense of humour, and would be very happy to take good care of your home. Would be great to be part of a community that is interested in dance and creativity as well ecology and nature. We can offer evenings of great films. We're in Auroville till 29.03.2017 and we would be very happy to meet you and see your house. Please contact us on: itaskovski@gmail.com & +91 8489818523 - Irena

House-sitting 4: Hey dear all, I'm Desiree, a 31 year old Romanian-Jordanian and a travel writer living in Auroville (Certitude) since September. As it seems my sadhana wants me here for a longer period of time, I decided to stay onwards. I came as a guest and stayed as a student. It would be great to share positive vibes with an inspiring place from beginning of April to mid-July. Yes, of course I love cats & dogs, beautiful plants (I'm always trying to bring seeds and roots from all over the world and plant it back home) and have a recent passion for de-cluttering and minimalist life style. If you feel like you want to meet me and share your home - send me a buzz over here: halaseh_desiree@yahoo.com
House sitting 5: Hi, my name is Valentin; I’m a 33 years old French man, volunteering for the 2nd time in Auroville. I am working as sales and marketing manager at Light-Fish until the end of June, at which time I will start my newcomer process. I am flexible for the house-sitting period and ready to start right now. I’m very responsible, and love taking care of animals. Please contact me: soltys.valentin@gmail.com. Thank you.

Available for house-sitting: One house with garden in Auromodele, for a single person who loves gardening. For a period of 4 to 6 months. Contact Krishna: 78679 66069 between 6 to 8 pm.

Sunday 19 March, AFTERNOON 4 pm: Evergreen, with Natasha

Evergreen is an agroforestry community, using natural resources for its energy and buildings. You will visit the TDEF forest (tropical dry evergreen forest) and a permaculture vegetable garden.

Directions: From Solar Kitchen about 10-15 minute by cycle. Take a right out of the SK gate, past Certitude, turn left on the tar road and then take a right towards Abri. Before you get there, turn onto a smaller path on your right again and you’ll see the Evergreen sign. Enter the gate and follow the road to Evergreen.

Next week: Sunday 26 March: Pichandikulam, with Joss. (This is a morning walk, timing and details in next News & Notes.)
Some environmental news from Tamil Nadu

(Drought, Air Pollution, Oil spill, Wildlife, Ery Restoration and more...)

After eight hot months followed by a failed monsoon (last year’s rain fall was 40% below average), we enjoyed two months of relative cool, but now summer has returned and promises to be long, hot and dry. In fact, our area has been officially declared drought-hit. - Tamil Nadu since January, Pondicherry & Karaikal since February. In the latter, of the 37000 acres (150 km$^2$) under cultivation, 73% are affected by drought; in Tamil Nadu, at least one third of its vast cultivated land is drought-stricken.

The yields of sugarcane, paddy and bananas - all dependent on irrigation - have come down by 50 to 70 %. Many deep bore wells have dried up due to decreasing groundwater levels. Milk producers cannot find enough of paddy straw for their cattle, and many cows are suffering from drought stress. The Tamil Nadu Government is setting up 300 depots to distribute dry fodder and a mineral mixture for cattle. Through veterinary dispensaries, these will provide 3 kg of dry fodder per day for each cow. Our Villupuram district will have the maximum number of such depots in the state.

32 lakh, or 3.2 million, farmers who have suffered crop losses have been promised various relief measures, such as direct compensation per acre of land, and employment under the Rural Employment Guarantee Scheme (the familiar MGNREGA or 100-days-of-paid-work scheme).

Village erys: masterfully engineered systems of cascading ponds and tanks retaining the monsoon rains, had traditionally provided water in the summer. Tamil Nadu used to have around 40’000 such water bodies! However over the last century or two, most of these have been silted and their capacity vastly reduced. Various government schemes aim at rehabilitating these systems. An example is the centrally-sponsored ‘Integrated Surface Water Management’ scheme, helping to restore 30 tanks and 32 village ponds in the Puducherry Union Territory, thus reducing the communities’ reliance on dwindling ground water resources.

The central government’s Ministry of Environment has increased its budget by 19%, an allocation widely considered to be insufficient. The issues identified are not only financial (in fact, many funds are under-utilized). Areas such as Forest Management, Resource Conservation, Pollution control and Wildlife Protection are reported to suffer from a lack of coherence and interconnectedness. A major overhaul is being called for to put the Environmental policies and practices on a track of sustainability.

Wildlife under distress: In the famous Mudumalai Tiger reserve on the eastern slopes of the Nilgiris (where many of Tamil Nadu’s temple elephants go for their yearly month-long rejuvenation holiday), the drought is taking its toll, as several elephants have died due to lack of ground fodder.

At the end of January, a major oil spill occurred near Chennai, when two tankers - one carrying LPG, the other crude oil and lubricants - collided near the coast. Lack of preparedness, and an outdated recovery vessel and equipment are held responsible for the seriousness of the damage to the marine environment. The Coastal Guard and many volunteer students have cleaned up what they could of the thick toxic slick; assessments are being done on the hazardous chemicals released, with experts warning that the coast will be affected by oil traces for a long time to come.

In terms of air pollution, India now rivals China; and although it’s Delhi’s red alerts that make the headlines, Chennai isn't doing much better. The Hindu carries next to its weather report a daily Air Quality Index with % of Sulphur Dioxide, Nitrogen Dioxide, Carbon Monoxide and PM2.5 and PM10 particulates (for more on this topic, please see the Green Column of 29 October last year).

Hydrocarbon extraction: In Karaikal, the Territorial Administration opposes the Central Government’s move to have hydrocarbon - crude oil and gas - exploration. There has been no public hearing, and this being an agricultural area, the farmers fear contamination of water and displacement. A similar project, also intensely protested, is Neduvasal in Tamil Nadu. In recent times, 31 mining leases, covering a total of 3500 km$^2$, have been granted in the state, from where 600 tons of oil and 3 million m$^3$ of natural gas are being extracted every day. The hope remains that the internationally adopted Sustainable Development Goals, the Paris agreement, and the common sense and courage of people on the ground, may shift such policies onto a more sustainable path before more irreversible damage is done to our fragile environment.

On Auroville’s 50th Anniversary

Hello everyone!
The celebrations for Auroville’s 50th Anniversary are not exactly what I agree with and the sums of money involved make me very uncomfortable.

Please understand that I feel Auroville’s 50th birthday is an occasion for us to go on a yatra together, to make a pilgrimage to the Heart of Auroville. Here are some ideas in that direction.

* Acknowledging the contributions of our old Aurovilians. And also checking out to see if they have everything they need as they get older; many of them gave all they had to Auroville with no thought for their future, only Auroville’s.
* Checking in with all Aurovilians to see if they are feeling safe and doing something about it if they are not.
* Acknowledging the generosity of India for giving a home to this project.
* Talking together about what Mother’s intention was for Auroville.
* Talking together to better understant what karma yoga is and how to go about doing it.
* Renewing our personal commitments to Auroville and to our sadhana. Also doing so collectively.
* Doing spiritual practices together such as japa walks, meditation courses, inviting speakers for example on the Matrimandir (What is so esoterically special about it? What exactly does it allow us to do?), chanting Mother’s mantra, collective silent parties and meditations, dancing saptas....

Thanks for reading my thoughts,
Laura White
Sambhavami Yuge Yuge - an outstanding multisided dance performance

On 23rd February evening Sri Aurobindo Auditorium at Bharat Nivas hosted one of those outstanding cultural performances integrating music, song, visuals and dance. This is a review and reflections of what I felt while seeing the performance.

There is a little book in which the pictures of Mother’s hands in various postures - mudras in Sanskrit - were shown to her. The disciple asked the Mother to explain the meaning of those mudras. She at first declined saying that people don’t take trouble to find out the meaning themselves and want everything to be explained, readymade. The disciple went home and tried to find out herself what could be the significance of those mudras. During her next meeting with the Mother, she disclosed what she found. The Mother was pleased by her effort and went on to reveal the true meaning or significance of those hand mudras.

Many or most of the Indian dances, I tend to believe, are, physical rendering - dynamic mudras - of hidden psychological or spiritual significances, aspirations or invocations. Sambhavami Yuge Yuge falls perhaps in the same genre. Movements and still postures of the dancers stood for and revealed the meanings of what was being relayed. And what was being relayed in subterranean melodious voice was a ‘philosophy of life’ from one of the greatest scriptures of India - Bhagavat Gita - in original language Sanskrit and their English rendering. The major episodes were also connected with impressive background visuals and short clips. One of these short clips showed myriads of Galaxies whirling, then emerges the earth, then the visual of a human eye suggesting that it symbolizes in a nutshell the universe and then emerges a popular image of Krishna suggesting that it embodies the universe.

According to Sri Aurobindo’s mighty vision and philosophy of world evolution - a vision which is born of his personal inner experiences – there are subtler forces and subtler personalities which help the evolution as there are also forces and personalities which hamper it. Krishna, in his view, is one of the foremost personalities, one of the dynamic realities of the subtler world and Sri Aurobindo has acknowledged consistently the help he received from him and said many interesting and impressive things about him. I quote here just one of those elucidations:

“Krishna is not the supramental light. The descent of Krishna would mean the descent of the overmind Godhead preparing, though not itself actually bringing, the descent of supermind and Ananda. Krishna is the Anandamaya, he supports the evolution through the overmind leading it towards his Ananda.” (CWSA vol 35 pg 273)

I would certainly sympathize with a rational reader if s/he says that s/he did not know what to make of these words. However, like Sri Aurobindo, there are plenty of people who acknowledge the experience of Krishna and/or the help they received from him. Many who feel spontaneous faith and devotion for him as one of the great gods. I also know people whose gods keep changing. “I was very interested in Krishna once upon a time but now I feel more inclined to Shiva” - I have heard or read statements like these from more than one person, irrespective of their nationality.

Coming back to the performance, seeing the dancers on the stage, what became clear is the hard practice, the many rehearsals they must have carried out before presenting such a fine show to the audience. Secondly, the dancers and artists must have come from more than one place - Auroville, Sri Aurobindo Ashram, Rudcherry and Chennai.

When a film on Buddha was being shown at the Ashram Playground, the Mother remarked that the Buddha was present throughout but in the end when it was shown that the Buddha was reincarnated as Gandhi, he withdrew. Could Krishna be present in the invisible world while Sambhavami Yuge Yuge was being performed? Very likely.

Compliments to Devasmita and her troupes for conceiving, organizing, and presenting their art, their labour of love and joy.

How far can illusion keep us going?

Hello,

How far illusion can keep us going?

Auroville should follow one line, based on Sri Aurobindo and the Mother. Because it needs nothing else than to be conscious of the Consciousness Force, working for the change. Actually we look so much dispersed. When it is said only to connect ourselves to the Conscious Force, it means that all other approaches become superfluous, and this will give the freedom to be concerned only with the ideal which Auroville wants to manifest.

All works at this stage of development should be concentrated on Unity life, towards the growth of Auroville. Only Faith can make us, understand that everything could be handled by the Consciousness Force, as regards health, funds, education etc. But it should be more collectively conscious.

It is urgent to start looking to what could be the true atmosphere for all of us to get all the support for what we do, but towards a true unity of Consciousness. It is easy if we consider the Universe is One.

With love, André (New Creation)

StartUpcycling - Marc, Ok and Ribhu in Berlin

We (Ok, Ribhu and Marc) just came back from freezing Berlin where we participated in the first meeting of a two-year international project on waste called StartUpcycling. It’s a project focused on upcycling - the process of converting waste into something useful and more valuable. The first meeting was a series of workshops for 9 days. We were 21 participants from 7 different countries (Germany, Italy, Greece, Poland, South Africa, Brazil, India).

It’s sad to learn that waste is poorly managed all over the planet. And it was extremely positive and heartwarming to see how passionate people are fighting this global problem around the world. The experience of such a collaborative and professional exchange was exciting and we are thrilled to share this with all of you in Auroville!

We invite all youth (from inside Auroville and outside) to join us on this adventure of creativity to tackle one of humanities most dirty problems. Contact us and be part of something new, collaborative and good. We’ll experience, learn, share and earn together.

What came out of this first meeting in Berlin?

1- Our goal is zero waste and the only way to achieve this is to reduce our consumption. This goes against the idea of continuous economic growth.

2- Education is the key to understanding where and how we live. It’s also the way to open the eyes of the future generation.

3- Upcycling is a drop in the ocean of waste. It’s an opportunity to shift into a new paradigm and a higher consciousness. Waste is matter and the more we understand this, the more we’ll value this resource.

Join us. Be part of something new. Help Auroville, India and the world find solutions to trash and pollution.

You are all welcome to join us during the:

LFA (Litter Free Auroville) 2017 campaign from 17th March to 9th April at Kalakendra.

To participate in LFA 2017, email marc.barandard@gmail.com with the subject line “LFA”, or call him on 9442006807.

Let us meet where we are in touch with our inspiration and feel the resonance, the heartbeat of unity in diversity in action!

**CAT 13: A Journey through Volunteerland**

Facilitated by the Savi team

“Volunteers” is another name for «men of good will aspiring for a higher and truer life».

Can we welcome them as we have been welcomed?

**Tuesday March 21st, 4 pm to 6:30 pm**

Unity Pavilion

Auroville needs people from the world, and people from the world need Auroville.

How much have we succeeded to welcome them so far?

What are the bottlenecks? And how can we progress?

CAT is a space to unleash our creative energies.

CAT aspires to be a springboard towards the future.

CAT is a space where we respond with discernment, respect and a spirit of collaboration.

See you there! Love, Inge, Mita and Sandyra for the CATs team.

Restorative Circles Learning Community

"Building a Compassionate Justice System"

With L'aura Joy
March 18 & 19 (Saturday-Sunday)
9.30 am - 5 pm, with a lunch break

Restorative Circles (RC) offer ways for individuals and communities to establish connection, discover meaning and recover power on profound levels. They create forums for reaching agreements that help sustain effective and nurturing relationships both personally and collectively.

This Circle process has developed within the Restorative Justice (RJ) movement, which in recent decades has rediscovered and adapted ways for communities to promote responsibility and healing. Rethinking justice, and engaging with the challenge of consciously building whole system responses to community well-being, has opened up revolutionary possibilities for furthering a culture of peace.

More info about Restorative Circles: www.restorativedircles.org

Conflict is an inevitable part of the diversity of life. Yet few of us individually, let alone as a community, know how to respond to conflict with behaviors that do not produce pain and damage relationships.

The RC process offers a way to create community spaces for conflict that are safe and constructive, not destructive. It has been described as a straightforward problem-solving and nonviolent restoration method that demonstrates how community members can resolve their own conflicts when provided with a constructive forum to do so.

The establishment of a restorative system empowers communities to consciously choose how they would like to respond to conflict before it occurs - a form of proactive, preventative conflict transformation. It enables them to choose a nonviolent response to conflict that involves the whole community in discovering their own sustainable strategies by addressing immediate as well as underlying long term causes.

Connection as Life Energy
Introduction to Nonviolent Communication
With Laura Joy, NVC Certified Trainer

Do you long for more joy, authenticity and depth when connecting with yourself and others?
Do you wonder what gets in the way of connecting and relating the way you truly want?

April 1-2 (Sat-Sun) - 9.30 am-5 pm (with lunch break)
A path of Nonviolence (based on Nonviolent Communication, NVC) offers both a deeply-rooted consciousness of oneness, as well as very practical tools to live this more and more in our daily lives. In re-evaluating some of our habitual and conditioned thinking, we see how much of it is life-alienating and based on a culture of scarcity and separation. We'll learn the skills to be able express ourselves with more clarity and to hear others' true (and harmless) message, which in turn leads to more connection between us. When we're connected as human beings, we're in our natural state of wanting to give and collaborate with others.

More info & register (and for venue info): contact L’aura: joylivelylearning@gmail.com
Limited seats. Registration required. Full participation required (2 full days). [Other upcoming NVC events: joylivelylearning.org]

Quiet

Assistant Training Course (ATC) Watsu & OBA with Gianni
Wednesday 29 - Friday 31 March 2017 (3 days)
8.45 AM - 6.30 PM (30 hours)
Quiet Healing Center (tel. 2622329 / 9488084966)
Watsu India organises an adult-learning course geared towards aquatic bodywork practitioners, who would like to become assistant teachers in Watsu & OBA (Oceanic Bodywork Aqua). This course is offered by an experienced teacher, who over more than a decade of practising and teaching Watsu and OBA has gained a deep knowledge of teaching these aquatic bodywork techniques. While remaining respectful to the spirit of learning Watsu by Harold Dull and of OBA by Kaya & Nirvano, he has developed his own vision and methodology.
In this Assistant Training Course you will learn basic principles of teaching, such as the theoretical and practical teaching methodology for adult-learning, and apply them to aquatic bodywork modalities like Watsu & OBA.
Prerequisites: Practitioner of Watsu, OBA or other WABA recognised aquatic bodywork modalities.

NEWS FROM AUROVILLE LANGUAGE LAB

Thank you to everyone who came for our “opening” on the 28.02.17. It was lovely to see so many people.
We’re very happy to welcome old as well as new teachers and to announce several new classes:

BUVANA will offer Beginners Tamil, starting in April. In the beginning, the class will be once a week, on Wednesdays from 3:30-4:45pm.
CHANDRIMA will offer her time and presence twice a week, on Wed and Fri afternoons from 1-4pm for Hindi, Sanskrit and even Bengali, for both private and group classes. The classes she was previously offering at the old Lab will shift to our new building.
SITARA will offer German for Beginners, teaching in a creative way. This 60-hour class, over 2.5 months, will cover the syllabus of the Goethe Institute A1 Certification course for Beginners. Classes will be 3 days a week: Mondays, Tuesdays, Thursdays, 4.30-6 pm, and extra hours will be arranged if necessary, to cover the syllabus. Those who want to take the A1 certification exam in Chennai could subsequently do so. Others can simply take advantage of a structured class to get the basics right and really make progress… The class is also a Refresher course for those who have picked up a bit of German along the way. The set of books textbook and workbook will need to be bought separately. The course will start on Monday 19.03.17 and go till 30.05.2017.
MITA will teach a class in Intermediate English Grammar. This is for people who already speak some English, but feel they are making mistakes and would like to improve their English. The class will cover several grammatical concepts, along with reading-out loud and conversations on different topics. The aim is to make grammar fun and help you speak English correctly. This is for all nationalities. A variation of this class could be “l’anglais pour les Français”. If there is enough interest from the French, we can make a specific class, given how particularly blocked several French people feel with English. Pour les français qui ont le sentiment de faire toujours des “bêtises” en anglais... Let’s start all
Children, teenagers and adults. These include: learning disorders such as dyslexia, hyperactivity and behavioural problems in children, attention-deficit, language delays, stuttering, autism and developmental delays, depression and lack of confidence, anxiety, problems in expression and voice control, communication problems. It can address vertigo and certain kinds of hearing loss. It helps to improve attention, concentration and memory. It isn’t only for “problems” and “issues” though: It helps to identify hidden potential and to unleash creativity, and has benefits for everybody. Please have a look at our website http://www.aurovillelanguagelab.org/tomatis-method.php for more info and links.

Students of all the regular group classes at the Lab will soon benefit from a weekly Tomatis listening training session. We will be hosting OPEN HOUSES every Saturday, starting 18th March. People can come and visit the Lab and discover the new building. You can also try out the facilities available on our mediatheque as well as have free Tomatis listening sessions for 1-2 hours. We will also have regular on-the-hour showings of the film on the Tomatis method, in either the original French or with English sub-titles. We especially invite teachers of Auroville and outreach schools to these open houses.

We are also looking for Telugu speakers - one female and one male - to make audio recordings to be used in Tomatis programs for two children. If you are a fluent Telugu speaker, please contact us! If you are a native Tamil speaker and would like to volunteer for the Tomatis Tamil language research, please contact us. We invite all Tamil Aurovilians to participate in this research. Contact info : all@auroville.org.in

We are passing on our old UPS systems: (i) a 2.5KVA Online UPS with four 100Ah batteries (ii) a 2.5KVA Online UPS with four 80Ah batteries and (iii) a 800watts home UPS - pure sine wave offline UPS with a 150Ah battery, all of which are in good condition. We hope for a contribution covering half the original cost. The batteries can go separately too. We can’t re-use these in the new building, which has a different setup, and need to buy new batteries with a different rating. Please contact Raj on 9585207962 or Mano 7418397544.

80mins / English / 2011 / David Dworsky and Victor Köhler

The digital revolution of the last decade has unleashed creativity and talent of people in an unprecedented way, unleashing unlimited creative opportunities. But does democratized culture mean better art, film, music and literature or is true talent instead flooded and drowned in the vast digital ocean of mass culture? Is it cultural democracy or mediocrity? This is the question addressed by PressPausePlay, a documentary film containing interviews with some of the world’s most influential creators of the digital era.

**C I N E M A - Bharat Nivas - AUDITORIUM**

(Film starts at 7:45 pm SHARP!)

- **Reminder:** Friday 17 March “Piotr Anderszewski: Unquiet Traveller” by Bruno MONSAINGEON - France - Poland, 2008

- **Friday 24 March:** “Live at Montreux” (concert)
  - Director: Thierry Amsallem – 2005
  - Guitarist Al di Meola, violinist Jean-Luc Ponty, and bassist Stanley Clarke, all of whom recorded numerous albums as jazz-fusion leaders during the 1970s and 1980s, join forces for a concert in Montreux in 1994. This concert beautifully photographed and edited with excellent sound, is forms this film. The music they played that night was taken from their individual projects. There were other tunes that would later be included on their album The Rite of Strings. The Integrity, musicianship, compositions, and improvisations are all first rate. **Concert Montreux 1994, Switzerland, Duration: 1h.43’**

“JOURNEY TO THE LIFE DIVINE - Part 1”

The first part of the film created in the Ashram shows the spiritual development and work of Sri Aurobindo and The Mother and the work they did for the new evolutionary step towards a Life-Divine for mankind and the earth. They felt their mission from childhood onwards. We learn about Sri Aurobindo’s earlier spiritual experiences, his involvement in politics and his time in jail as well as his call to Pondicherry. We see The Mother’s specific spiritual development, her knowledge of occultism and her training, her time in Japan and then their meeting in Pondicherry. 24th November 1926 is an important date in their work, the day of Victory, when the Overmind, Krishna descended into the physical body of Sri Aurobindo. Then Sri Aurobindo withdrew to devote himself to further more concentrated spiritual research, putting The Mother in charge of the Ashram. Sri Aurobindo: “A spiritual evolution, an evolution of consciousness in Matter in a constant developing self-formation till the form can reveal the indwelling Spirit, is then the key-note, the central significant motive of the terrestrial existence.” Duration: 100min.

**Important information about News & Notes**

**ABSOLUTE DEADLINE FOR SUBMISSIONS OR CANCELLATIONS: TUESDAY 5PM**

The contents of News & Notes are a reflection of the growth process of this community towards its ideals of harmony, goodwill, discipline and truth. Editing of submissions, mainly for reasons of space and clarity, is done according to an established policy. Articles for the Notes section should ideally be no longer than 500 words. All articles and reports need to reach us by Tuesday noon.

**How to submit material:** Material (no pdf files, please) may be sent (in English only) to the N&N email address (below).

**Please try your best to send your announcements, reports, film schedules whenever they are ready.**

The Tuesday deadline (5pm) is absolute as the News is given to the printers by Wednesday 2 pm.

Any modifications of the submitted News items have to be sent to the editors before Wednesday. We regret not being able to attend to visitors on Wednesdays due to work pressure.

**Visiting hours:** Mondays, Tuesdays 9am to 11.45am and 1pm to 3pm; **No visitors on Wednesday.**

**Soft Version:** Please switch to the soft version of News&Notes sent directly to your own mail or downloaded from the above websites. It saves a lot to our community: trees, waste, money (over Rs 20,000 monthly are spent only on purchasing paper) and labor (nearly 1000 copies are printed every week). Don’t hesitate to mail: newsandnotes@auroville.org.in or to phone 2622133 if you want to give it a try.

**Disclaimer:** The views expressed on these pages are those of their respective authors or work groups and do not represent the position of the editors or of the community as a whole. The News & Notes serves as a channel for the publication of material coming from trusted sources within Auroville. The editors cannot be held accountable for any alleged misinformation given or offence caused. In case of any dispute, the Auroville Council may be consulted and publishing of disputed material suspended.

News&Notes 18th March 2017 [691] 18
Indian diaspora - Monday 20 March, 8:00 pm:
- LION
Australia-USA-UK, 2016, Dir. Garth Davis w/ Dev Patel, Nicole Kidman, Rooney Mara, and others, Biography-Drama, 118 mins, English-Bengali-Hindi w/English subtitles, Rated: PG-13

In 1986, Saroo was a 5yrs old boy in India of a poor but happy rural family. On a trip with his brother, Saroo finds himself alone and trapped in a moving train that takes him to Calcutta, 1500 miles away from his home. Now totally lost in an alien urban environment and too young to identify either himself or his home to the authorities, Saroo struggles to survive as a street child until he is sent to an orphanage. Soon, he is selected to be adopted by the Brierley family in Tasmania, where he grows up in a loving, prosperous home. However, for all his material good fortune, Saroo finds himself plagued by his memories of his lost family in his adulthood. In his quest he has an epiphany and is ever changing. New dreams come to her almost daily. Paterson loves Laura and she loves him. He supports her newfound ambitions; she champions his gift for poetry. The film quietly observes the triumphs and defeats of daily life, along with the poetry evident in its smallest details.

German - Tuesday 21 March, 8:00 pm:
- THE CUT
Germany, 2013/14, Dir. Fatih Akin w/ Tahar Rahim, Simon Abkarian, Makram Khoury and others, Drama, 135 mins, German w/English subtitles, Rated: NR. In collaboration with Goethe Institute, Chennai

1915: Nazaret Manogian lives with his family and other Armenian Christians happily in Mardin till the Turkish army arrests him. After his difficult journey till the end of the 1st world war he searched for the members of his family.

Cultural - Wednesday 22 March, 8:00 pm:
- HYPERNORMALISATION
UK, 2016, Dir. Adam Curtis, Documentary, English w/ English subtitles, 166 mins, Rated: G. This BBC doc. tells the extraordinary story of how we got to this strange time of great uncertainty and confusion - where those who are supposed to be in power are paralysed - and have no idea what to do. From Donald Trump to Brexit, the War in Syria, the endless migrant crisis, and random bomb attacks. It explains not only why these chaotic events are happening - but also why we, and our politicians, cannot understand them. The film shows that what has happened is that all of us in the West - not just the politicians and the journalists and the experts, but we ourselves - have retreated into a simplified, and often completely fake version of the world. But because it is all around us, we accept it as normal.

French - Thursday 23 March, 8:00 pm:
- LA TETE HAUTE (Standing Tall)
France, 2015, Dir. Emmanuelleled Bergot, w/ Catherine Deneuve, Rod Paradot, Benoît Magimel, Drama, 120 mins, French WITH ENGLISH SUBTITLES, Rated: G

In between the age of 6 and 18 years old, the educative course of Malony is in the hands of a judge for children and a teacher who both try tirelessly to save him.

International - Saturday 25 March, 8:00 pm:
- PATERSON
USA, 2016, Dir. Jim Jarmusch, w/ Adam Driver, Golshifteh Farahani, 118 min., Comedy-Drama-Romance, English-Italian w/ English subtitles, Rated: PG

Every day, Paterson adheres to a simple routine: he drives his daily route, observing the city as it drifts across his windshield and overhearing fragments of conversation swirling around him; he writes poetry into a notebook; he walks his dog; he stops in a bar and drinks exactly one beer; he goes home to his wife, Laura. By contrast, Laura's world is ever changing. New dreams come to her almost daily. Paterson loves Laura and she loves him. He supports her newfound ambitions; she champions his gift for poetry. The film quietly observes the triumphs and defeats of daily life, along with the poetry evident in its smallest details.

Children’s Film - Sunday 26 March, 4:30 pm:
- SWALLOWS AND AMAZONS
UK, 2016, Dir. Philippa Lowthorpe, w/ Andrew Scott, Kelly MacDonald, Rafe Spall and others, Adventure, 97mins, English w/English subtitles, Rated: G

Four children (the Swallows) on holiday in the Lake District sail on their own to an island and start a war with rival children (the Amazons). In the meantime, a mysterious man on a houseboat accuses them of a crime they did not commit.

HAL ASHBY Film Festival @ Ciné-Club
Ciné-Club - Sunday 26 March, 8:00 pm:
- BEING THERE
USA, 1979, Dir. Hal Ashby w/ Peter Sellers, Shirley MacLaine and others, Drama-Comedy, 130mins, English w/English subtitles, Rated: PG.

A simple-minded gardener named Chance has spent all his life in the Washington D.C. house of an old man. When the man dies, Chance is put out on the street with no knowledge of the world except what he has learned from television. After a run in with a limousine, he ends up a guest of a woman and her husband Ben, an influential but sickly businessman. Now called Chauncey Gardner, Chance becomes friend and confidante to Ben, and an unlikely political insider.

Rating codes we often use are from Motion Picture Association of America (MPAA): G=General Audiences, PG=Parental guidance suggested, PG-13=Parents strongly cautioned, R=Restricted (equivalent to Indian rating: A i.e. for Adults), NR=Film Not rated, Rating awaited, or Rating not available.
