HOUSE OF MOTHER’S AGENDA

Liberation
I HAVE thrown from me the whirling dance of mind
And stand now in the spirit’s silence free;
Timeless and deathless beyond creature-kind,
The centre of my own eternity.
I have escaped and the small self is dead;
I am immortal, alone, ineffable;
I have gone out from the universe I made,
And have grown nameless and immeasurable.
My mind is hushed in a wide and endless light,
My heart a solitude of delight and peace,
My sense unsnared by touch and sound and sight,
My body a point in white infinities.
I am the one Being’s sole immobile Bliss:
No one I am, I who am all that is.
27.7.1938 / 22.3.1944

The Cosmic Spirit
I am a single Self all Nature fills.
Immeasurable, unmoved the Witness sits:
He is the silence brooding on her hills,
The circling motion of her cosmic mights.
I have broken the limits of embodied mind
And am no more the figure of a soul.
The burning galaxies are in me outlined;
The universe is my stupendous whole.
My life is the life of village and continent,
I am earth’s agony and her throbs of bliss;
I share all creatures’ sorrow and content
And feel the passage of every stab and kiss.
Impassive, I bear each act and thought and mood:
Time traverses my hushed infinitude.
15-10-1939 / 5-11-1939

Transformation
My breath runs in a subtle rhythmic stream;
It fills my members with a might divine:
I have drunk the Infinite like a giant’s wine.
Time is my drama or my pageant dream.
Now are my illumined cells joy’s flaming scheme
And changed my thrilled and branching nerves to fine
Channels of rapture opal and hyaline
For the influx of the Unknown and the Supreme.
I am no more a vassal of the flesh,
A slave to Nature and her leaden rule;
I am caught no more in the senses’ narrow mesh.
My soul unhorizoned widens to measureless sight,
My body is God’s happy living tool,
My spirit a vast sun of deathless light.
1933/1934

SRI AUROBINDO - Collected Poems

In truth, no system can on its own effect the change humanity desperately needs; for that change can only occur by developing the possibilities of one’s own higher nature to the fullest. And this development depends on an inner growth, not on an external change.
However, external changes can at last prepare favourable conditions for that more substantial improvement, or on the contrary lead to such conditions that Kalki’s sword alone can purify the earth of the burden of an obstinately asuric humanity.
The choice depends on the species itself; for as it sows, so shall it reap the fruit of its Karma.

WORKING GROUPS REPORTS

FAMC hosts workshop on matters of non-compliance

As we all know, whether in a working group or not, in the past or present, there are many instances of ‘non-compliance’ of our community approved processes, guidelines and mandates.

We also know there are many reasons for this and that it is a very difficult issue to address on many levels, so it continues to happen, often resulting in polarization and frustration that continues to increase. These situations affect all of us, as individuals, as working group members and as Auroville residents each committed in his/her own way to the vision and ideals.

The FAMC has taken a first step in trying to work towards solutions and change by inviting all major working groups to a half day workshop on the issue of ‘non-compliance’, which took place on 13th May, facilitated by Stefan and Leena from the newly formed group of facilitators. The groups that were represented are: AV Council, Housing Board, Working Committee, Koodam, and the FAMC. Members from ITDC were invited and someone planned to attend until the schedule was moved to the afternoon and then their representative was not available.

Below is an overview of the afternoon with a summary of the questions we worked with and the responses that came up in our large and small group discussions. Although this session was with working groups, it is clear to us all that this is a topic for the community to address as a whole. We invite all of you to share your thoughts and give feedback on this report, and if you feel a call to get actively involved do let us know by writing us at adminfamc@auroville.org.in.

Additionally we invite working groups to reflect on the justifications commonly given for non-compliant behavior and how these can be addressed, by working group processes, so that an atmosphere of non-compliance is not unintentionally encouraged.

Although this is clearly a baby step, we all felt more optimistic when we left than we did when we arrived, so we hope that with a sincere and collaborative effort we can work together towards positive change.

Amy, Bindu, Chali, Chandresh, Lyle, Prabhu, Stephanie, Ulli, and Yuval (FAMC)

2. Publishing the proposed amended Entry Policy 2017 for community feedback, integrating the feedback, and announcing a GM: from 3rd July to 7th August
3. The GM and Presenting the integrated Entry Policy for an RAD process: 21st August
4. Starting the RAD process: from 28th August to 11th September
5. Announcing the outcome of the RAD process: 12th September
6. Selecting the new Entry Board (if the community accepts the Entry Board as an amendment): 15th September to 13th October

**Consolidation of the Annual Accounts of the Auroville Foundation**

Dear Unit Executives and Trustees,

This is to inform you all that for the Consolidation of the Annual Accounts of the Auroville Foundation all Balance Sheets of Trusts need to be submitted by 13th June 2017 without fail. These Balance Sheets should reflect the new depreciation method as was intimated last year.

Last year there was undue delay in the Consolidation of the Annual Accounts, which reflected badly on Auroville as a whole as CAG had to wait for the approved Balance Sheets. This year, in order not to have problems with CAG, we need to be prepared for the Audit. So please respect the deadline in submitting Balance Sheets of Trusts.

If any unit of the Trust has problems in submitting the Balance Sheets by the stipulated time-limit, it must be communicated immediately to the Trustees or Trust Auditor before the submission date.

With Regards, FAMC

**FAMC - Additional 5 weeks**

Dear Community,

We recently participated in a facilitated process of reflection and review, having completed an initial 6 months working together as a team. As a result of our 6 month review, we feel it is necessary to dedicate an additional 5 weeks to continue and deepen the process of reflecting on our experience of working together as a team and to explore how we can do so more efficiently and effectively within the framework of our mandate. During this time we will only be handling routine topics and matters of urgent priority. All other matters will be held pending until our reflection as a team is completed.

Thank you for understanding.

Sincerely, Amy, Bindu, Chali, Chandresh, Lyle, Prabhu, Ulli, and Yuval (FAMC)

**Auroville Learning Activities**

Dear Community members,

After a 1.5 year community process, the Auroville Council endorses the Auroville Learning Activities (ALA) Guidelines for a trial period of one year. The trial period starts on July 1st, when the ALA Coordination Group (ALACG) takes up their work. During the whole trial period the group welcomes feedback, inputs and co-creation for the benefit of the larger community.

The objectives given in 2015 to the ALA subgroup members, namely Vikram, Dhanya, Dominique, Guy, Joster, Daniel and Lara, were:

- Promote the growth of the non-formal learning sector in Auroville
- Promote and encourage communication, sharing and collaboration
- Encourage practices in tune with the ideals of Auroville
- Ensure these activities abide by the laws of the Government of India

The finalized guidelines for this point in time have been presented in a GM on April 29th. Several meetings and interactions with stakeholders were conducted throughout the last year. The Council would like to thank the subgroup for their great work.

The implementation phase will be facilitated / coordinated by the Auroville Learning Activity Coordination Group (ALACG). This group is being constituted by Dhanya, Dominique and Daniel from the ALA sub group and by Gijs, Manas, Mike (ACI) and Sheba. Because more people showed interest to be part of it, the final constitution of the group will be announced in July when the ALACG starts their work.

We would like to ask the community for cooperation. Auroville becomes more and more complex, and we need to get organized and unified. In the long run, this may enable us to implement new economic systems and shared platforms of many kinds.

In this light we wish the ALACG every success, with joy and inspiration.

Please find the Guidelines on this link: https://www.auroville.org.in/article/62716

With gratitude, Auroville Council

Housing Service: Waiting list

Dear Community,
The Housing Waiting list is our method to create fairness in the house allocation.
The HS has established since years a fair waiting list where people who need housing are listed. Some have money, some have a bit and some Aurovilians have none.
We have written some clear standards under which families can ask for help. The norm is at least 4 years working for the community and having no other resources, like money in fixed accounts, or having property in the village.
We try to create housing for this group by fixing up old houses and create houses for the young people.
However it is many time a big challenge. Whenever someone dies in the community a great amount of people goes into waiting list for the community to decide. Family units for family, and single or couples for the smaller units.
A house that would need a lot of expensive maintenance will be given for new stewardships and the funds that come from these are used to help people with some but not enough to get their first stewardship, and extension to their house when the family grows or we renovate old houses and give them for a small rental contribution (like the old health center staff quarter)
Also we ask for GOI funds for creating houses for low rental agreements.

However we have difficulties with some Aurovilians who do not accept houses near to them to be renovated.
People claim a lot of space as their right, or for their future children.
Anyway we have in the last 3 years been able to shrink the waiting list from 125 to 77 (of which still 35 with absolute minimum funds and none or insufficient housing units).
But we keep going slowly until everyone has a chance.
So please respect the process and trust that we try to be as fair as possible.

How to improve the cow/bike barriers on cycle paths

Recently, one resident of Luminosity has modified the existing Progress bike/cow barrier without informing anybody. Following one strong objection, Road Service has modified the pattern. Following a second strong objection from a resident of Creativity, a second modification has been done. Following a third strong objection from a resident of Prarthna, Road Service did not oblige and has decided to ask anybody who has some proposal to convey it to iTDC who will collect some opinion and will convey their advice to Road Service.
A barrier which is fool-proof against bike and also friendly for cyclists does not exist. Some barriers do not allow bikes at all but the corridor is so narrow that cyclists have to get down the cycle and push it and they lose part of their cycling rhythm and joy. Some barriers are friendly for the cyclists but some bike may take advantage. Road Service is regularly confronted with cyclists who complain that these barriers are quite unfriendly, have to be modified and with people who are not happy to see bikes which have gone through them.
The managers of Road Service have agreed with some internal instruction not to deal any longer with the design of the cycle barrier and to invite any plaintiff to address directly the iTDC.
Please oblige.

Kavunji Nature Camp - 1st Group

From 01.05.2017 - 13.05.2017

39 kids and 13 adults went for a big adventure to Kavunji - a place in the Palani Hills, where Auroville runs a camp. Kids can go for treks, explore nature and spend a 10-13 day holiday in a cool, beautiful environment.
In Kavunji there are 1 big fixed dorm and two new large tents. Others can experience their own tents for comfort and being protected against the rains.
The treks around Kavunji are amazing, adventurous and beautiful. The kids could choose the treks they wanted to do.
Three Ammas from Well-cafe took care of our well-being with beautiful. The kids could choose the treks they wanted to do.
Three Ammas from Well-cafe took care of our well-being with delicious.
The daily discipline consisted of morning exercise, camp-clean-up, morning treks and camp-chores (like fire-wood collection and camp repair). Usually in the afternoon we had rains or clouds and time for games and preparing boats for the boat-race and other games. The creative arts/crafts skills saw macramé, painting, woodwork and various entries for the final exhibition.

Water Saving Tip - Your Soaps: Be aware of what you're putting down your drain. Eliminate harmful soaps like Pril and choose chemical-free alternatives. There are plenty of options of less harmful soaps, detergents and other cleaning agents within Auroville; it's only a matter of switching over. Do you find this difficult to do? Maybe it's time to examine why. Look at the associations you have with these products and ask yourself: why do I use this product? Then do your research. Go back and read the Probiotics House Tips in past N&Ns. Learn about the impact of sudsy soaps in our water supply. Then, at the very least, experiment with alternatives - make it a summer project. Water Group (watergroup@auroville.org.in)

Free Store: Dear community, in the summer months May and June the Free Store will ONLY be open in the morning from 9-12.30 Monday to Saturday. See you all there, Free Store team

Library of Things is now OPEN: The Auroville Library of Things (ALoT) is now ready to serve the community. Through the generosity of a number of Aurovilians and a few other donors, there are a number of items available to borrow. We also encourage you to donate things, particularly home tools, toys, games, kitchenware/utensils and camping gear. Note that there is no fee, as of now, for borrowing items; however a security deposit will be required. Opening hours: 10 am to 1 pm and 3 pm to 5 pm Monday to Saturday. Location: Container opposite PTDC - ALoT Team

La Piscine will be closed for the Teams’ annual Tour: From Thursday June 1st. The pool will close earlier on the evening of Wednesday May 31st at 6 pm so that we can get an early start. We will re-open on Monday June 5th at 12 noon as usual.

A Big THANK YOU to all who contributed so generously! La Piscine Team

**EATING OUT**

**Le Morgan Café:** will be closed for 2 weeks from Monday June 5. It will be open again on MOnday June 19. See you then, Le Morgan Café
Auroville Mobility and 50th Anniversary

The one thing that is critical and defines us is our ability to embrace the true mobility within Auroville during this 50th Anniversary of the founding of the City that Earth needs.

Residents and all stakeholders alike, volunteers, newcomers, workers have to work consciously and together to wean ourselves away from dust and polluting mode of transportation that we so simply give into.

The pioneers who greened the plateau went from bicycles to motorcycles zooming around attending meetings and working groups, went away for summers and came back again to repeat the cycles over the past decades. Now the generation is aging and they are moving into purchasing private cars or using mostly taxis for their mobility to go about their meetings and programs and work groups and projects. Their children have become adults and are purchasing the cars for their lifestyle choices while not really engaged in any working groups or projects. The grand children want to quickly move over to fast bikes and go about their events. The newcomers, volunteers and guests are emulating the mobility choices of the population that defined Auroville so far. Many new residents are coming into their retirement years and quickly adopt the car culture or the taxi culture.

There is no Auroville collective mobility plan that is seriously looked into by the community as a whole. There is little collective capability nor individual will to work towards this long pressing problem facing the Earth and Auroville is quintessentially not being able to lead itself out of this malaise. What can be done?

Individually, one can choose several things. Do not move from a petrol base two wheeler to a four wheeler. Choose an electric two wheeler for transport, and if possible, use bicycles during the cooler days when possible. Encourage your friends and family to support bicycles for children and young adults.

At a community level, discourage car parks for private vehicles. Especially those bought via unit or grant funds. Land is very precious in Auroville, and private parking for private cars is against the grain of our collective ideal of living and learning the joy of no private ownership. Support bicycle repair shop within the community. Reduce the parking for guest houses and encourage the guests to use bicycles or community transport.

Auroville wide, pioneers who went from bicycles to motorcycles and moving to cars are all urged to come together this one time for the 50th anniversary to tackle and make happen a collective community transport for all. Call goes out to all senior executives, senior residents, senior newcomers and all who have money and will to come together and solve this terrible issue that cries for attention.

Bring about a collective electric fleet of vehicles, bring about bicycle service stations, bring about shuttle services, support children to bicycle and move everyone away from this dust and polluting lifestyle we continue to accept as if we were helpless. If we put together our will, we can do it.

100% Nutritional Security in Auroville

Drought is here. Will the rain come? Is it a pattern? Sad to say but it definitely feels like that. Anyway all over Tamil Nadu (including Auroville) more and more wells are being drilled. The only solution seems: “Dig deeper yet!” Water is a finite resource though and wells are running dry. So what to do?

Technology seems to be our only solution. There is talk of building de-salination plants in Auroville but what about water for agricultural crops? Do we really think our technologies can solve such complex problems? Is there any hope? What if the solution was really in our hands?

There is this amazing Facebook post about how 15 wolves were reintroduced into Yellowstone National Park. The presence of the wolves changed the deer population which in turn meant grasses and other plants were allowed to grow back which brought back small animals including beavers that made dams which finally meant that certain river bank plants started to thrive, erosion decreased and this stabilised the rivers. The wolves even changed the geography of the park!

Like the reintroduction of the wolves, what if we allowed the return of local plants back into our diets along with the implication of being involved in that relationship? If we see, the deep interconnectedness of everything then could it not be there is a relevant analogy here?

Food is usually bought at a shop. Our relationship to food is most often with the coin. As modern industrialised agriculture is all about economic gain (as are many of man’s endeavours), the foods that we have become accustomed to eat are those which make most money within the paradigm of the petro/chemical multi-National industrialised agriculture. This has defined the nutritional profile of our society, which, in turn affects who we are culturally, socially and spiritually.

This drought is a problem for this way of farming. Questions will have to be asked. More importantly we will have to DO something if we really want to build the City of Dawn.

There are over a hundred plants that we eat at Solitude Farm. Many of them are semi wild or very hardy and easy to grow. Many of them already grow around us and if not, could be easily introduced into gardens. These plants are the very fabric of Ayurveda. They have wonderful nutritional and often medicinal properties. They have subtle flavours and hence the need for lots of salt, chili, oil diminishes. They are local and thus have no food miles, no carbon footprint. Their social relevance is obvious and for a community with a devotion to the Divine Mother at its heart, eating them is an act of Bhakti, a thank you to our Mother for such amazing gifts!

How do we get our community to awaken to this joyous possibility? As well as uplifting us nutritionally and all that that implies, discovering our relationship with our food also brings us together communally because this is not a diet or a project to join, it is a way of life. Do we choose to be involved with where our food comes from or do we keep our heads in the sand with our particular food habits until it collapses?

This change is already happening in Auroville. There are many wonderful efforts by many people (farmers included) to explore food. There are also about 8 communities that I have been involved with where they are actively eating the food they grow as part of a lifestyle.
When we see we are conditioned, when we see we have been fooled, that it is nobody’s fault. When we see the mechanisms that thought creates and are responsible for the erosion of our culture and that at the root of this problem is our relationship with what we eat and where the food comes from, we may start to explore the solution that is unfolding in Auroville.

At Solitude, we have tried many ways to share this vision with our community. So I’d like to share a new idea.

We invite people to join us at Solitude for a one week experiential exploration of how to live only from this bio region.

There will be 3 meals a day. For breakfast and dinner, participants will be invited to join in with harvesting and preparing the food. Lunch will be prepared by the café team. People can join in as much as they are able to. Saturday there will be an open meal prepared by the participants for the rest of the community along with a “jam” session - bring some instruments! We will also touch on how to start growing our own food and discuss ideas of how to bring our community together to help manifest the change.

I personally feel the earth beneath our feet is Mother Nature and her Shakti is a powerful force that exists in the life of the soil, the plants that grow and the food she offers us. As in the story of the wolves, it is in the subtleness of her beauty that lies the possibility of our salvation. It is an active surrender!

The eating will start on Monday 12th of June with breakfast at 8 am.

The week will be run on lines of gift economy. Mother Nature is our only true wealth and her gifts are gifts to us all. Our wellbeing can only be collective. So please offer what you like. There is no expectation except that we empower each other in joy and tasty food.

I hope you will join us.

Love, Krishna Mc Kenzie

FOG OF BWINDI
25 mins / Mixed with English Subtitles / 2015 / Film by Anna Bohlmak

For thousands of years the Batwa (a pygmy tribe) lived in harmony with the mountain gorillas in the Bwindi forest, south Western part of Uganda. In 1991, when the Bwindi forest became a world heritage, the pygmies were forcefully evacuated from the forest to leave space for the endangered gorillas. The mountain gorillas have become one of Africa’s biggest tourist attractions. But what happened to the Batwas? This documentary gives a frightening insight about a society that places economic interests above all others, including human dignity.

MAKING THE CONNECTION
32 mins / English / 2010 / Film by Ella Todd

It is divided into eight chapters and features a dietitian, a parliamentarian, chefs, farmers, an elite athlete, environmental groups and the wonderful Benjamin Zephaniah.

Interesting - Wednesday 7 June, 8:00 pm:
• **WHICH WAY HOME**
  USA, 2009, Dir. Rebecca Cammis, Documentary, 90 mins, English-Spanish w/ English subtitles, Rated: G

The film follows unaccompanied child migrants, on their journey through Mexico, as they try to reach the United States. We follow children like Olga and Freddy, just 9yrs old Hondurans, who are desperately trying to reach their parents in the USA; children like Jose, a 10yrs old El Salvadoran, who has been abandoned by smugglers and ends up alone in a Mexican detention center; and Kevin, a canny, streetwise 14yrs old Honduran, whose mother hopes that he will reach the U.S. and send money back to her. These are stories of hope and courage, disappointment and sorrow. They are the children you never hear about; the invisible ones.

The Movie follows the mysterious, nearly mute drifter Travis as he tries to reconnect with his young son, living with his brother in Los Angeles, and his missing wife. From this simple setup, Wenders and Shepard produce a powerful statement on codes of masculinity and the myth of the American family, as well as an exquisite visual exploration of a vast, crumbling world of canyons and neon.

Rating codes we often use are from Motion Picture Association of America (MPAA): G=General Audiences, PG=Parental guidance suggested, PG-13=Parents strongly cautioned, R=Restricted (equivalent to Indian rating: A i.e. for Adults), NR=Film Not rated, Rating awaited, or Rating not available.
