Is delight the highest state? And if so, could it be said that when one loses delight, one’s consciousness is lowered?

Sri Aurobindo has said that the universe is built upon the delight of existence and that delight, being its origin is necessarily also its goal, so this would mean in fact that delight is the highest state.

But I don’t need to tell you that this is not delight as it is understood in the ordinary human consciousness….indeed, that delight is beyond the states which are generally considered as the highest from the yogic point of view, as for instance, the state of perfect serenity, of perfect equality of soul, of absolute detachment, of identity with the infinite and eternal Divine, which necessarily raises you above all contingencies. Parallel to this state there can be another which is the state of perfect, integral, universal love, which is the very essence of compassion and the most perfect expression of the Grace which wipes out the consequences of all error and all ignorance. These two states have always been considered as the summit of consciousness; they are what could be called the frontier, the extreme limit of what the individual consciousness can attain in its union with the Divine.

But there is something which lies beyond; it is precisely a state of perfect delight which is not static: delight in a progressive manifestation, a perfect unfolding of the supreme Consciousness.

The first of the two states I spoke about leads almost always to a withdrawal from action, an almost static condition, and very easily would it lead to Nirvana — in fact, it has always been the way prescribed for all those in search of Nirvana. But this state of delight I am speaking about, which is essentially divine because it is free, totally free from all possibility of oppositions and opposites, does not break away from action; on the contrary, it leads to an integral action, perfect in its essence and completely liberated from all ignorance and all bondage to ignorance.

One can experience, on the path — when one has made some progress, when there is a greater understanding, a more total opening, a more intimate union with the divine Consciousness, one can experience this Delight as something that passes by and colours life and gives it its true meaning, but as long as one is in the human consciousness, this Delight is very easily deformed and changes into something which no longer resembles it at all. Therefore, one could hardly say that if one loses the delight, one's consciousness is lowered, for….the Delight I am speaking about is something which cannot ever be lost. If one has reached beyond the two states I spoke about a while ago, that is to say, the state of perfect detachment and close union, and the state of perfect love and compassion, if one has gone beyond these two states and found the divine Delight, it is practically impossible to come down from there. But in practical life, that is, on the path of yoga, if you are touched, even in passing, by this divine Delight, it is obvious that, should it leave you, you are bound to feel that you have come down from a peak into a rather dark valley.

But Delight without detachment would be a very dangerous gift which could very easily be perverted. So, to seek Delight before having acquired detachment does not seem to be very wise. One must first be above all possible opposites: indeed, above pain and pleasure, suffering and happiness, enthusiasm and depression. If one is above all that, then one may safely aspire for Delight.

But as long as this detachment is not realised, one can easily confuse Delight with an exalted state of ordinary human happiness, and this would not at all be the true thing nor even a perversion of the thing, for the nature of the two is so different, almost opposite, that you cannot pass from one to the other. So, if one wants to be safe on the path, it seems to me that to seek for peace, for perfect calm, perfect equality, for a widening of the consciousness, a vaster understanding and liberation from all desire, all preference, all attachment, is certainly an indispensable preliminary condition.

It is the guarantee of both inner and outer equipoise.

And then on this equilibrium, on this foundation which must be very solid, one may build whatever one wants. But to begin with, the foundation must be there, unshakable. (Silence)

Someone has asked me what I meant by these words: One must be calm.”

It is obvious that when I tell someone, “Be calm”, I mean many different things according to the person. But the first indispensable calm is mental quietude, for generally that is the one that’s most lacking. When I tell someone, “Be calm”, I mean: Try not to have restless, excited, agitated thoughts; try to quieten your mind and to stop turning around in all your imaginations and observations and mental constructions.

Dear Aurovilians,

You will be aware that a new Governing Board for the Auroville Foundation is in the process of being nominated. We are all delighted that Dr. Karan Singh will continue as the Chairman of the new Board. As is the practice, a new IAC will also be constituted soon thereafter and we felt this might be an appropriate time to write to you and share a few thoughts.

First of all, we would like to thank you most sincerely for your hospitality, generosity and above all your active and genuine engagement with the IAC over the duration of our term.

Together we achieved a great deal. We feel quite honored that we were, in a small way, a part of some exciting developments in Auroville.

We all need to look at the Retreat with much pride and satisfaction. It was an exhilarating experience for us all. It energized Auroville and brought out the enormous potential for creativity and imagination within the participants. It was a clear demonstration of what can be achieved when we all work together.

The Retreat in itself was only an event but the processes which led to its planning and the follow-up was an excellent example of how ideas can be created and how solutions can be generated.

Some of the exciting outcomes of the Retreat have been:

- The active engagement of the Youth within the Auroville system which will no doubt have far reaching benefits
- The pioneering way in which the Campus Initiative on Education has modeled the process of generating ideas and mobilizing individuals to create synergies within and between groups
- The planning and visioning of the 50th Anniversary of the Auroville through the work of the Envisioning group
- The initiatives on better communication, and importantly
- The openness and transparency of an inclusive decision making process

These are only a few examples. As always, not everything is perfect but the process has begun in earnest and it is most satisfying to feel that we were there to witness it happen.

Of course, the process must continue. One of the Aurovilian poets has described Auroville as Bhagirathi, the river Ganga. It must always flow to remain a river, to be dynamic and to sustain life. It cannot afford to stop and stagnate!

The IAC was engaged in the development of a more comprehensive education plan for incoming students. Individual IAC Members also worked towards a better connection between surrounding villages and the community.

Throughout our association with you we provided a keen ear to your ideas, thoughts and sometimes even frustrations and disappointments. Equally, we communicated to you our own observations in all sincerity. We greatly valued the openness and honesty of our dialogue and it is in that same spirit we must share areas which we feel deserve your greater attention.

These include:

- The further growth of the City
- A more active role of the SAIIER in education initiatives and as a hub of generating creative ideas and practices for teachers
- A more rigorous effort to welcome and induct new Aurovilians
- A greater engagement with and capitalizing on the sustainable livelihoods initiative
- A systematic development of eco-architecture and green infrastructure as a signature Auroville model
- New models of public transportation
- A more effective outward communication within and outside India particularly with potential Aurovilians
- Continuing the development of the Youth and their active participation in the affairs of Auroville
- Evolving new models of voluntary simplicity, sustainable farming and integrative medicine as a model for India and the world

These are not mere aspirations. They are essential for the long-term existence of Auroville as a unique Centre for the natural and spiritual evolution of humanity as a whole. We continue to remain hopeful and optimistic in that cause.

Projects in collaboration with your friends around the world, such as Acres for Auroville for acquiring the land, have yielded substantial results. We hope the new Governing Board and IAC can partner with you on this and other opportunities for outreach. Your integral vision is important not only for your bioregion and for India but for the health and progress of our planet.

Finally, we would like to thank you again. We feel much enriched, personally and spiritually, by our association with Auroville. We have also learnt a great deal and gained insight into one of the rarer experiments of our lifetime. We were humbled by your dedication to the ideal of the Mother and Sri Aurobindo. It has been a hugely rewarding experience and an honour!

We look to the 50th, and beyond with great interest, hope and expectation!

Sincerely yours,

Mark Tully

I. **TDC-RELATED TOPICS**

A/ **Site and Building Applications**

Approximately 70 site and building applications were studied in May and June, whether for feedback, discussion, follow-up, survey, etc.
II. Groups, Zones, Services

A/ Collaboration between groups

During the months of May and June, the iTDC worked in collaboration with the AVC, AV Security Service Team, FAMC, Housing Board, Housing Service, Land Board (LB), RAS, Road Service (RS), WC and Water Group (WG) on various projects, whether for information request/sharing, land issues, application requests, etc.

III. LAND-RELATED TOPICS

A/ Land allocation process in the Green Belt

This document was approved by FAMC, Town Development Council, and Green group as of 25 July 2015.

Land allocation and the appointment of stewards in the green belt should follow the following sequence:

1. Any plot becoming available for stewardship in the Green belt will be assessed as suitable for farming, forestry or other activities in the green belt by L’avenir d’Auroville/TDC in association with the Green Group. This assessment will be carried out based on the Land Use Plan for the Green belt.

2. Individuals interested in farming or forestry will be directed to the appropriate group - Farm or Forest. Other activities which are permissible in the greenbelt will be seen to by L’avenir/TDC. Each of these groups has their own processes for choosing and supporting stewards of Green belt land.

3. When a steward has been chosen by the Farm or Forest Group this appointment will be submitted to the Green Group which will submit it to L’avenir d’Auroville/TDC. L’avenir d’Auroville/TDC will certify that the land use proposal is in accordance with the land use plan. This certification information together with details of stewardship will be sent to the Green Group and FAMC for final scrutiny and approval.

4. Once land has been allocated by this process the construction of all immovable assets on the land must be done through the Green Group and TDC using the normal building permission process.

5. No individual land stewardship application will be entertained by the TDC or the FAMC outside this process.

Footnote: Land allocation can be reviewed in case the land is not being utilized for the purpose that it was allocated. The FAMC has the final authority of continuing stewardship, in collaboration with the relevant group (ie Farm, Forest, L’avenir).

N.B. Stewardship is not granted in the city area but land is subject to the site and building application process on a development project basis.

IV. ROADS

A/ Speedbreakers

The iTDC regularly receives requests for speedbreakers (for example at the Savitri Bhavan junction or in front of TLC). These proposals are studied and are subject to Work Orders if/when they are accepted, but unfortunately the iTDC cannot fund any of these projects.

B/ Planning work - Crown Road

A map has been prepared showing not only the 4 different zones (concerned plots in different colors), but also the proximity with the Crown Road. Criteria for the Crown Road area need to be defined.

C/ Southern access to Auroville

The iTDC is studying an alternative access for the Certitude road to be built in stabilized compressed earth. Several points were raised reg. the users, security presence, traffic regulator at the Certitude corner, etc. Other points need to be studied, such as the connection to the roundabout, eventual maintenance of Certitude stretch, regularized access, etc.

D/ Bus stop signs

The iTDC and the AVC are working together with the RS to install bus stop signs at strategic spots.

V. WATER-RELATED TOPICS

A/ Waste Water Treatment Plant

Residents and close neighbors have actively been participating in this project from the start. A WWT management group will be set up soon.

B/ Water for Courage.Service area

The iTDC and the WG are looking into finding a solution for water in this area.

The Working Committee

It’s Working Group Selection Time!

Dear Friend,

According to our Participatory Working Groups system, each year we replace a few members of a few working groups in a process called ‘staggering’. The system ensures that these groups are never fully replaced, but always include a mix of new and more experienced members to maintain the continuity of their ongoing work.

We need you!

The process needs you. It needs you to open your awareness to nominate those in the community that you think would suit the work of these groups and to even nominate yourself if you feel ready to:

a) Serve the community in a working group; or
b) As a participant in the selection process.

If you feel that someone you know has what it takes to join a working group, tell them now! This is a good way of letting people know that you appreciate their qualities and also to check whether they’d be prepared to be nominated.

Encourage people you know

If they’re unsure, don’t hesitate to encourage them to take the step into this kind of work. It’s demanding but of late has become much more rewarding than it used to be, thanks to the new Participatory Working Groups system and other innovations in team dynamics.

Which groups are replacing members?

The groups that will have new members appointed this year are:

Working Committee
Auroville Council
FAMC

A brand new TDC

This year is a bit different in that we must also create an entirely new group - the new TDC, as per the community’s newly-approved restructure of the TDC.

So we’re going to run two separate selection processes this year - one to replace a few members in the AVC, WC, FAMC and one to create the new TDC.

TDC nominations start next week

We’re going to start with the TDC. Next week we’ll publish an announcement that will include a definition of the roles and responsibilities of the new group and a call for nominations and self-nominations for the TDC ‘Interface Team.

For more information: Don’t hesitate to email us on raservice@auroville.org.in or call us on 9486623749.

Much love,

Your RAS Team

L’avenir d’Auroville / TDC - Site and Building Applications feedback - 15th Jul 2017

The following Site and Building Applications (SA and BA) are announced for feedback from the community for a period of two weeks from the date of publication.

The announcement is made for feedback only and does not mean that the project has final approval. The final approval is given when L'avenir d'Auroville / TDC issues a NOC (No Objection Certificate). This happens once the feedback period is over, the feedback has been evaluated, a final decision by TDC has been reached and the necessary financial formalities have been completed. It is only after issuing a final building permission that fencing, building or any other activity on the site can start.

It has to be noted that site permission is given to reserve the site for a maximum period of two years in order to prepare a project proposal. It does not give any right to fence and clear the site unless, for practical reasons, there is a special permission of the TDC.

OBITUARY

Damien

In the morning of Saturday, 8 July, our Aurovillian friend and brother Damien L Hedley, left his body at the age of 67, due to cancer, in the presence of his sons in Canberra, Australia.
Damien started coming in 2009 to Auroville to visit an old friend, and joined for good in 2011. He lived in Creativity and taught geography at Future School and Last School. Students and parents alike appreciated his alive and unique approach toward the pupils, making them at ease through his direct insight, great sense of humour and straightforwardness. Most recently, he gave a sex education series at The Learning Centre along with his Aurovilian partner, Paula Murphy.
Damien’s remains will be cremated on Wednesday 12th in Canberra, while a Celebration of his Life is held Thursday afternoon 13 July in the beautiful Australian National Botanic Gardens there.
Our love and sympathy go out to Damien’s family and to Paula who went to be with him.

FOR YOUR INFORMATION

Youth Housing - Humanscape and project X&Y

Humanscape (opposite Kalpana) and project X&Y (near Aurovelo) are two youth projects that will be finished soon, with a total of 65 beds.
Applications are still open for Auroville youth presently involved in working in Auroville. Priority will be given to second generation Aurovilians of parents that have no funding to help with housing and to young people that have become Aurovilians recently, who are working in Auroville, but have insufficient funds for simple housing.
The spaces are for singles on a shared kitchen/bathroom base. Some units for couples and families will also be available. The selection will be in August. If you are interested, kindly write to the Housing service for an application form.

News from Auroville Village Action Group

During the spring and summer months, much has happened at AVAG. We would like to take this opportunity to share some of our highlights with you.

Social enterprise-wise, the Aval clothes-and-toys-line is doing well, and the sales rates of the clothes at the Visitors' Centre Anjali stall (behind Dosa Corner, if you are wondering) have been stable since December of last year. This, added to the sales from some retail outlets that now carry the Aval brand, means AVAG will be able to hire 8-10 extra women tailors in the near future. Presently, Anjali is being redesigned, and as well as getting a new look and a much-needed changing room, it will also be stocked with a new clothing collection by visiting designers Anisha and Pallavi. Aval’s crochet toys are also doing so well that 5 new women can now be hired - all in all, great news! On top of that, Aval will soon feature a new yoga wear clothesline called Pranava, for which another 8-10 women will be hired.

We also conducted a variety of special programs in the last months, ranging from disaster management, solar power for self-help group members and our 5-week-long educational summer camp for adolescent girls (and, for the first time ever, one week was reserved for boys this year!). We have also offered programs on financial management and four programs on alcohol awareness, as well as establishing a counselling support for de-addiction and a weekly Alcohol Anonymous meeting on Thursdays at 5.30 pm, all are welcome.

Use a broom instead of a hosepipe to clean patios and sidewalks. When washing your hands, turn the water off while you lather. If you’ve created a small pool to beat the summer heat, don’t overfill the pools. Lower water levels will reduce water loss due to splashing. Keep water in the pool while playing, it will save water. I would like them (the Government) to recognize Yoga as education, not so much for ourselves, but it will be good for the Country. Matter will be transformed, that will be a solid base. Life will be divinized. Let India take the lead." - The Mother.

(India and Her destiny. The Mother- Sri Aurobindo Ashram Publication 2014. Messages to the Government-P19)

On the occasion of International Yoga Day, Auroville organized live yogasana demonstrations in its bioregion in 10 villages. We would like to thank:
1. Arulvazhi School students, village students and parents
2. Doordarshan (Pondicherry) Director Mr Sunder
3. Auroville Foundation
4. Working Committee

5. SAIIER
6. Village headmen
7. Volunteers

A 30 minutes short film on yogasana was produced and Doordarshan Pondicherry broadcast it from 21st June for six successive days. Some private cable TV channels in Pondy broadcast it too. We did our best to reach as many people as possible.

We received support from all the villages. About 2,000 people attended the program in 10 villages. Some sought help in teaching yogasana for their children.

Encouraged by its success and support from all, we hope to continue this work in future as well.

**APPEAL**

**An appeal to the community for the August 15th Basketball League.**
This year’s Auroville basketball league will start in the beginning of the 2nd week of August and end on the 15th of August. This is an internal basketball league for the 6 Auroville basketball clubs registered with the Puducherry Basketball Association.

The concept of this league is to celebrate Sri Aurobindo’s birthday and the Indian Independence day through a basketball league in Auroville. This league has been organized since 2003 with the support of all the Auroville Basketball players and the non-playing members. There are about a 100 to 150 players that participate every year in this league including sub-juniors, juniors and seniors. This is the only event where all the members of basketball come together to celebrate Sri Aurobindo’s birthday and the Independence Day of India. This year too, we would like to carry on with the tradition of celebration and make it a very special one, because it leads to the 50th Anniversary of Auroville!

We kindly request your support to organize this league; even a small help will be appreciated...

Our financial service account number is: 105144 Independence BB League.

Town hall permaculture gardens

I have been asked why the permaculture gardens at the Town hall are dying?
I have hesitated sending this mail, but I thought an explanation is needed from my side.

There is a severe lack of recycled water (which we usually use to water with) and no other source of water is being made available.

Dealing with working groups and individuals, all with different levels of understanding and awareness of the importance of this project, and nearly no one else to support it, is also why we are at this point. After 2 and half years of so much effort, love and care there is no concrete support from the community to make this garden happen. We have tried. I am at a loss on how to go on!

There are more and more questions being asked about food security and until we understand what grows locally and learn how to use it and what that implies on a social level, this will undermine our efforts to create Auroville, as food, along with water is our most essential human need. Food is not only the business of the farmer.

Most of the world is talking about food security, but in Auroville we are not addressing the subject with the belief that we can make a profound change. I know that this change is possible but how to bring that awareness to our community? These gardens represent that change.

I was talking to a water expert the other day and we were saying that it is not until we start to understand the deep interconnectedness between everything that we will manage to create change. For example, each house and public space in Auroville should have a waste water recycling system and, either individually or collectively, use that water to grow food.

That means the water guys and the garden team, the cooking teams, the architects and others etc. have to come together to see how to create such a solution. The problem is that we don’t see how symbiotic our existence is.

The re-introduction of wolves into the Yellowstone National Park was a nice example, given in my previous article. When we start to see the solutions to our problems are really collective and it is because we dismiss certain aspects of life, like relating to how we grow our food and where it comes from, that we become fragmented, and from fragmentation holistic solutions to problems are not possible.

These values we are trying to share are so absolutely essential to our very existence. I personally feel that the only way this project will work is if we as a community stand up and say “yes we want this garden at the town hall” Otherwise, like it is now, it will die a death.

If the community wants this garden we have to come together and look at the water problem together. We have to see what our collective values are. If we deem this effort as not so important, ok then, let’s leave it. If we believe Auroville can grow on the back of an industrialised agriculture that slowly destroys our planet (also known as Mother Earth) then let’s be with that, but let’s understand what the situation with food and water in Auroville is and have some vision about that.

As I have no access to water and the community is not yet calling out loud for this project (except for many many pats on the back!) I regret to say I can no longer take care of the Town hall permaculture gardens.
However if a group comes together that wants to make it happen then all my resources, time, energy and love is for that.

With love,
Krishna

Lalitha is the Goddess of bliss. This is a text from the Brahmanda Purana.   Italy, 2015, Dir. Stefano Sollima w/ Pier Francesco Favino, Greta Scarano, Jean-Hugues Anglade, and others, Crime-Thriller, 130 mins, Italian-Romany-English w/ English subtitles, Rated: R
The Suburra, a rough neighborhood of Rome, is the scene of an ambitious real estate project. A gangster known as the “Samurai" wants to turn the waterfront of Ostia, into a new Atlantic City. A corrupt politician and a powerful cardinal are protecting him, and it seems that all the local mob bosses have agreed to work for this common goal. But, with the state, Vatican and the mafia involved things are not what they seem, peace is not to last long, and a ferocious war between the gangs is about to wreck the Samurai’s dream. An ensemble thriller of epic dimensions reminiscent of Greek tragedy. Please note that this film is not for those with tender hearts.

Interesting - Wednesday 19 July, 8:00 pm:
• **YEARS OF LIVING DANGEROUSLY : DRY SEASON**
  USA, 2014, A National Geographic Production - Season1 w/ Harrison Ford, Don Cheadle and others, Documentary, 58mins, English, Rated: NR (G)
  Don Cheadle reports on the severe droughts in the Southwest United States, following scientist and devout Christian, Katharine Hayhoe, as she speaks to religious audiences about the connection between extreme weather and climate change; Harrison Ford visits Indonesia to learn how slash-and-burn deforestation, driven by the global appetite for products like palm oil and paper, contributes a large portion of the world’s carbon emissions; and Thomas Friedman investigates how drought contributed to the civil war in Syria. It has been criticized that although the film exposed the dangers of deforestation, executive producer Arnold Schwarzenegger owned stake in a firm that it said finances many of the world’s largest logging companies.

French - Thursday 20 July, 8:00 pm:

• **CRIMES AND MISDEMEANORS**
  USA, 1989, Dir. Woody Allen w/Martin Landau,Woody Allen,Bill Bernstein and others, Drama-Comedy,104mins, English w/English subtitles, Rated: PG-13
  Considered an important and interesting work of the filmmaker, this film is an alternately comical and dramatic examination of scruples as it follows two parallel storylines that manage to connect at the end. One follows the exploits of a philandering optometrist who is trying hard to break off his relationship with an obsessive, overly dependent woman who blackmails him into remaining with her. Her conviving leads to tragedy. The other plot-line deals with a depressive documentary maker who is in love with his producer. He is working on a film about her selfish and arrogant employer, a popular television comedian.

Rating codes we often use are from Motion Picture Association of America (MPAA): G=General Audiences, PG=Parental guidance suggested, PG-13=Parents strongly cautioned, R=Restricted (equivalent to Indian rating: A i.e. for Adults), NR=Film Not rated, Rating awaited, or Rating not available.
