MOTHER’S AGENDA

I have received a letter from a correspondent, who asks a question about suffering. Very well, let’s see. She writes this: “...We must stop encouraging torturers, whether of men or of animals. I am writing to beg you to teach me how to obtain the powers to lessen sufferings in others through concentration of fluid, and how to act by inwardly returning blow for blow to the aggressors, without hatred but implacably.... I beg you to help me. Which inner giving, which renunciation is necessary? Who will teach me the force and justice that will enable me to act and not to always let evil triumph? It is too easy to forget, deny, minimize other's suffering. I can no longer put up with it. I no longer want to shut my eyes and comfort myself till the next time.... What should I undertake?”

When did you get this letter? Two or three days ago.

But did you decide to read it to me yesterday? Because the whole day I was in that frame of mind (not with these words, but in that frame of mind).

For a long time lately, that is, for days and days, there has been a very sharp perception, very intense and clear, that the action of the Force outwardly results in what we call “suffering” because it's the only kind of vibration capable of pulling Matter out of inertia.

Supreme Peace and Calm were distorted and disfigured into inertia and tamas, and precisely because it was the distortion of true Peace and Calm, there was no reason for it to change! A certain vibration of awakening - of reawakening - was necessary to emerge from that tamas, which was incapable of directly changing from tamas into Peace; something was needed to shake the tamas, and outwardly it resulted in suffering.

I am referring here to physical suffering, because all the other kinds of suffering - vital, mental, emotive suffering - arise from a wrong functioning of the mind, and those... we can easily rank them in the Falsehood, that's all. But physical suffering is to me like a child being beaten, because here in Matter, Falsehood turned into ignorance, which means there is no bad will - there is no bad will in Matter, everything is inertia and ignorance: total ignorance of the Truth, ignorance of the Origin, ignorance of the Possibility, even ignorance of what needs to be done so as not to suffer materially. This ignorance is everywhere in the cells, and only the experience - and the experience of what, in this rudimentary consciousness, is translated as suffering - can awaken, arouse the need to know and be cured, and the aspiration to be transformed.

This has become a certitude because the aspiration has been born in all these cells, and it's growing more and more intense and is surprised at the resistance. But they have observed that when something is upset in the functioning (which means that instead of being supple, spontaneous, natural, the functioning becomes a painful effort, a struggle with something that takes on the appearance of a bad will but is only a reluctance devoid of understanding), at such times the intensity of the aspiration, of the call, grows tenfold: it becomes constant. The difficulty is to keep up this state of int

MOTHER’S AGENDA, 28 September 1966

The Concept of Omkaram (OM)

Omk is an important spiritual symbol for both Hindus and followers of some other religions, and its printed form in Tamil is known as Omgaram.

It refers to Lord Ganapathy, the elephant-faced God who is considered a remover of obstacles, with “ॐ” (A), “ॐ ॐ” (U) in the middle and end of the tail “ॐ” (M), symbolizing the seed of all creation.

(A) ॐ = ॐ ॐ ॐ / Paramatma / is the Creator / Brahma / past or beginning
(U) ॐ ॐ = ॐ ॐ ॐ / Relationship / is the Preserver / Vishnu / present or middle
(M) ॐ = ॐ ॐ ॐ / Jivathama / the Destroyer / Shiva / future or end

The concept of “Om” has been explained by 96 theories. One very brief, subtle meaning is “relationship to life and God.” It is also interpreted as follows:

A ॐ symbolises the first Supreme, Lord Siva
U ॐ symbolises the Supreme power (Shakti or Parvathi, wife of Lord Shiva)
M ॐ symbolises the awareness and bliss of oneness with the Universe

PERSONAL LOANS

Dear Community, from time to time the Auroville Council and the Working Committee are being presented with conflicts regarding financial issues such as the failure to repay personal loans and other financial agreements made privately between Aurovilians and other individuals (Aurovilian or not). It is necessary to state that such personal financial agreements are solely the responsibility of the individuals involved and the working groups cannot be held responsible to solve such conflicts. Warmly, Auroville Council & the Working Committee
Road Safety - Speed Breakers
Dear Community, since the removal of all speed breakers on AV roads for the PM's visit, we have observed, and experienced, the increase in speed of both 2 and 4 wheeler traffic, highlighting some serious road safety concerns. There have been a number of complaints of dangerous driving at some critical junctions, schools’ crossings and residential areas. Together with the AV Security Service team, we have identified locations where traffic calming measures are needed and are studying solutions that allow for ease of driving while reducing speed. The map with the proposed locations can be found on Auronet. Have a look and share your feedback with us at avenir@auroville.org.in
We will finalise this in the next weeks, with your inputs. In the meantime, we urge everybody to keep your personal safety, and that of others, foremost in your consciousness whilst driving.
Regards, L’avenir d’Auroville and AV Security Service

E-Rickshaw Trial
Dear All, Integrated Transport Service (ITS) has sourced a new e-rickshaw for testing in Auroville. For a 2-3 week free trial period we would like to test the e-rickshaw to see if it meets the transportation requirements of various units in Auroville. We are testing the battery performance, reliability, stability and
load carrying capability of the vehicle. We are also currently searching for a driver to operate the vehicle. The e-rickshaw can be trialed for the following community activities:

- Pick up and drop for children
- Pick up and drop for elderly
- Transportation of goods (farm products, equipment, tiffin carriers, News&Notes, etc.)

If you are interested in trialing the vehicle, please let us know.

**Paintings held in the Auroville Archives**

Dear community, We have moved the Auroville Archives office and collection from Bharat Nivas to the new building in the Administrative area of Town Hall, next to SAILER. On March 8, we posted on AuroNet pictures of several paintings. We need your help to identify who painted them, or who may want to claim them. It’s too much to include the images here so we would appreciate it if you’d take a moment to look online. If you recognize any of them, please let us know. If we don’t get confirmation in the next couple weeks, we’ll probably offer them to public spaces for display. Thanks for taking a moment to check on AuroNet. Contact us at archivist@aarugville.org.in or come by. We presently don’t have a phone. Thanks, Gilles, Thambidurai, and Amy

**Fresh as a Daisy!**

Summer is almost here, with cycling Aurovilians, volunteers and guests having more and more dust, heat and road fatigue. How can we get around, go to work or reach meetings without being drenched in sweat? The answer is simple: rent or buy an electric cycle! With full pedal assist, you will arrive anywhere fresh as a daisy! And you can still exercise for your health in the cool morning or evening hours, by using the lowest assist or simply pedaling. The new e-cycles are quite lightweight and comfortable, with thick tires and big gel seats, removable batteries can be charged quickly on any outlet in your home.

Special Summer rates! Our rates are according to the length of rental. Come and try one of our models at Kinisi (inside the gate of CSR facing Auromode guesthouse). The Kinisi offices are in the yellow and blue building with a spiral staircase, second floor. Email kinisi@aarugville.org.in / tel. 8300460679/0680. Open 9:00 - 12:30 and 14:00 - 16:30 every day except Sunday. We look forward to your visit! The Kinisi Team

**Water Shortages and a Way Out**

We are all seeing the water shortages, we know that we have to plan for the future. There is one thing that we have been ignoring, even though it’s the elephant in the room, and that’s the vast resources for food (dairy, eggs and even meat) is a HUGE drain on the water resources. Auroville’s animal products – milk, cheese, curds and eggs are growing, and are served with almost every Aurovillian meal. Animal agriculture destroys forests, consumes a lot of water and produces greenhouse gases.

I was recently in London and Utrecht, and was pleasantly surprised to see plant based milks in every coffee shop and vegan selections clearly marked in every eatery - even at the airports and supermarkets. Standard hotels served soymilk and vegan selections on the breakfast buffet. The world is changing fast. Whether for the environment, health or even to counter intense animal cruelty and suffering this this world, vegan choices are exploding. We are so lucky in Auroville to have our share of them. Let’s not get left behind!

Here are 2, 15-30 videos that explain it quickly: 1 and 2 Thank you! Dr Nandita Shah, founder of SHARAN

**PRECISIONS ABOUT THE CERTITUDE-SOLAR KITCHEN ROAD**

Now and in the coming weeks, the newly paved road of Certitude-Solar Kitchen may be the subject of discussions and controversies in the community. I have received a few positive comments from Aurovilians about this work and someone wrote: “I wanted to thank you for the magnificent road that you have built between Certitude and Solar Kitchen. I was surprised to see plant based milks in every coffee shop an..." In other places, some parts of the road have started to erode. Especially for this reason, I believe that it is necessary to give some background information regarding this work so that the community is properly informed. First, it is necessary to say that this road was built by the Road Service, following my specifications, with training from me and some support for supervision.

I was approached by L’Avenir in June 2017 to do a study for a new road starting from the Edyananchavadi tar road near Reve/Courage to Solar Kitchen, that the Honourable Prime Minister Shri N. Modi may take during his visit to Auroville. This pukka Poured Earth Concrete road (like that at the Visitor’s Centre parking) was supposed to be a replacement of the Certitude road. Only after the study for this new road was finalised, it was discovered in mid-October 2017 that there was a private land at the entrance of this road. I will skip the details of how many times I reworked this study, trying to find a suitable route to bypass this private land... all the work was being lost and it became impossible to do a proper earth concrete road in time for February (e.g. there was not enough time to prefabricate curbs). Finally, everyone in planning agreed that it was not possible to build this road starting near Reve/Courage.

One month later, in Nov. 2017 I was asked by the new L’avenir group to improve the Certitude road and to make it dust free, as the Security of the Prime Minister did not want him to drive on a dirt road, because of dust. Initially I refused to help for this road, explaining that there was not enough time to do a good job. The alternative proposed by the collector was to pave this road with tar. L’Avenir and the WC did not want this solution. This road, being on Poramboko land, is not a permanent road on the Master plan and there are certain development related risks if it were to be made into a ‘permanent’ road. They asked me again to do it as they did not have anyone else to ask. Their request was for a dust free road, which would last two years only. I finally accepted, as no one wanted a tar road in Auroville and they led me to believe that this was the only option for a non-tar road in the time required. Even Road Service acknowledged that this road could not be completed with any of the other conventional techniques.

I knew that it would be difficult to do a good job, due to the lack of time, and I insisted to make a full scale experiment early Dec. 2017 for a new mechanised system for mixing using a rotavator. However, the work order was given only the 28th Dec…, thus prohibiting experimentation beforehand.

Road Service started with some levelling beginning of Jan. 2018 and the main work started on the 8th Jan. I had to improvise on the spot to find a process using the rotavator for mixing soil, cement and lime. This pavement is a development of various research initiatives at the Auroville Earth Institute. We usually experiment long in advanced, and then, only once protocols and mixes have satisfactory results, we implement the research for a permanent application.
This was why I initially declined this request and why I insisted on the testing of early Dec. 2017. As the road had to be opened before the visit of the Prime Minister, every step of this work was rushed. Road Service workers worked really hard, starting at 7 AM and finishing every day between 5.30 and 6.30 PM, and once at ~8.45 PM. I was proud of their work and even concerned for their well-being. The rotavator significantly speeded up the mixing process, but it was difficult to get a homogeneous mix. The top surface of the mix often dried too fast, as we were ramming 25 to 30 m length of road at a time. And because of this required speed to complete the road in time, sometimes the construction team made mistakes. This is the main reason for the erosion which is now happening prematurely. There are occasional potholes and the part which is eroding the most is in front of Dinesh’s restaurant. This stretch erodes so much because we could not cure it properly, as Dinesh started to use it two days after it was done, even though we asked him not to do so. The parts that are eroding can be repaired and this will be done in the coming weeks. We are very sorry for the disturbance that will cause again. As this road was not supposed to be permanent and as there was a limited budget, I decided to add only 7.25 % cement and 3 % lime to the soil. It is clear that the technique used (stabilised earth concrete rammed with a roller compressor) is not an ideal one for road making. I have known this since the experiment of the stretch towards Deepanam School. However, it was not possible to use the best paving system, Poured Earth Concrete (like that done successfully for the access to the Visitor’s centre) because of time and cost constraints. The road of 768 m long (~3,160 m2) was done in 22 days for a cost of ~24.5 Lakhs Rs., thus costing 777 Rs. /m2, which is the cheapest and fastest road ever made here. Despite all of constraints and risk, this road making has actually been a very positive collaboration between L’avenir, Road Service and the Auroville Earth Institute. Circumstances were not easy and led to a work quality not as good as I anticipated or hoped. I still feel that most of the road is very hard and behaves well, and this road is dust free. Nevertheless, I regret, under the circumstances that we had to deal with, that it could not be perfect. Satprem, Auroville Earth Institute

APPEAL

IACC Urgently Needs Help with Puppies
The Auroville animal shelter, IACC, urgently needs helping hands! We have been flooded with puppies that have been dropped in the shelter, and we urgently need some helping hands to support the small team. Please if you have some spare time, a few times a week ideally, contact us on 8637682895 (same for WhatsApp). Specifically, the puppies are in need of extra love and care, after being taken away, mostly too early, from their mams. If you can give some support by donating towards their vaccination, that also would be greatly appreciated! Thank you so much for your compassion! Support for the puppies in form of donations also most welcome at the IACC FS number: 103111. The IACC Team

THANK YOU

Gratitude.
After the first performance of the AUROVILLE HARMONIES, last Saturday in CRIPA, I am full of gratitude. I want to thank all the persons who contributed in one way or another:
- CRIPA, especially Jean-Christophe and Christophe, for welcoming us and organizing the technical part of this concert
- CITADINES - Centre d’Art, for hosting our regular rehearsals
- SANTE, for hosting us for a few rehearsals
- Eva (from Residents’ Service) for helping us to pronounce and understand the difficult lyrics of the Hungarian song (Bolyongas, from Béla Bartók)
- Marco SAROLDI for the poster photography
- And all the people I may have forgotten.
Thank you, wonderful public, for your beautiful response to our singing, you were so warm! And a big, big thanks to the enthusiastic bunch of ladies that are accompanying me in this new adventure. Nothing could have happened without them. Now we will go on, celebrating human unity by singing world polyphonies. So, if each of you could bring back from your mother country some scores of traditional polyphonies - for women’s choir, of course - I will be even more grateful. See you soon in our next round. Antoine

News&Notes 31st March 2018 [743]
The Meetings in Two Banyans

“Trees Are Full of Love” (Colline from Montana State, USA).
“Nature is Clever” (Jean from France).
“Auroville is Fascinating” (Joan from Cape Town).

We met twice, on March 9 & 10. For me these events were great. I’m a biologist from Siberia, Russia. Two Banyans is now a place of highest ecological conditions and my heart enjoys in it. Of course every place in Auroville is fascinating, every place is equal, but some places in the city are more equal than others ones. Colline and Jean cared more than forty years about the forest in Two Banyans. Now this place is very attractive for Joan and for me. Joan already visited Auroville and Two Banyans nine years ago. For her Auroville and Two Banyans are now the special magnets.

Not-ordinary people gathered in not-ordinary place. We spoke about love, cleverness-wisdom and about Auroville’s charm. Very different ways we used before these meetings. Colline’s mother was a leader of the girl scouts and those were the happy years for Colline among the girl scouts - the trekking, bonfires, tents, etc. Her father cared about wildlife in the National Park. But, Jean’s father was a carpenter of high level. He can see any tree and immediately tell what kind of things were possible to receive from this tree. But Jean wants to receive only love, oxygen and bionics from all trees.

We reached a consent in the meetings: nature is not for profit and greed of mankind. People are only a part of nature; their goal must be not industry, but biodiversity. The history of Earth has many paradoxes. For example, Buenos Aires means “good air” but now this city has no good air. If somebody wants to find really good air, let them visit Two Banyans! Boris

When Healing Oneself & the World is Delicious

SHARAN-India: a hidden treasure of Auroville. We all love Nature, at any rate we know we’re part of her, and increasingly we are reminded how much we depend on her. Our environment, lifestyle, nutrition, health... it’s all interconnected, and wherever we look, the systems are in trouble. Our email boxes keep filling up with petitions, to please save this species and avoid that slaughter, outlaw this cruelty towards animals, say no to GM, and preserve that last refuge of the last refuge of untouchable Nature... it can get overwhelming even for the most dedicated, when the suffering exposed becomes too much to bear, and instead of galvanising us into action, leaves us feeling helpless...

Can one be an activist and yet stay clear of the negativity and heaviness that almost inevitably seems to come with it? Is it possible to address the causes of what ails us and effectively bring change, in a way that is truly positive, uplifting and energising, without dragging along the burden of the opposite? It is not easy, but I have come across someone right in our midst who for me stands out as a shining example. Most of us are familiar with our Dr. Nandita Shah and have heard of her work, at least with the ‘Peas vs. Pills’ workshops she has regularly offered in Auroville, and perhaps some of her vegan treats. And yet most of us know surprisingly little about it, like me who for years had labelled her in my mind as a ‘Vegan missionary’, rather too far out there to my comfort zone - for me, I had decided. The United Nations may have urged humanity to adopt a meat-based diet, but a wealth of testimonials make it tempting to sign up for the privilege of a health retreat. Several printed books are available, online or from SHARAN’s Külapalap die Office (opposite Aurele), among which ‘Timeless Recipes for Healthy Living’ (a handy primer for natural, plant-based cooking) and Nandita’s ‘Reversing Diabetes in 21 Days’. Grounded in praxis, SHARAN has its own organic (Natuco) farm in Madhya Pradesh, and hopes one day to have its own residential centre, so that retreats and trainings can be offered on an ongoing basis.

ELECTROMAGNETIC FREQUENCY (EMF) POLLUTION
Dear Auroville, I just wanted to say a heartfelt thanks to Yatra Arts and the Language Lab for allowing me to facilitate a presentation recently on the subject of the dangers of electromagnetic frequency (EMF) pollution - not just on our health but to our developing consciousness. And I also wanted to thank the wonderful people who attended the Language Lab and for the amazing discussion that ensued.

This is a subject that any health practitioner, teacher, parent and in fact anyone with an aspiration to progress according to Mother and Sri Aurobindo's teaching should be interested in, and in my experience it is a subject that is very sensitive and although I am aware that 5% of the population are now suffering from this functional impairment due to the cumulative effects of the saturation of electromagnetic radiation, to encounter at least 6 people that I know of in such a small community as Auroville was a further confirmation of what's to come. Plus, Aurovilians may wish to ask the question "Why would a group of people wish to create an EMF free building in Auroville?" (New Language Lab)

Of course there are thousands of peer reviewed studies, documentaries and lectures available online to collaborate the health dangers of wireless technology, so I won't add to that here. However, I would like to provide a few bullet points for everyone relating to the consciousness aspect, which I believe is the message Mother wanted me to transmit:

- Mother's work was on the transformation of the body and the consciousness of the cells.
- She affirmed the importance of peace in the mind, peace in the body and peace in the sensations (emotions) for progress.
- Sri Aurobindo spoke at length about vibrational rhythms and the effects of vibrations on every material emanation.
- To ignore the above is to say you don't believe in what they dedicated their lives and teachings to.
- Wireless technology as it is, and where it's heading, affects all the aforementioned aspects of the Yoga - the mind, the body and the emotions.
- It deforms, degenerates and kills cells.
- It puts every living cell into a state of extreme stress.
- It is contributing to the calcification of the pineal gland - our third eye, our spiritual antenna, the gland which produces melatonin the substance essential for physical regeneration and repair.
- It is detracting us from 'self' and alienating us from others.
- It affects our ability to think clearly and kills our creativity.
- Sri Aurobindo spoke of consciousness technology.
- Turn off wifi - at least during the night and when not in use.
- Do not sleep with the phone next to you and do not sit next to a wifi router under any circumstances.
- Do not install a cordless telephone in your home - it's worse than having a cell tower in the room with you!
- Finally, remember that the radiation from wireless technology is more toxic than second hand cigarette smoke...you can't see it and you can't smell it - but it is EVERYWHERE and it affects EVERYONE, whether you can feel it or not.
- Please...make a conscious effort not to alienate those amongst you who choose not to be exposed to EMF's, especially those for whom even short term exposure has debilitating physical effects. We all have something to learn and this may very well be a subject which could save your life or the life of a loved one! Thank you and much love, Louise

All are most welcome
through the eye, the mind is allowed to traverse a world where reality and illusion intermingle. The photos are like diving into the green world of moss, with subtle nuances in the delicate contrast of colour and misty light. The images include a reflection of blue sky over water bodies, long trunks of trees with exquisite shades of red and bluish-grey colours given by the different fungi, a close-up of pink mushrooms on a bed of pale green moss and the juxtaposition of ferns and greens.

Monna succeeded in her intent to reproduce and to share the fairytale moments of her landscapes. One of her next projects will be to photograph the Kamogawa river (the river of ducks). Bathing in the gracefulness of this exhibition will reinforce the thought that the highest expression of the divine is really through beauty. *Chana Corinne Devor for AVArtService*

Suzuki said: “Before Zen, men are men and mountains are mountains.”

Like many beautiful things, it all started with a dream. When she was 10 years old, Aurovillian Monna Maier read a haiku about unicorns, though she did not see any unicorns, her moments there were as close to a fairy tale as could be.

This tango teacher and podiatrist, who studied neither art nor photography, is exhibiting 26 photographs that expose the Zen feeling of this place. “People have a misconception of what a Zen garden is,” says Monna, “Zen gardens are wild and not manicured. The western world sees Zen as being a devotion to nature. Mother Earth is supposed to be enriched by humans and not controlled.”

Zen is about the harmony of all things and this is manifested in the temple’s moss garden, one of the most impressive in the world. The access is difficult and requires booking an appointment two weeks in advance and giving one hour of time to one of the following temple activities: chanting, meditation or sutra writing. Like the Zen monks who used to meditate before they put brush to paper, an attempt is made to guide the visitor into an experience of mental peace and self-discipline.

The excellence of the photographs exhibited is a reflection of what the Kokedera monks work so hard at achieving - beauty at its highest level. Through the eye, the mind is allowed to

Dance & Drawing Goddesses, at the Kolagang DD in D studio in Douceur community. In the month of April Grace Gitaedella will be offering Four times four mornings from Monday, Tuesday, Wednesday and Thursday starting at 9:30 sharp to 12:00 noon a two-and-a-half-hour immersion into one of the four aspects of the Universal Mother revealing herself to you in her Goddess appearance’s as Maheshwari, Mahakali, Mahalakshmi and Mahasaraswati. Wisdom/ Strength/ Knowledge. These four Universal qualities are also embedded in Tamil Kolam culture and find expression in many gestures of life. We will Dance them and Draw their Kolam charm. All Mondays 2nd- 9th- 16th and 23rd of April are dedicated to Maheshwari / All Tuesdays 3d- 12th- 19th and 24th of April are dedicated to Mahakali / All Wednesdays 4th- 13th- 20th and 27th of April are dedicated to Mahalakshmi / All Thursdays 5th- 14th- 21st and 26th of April are dedicated to Mahasaraswati. Attend to one series of four aspects of all four mornings in a row! Example 2- 3-4 5 April, or take one aspect from every of the four weeks’ week? Attendance of all four aspects in the sequence given is highly recommended. Grace bases her work in researching these qualities within us, in our gestures, in our belief systems and how these bind us to our identities, yet enables us to cross borders to finding resonance within others. Within you and me. She developed tools from the Tamil Kolam that act like a physical and visual non-verbal language. The Kolam assists her work of drawing and dancing out our inner awareness. Her aspiration is to become more active participatory in life with our soul force and creative powers. Become or attain being Wise, Strong, Beautiful and Knowing on all levels of consciousness. Grace Gitaedella: certified therapist in non-verbal/ remedial communication, integral artist, teacher, dancer, choreographer, and Kolam Yoga practitioner
A monetary contribution is expected from every one to cover all expenses made in order to host you this includes a spiral bound work manual to take with you. Therefore, prior registration is required! Registration: Grace allericgrace@auroville.org.in / 0413263446
