HOUSE OF MOTHER’S AGENDA

It sees the divine essence everywhere but rejects the mere mask and the disguising figure. It insists on Truth, on will and strength and mastery, on Joy and Love and Beauty, but on a Truth of abiding Knowledge that surpasses the mere practical momentary truth of the Ignorance, on an inward joy and not on mere vital pleasure, – for it prefers rather a purifying suffering and sorrow to degrading satisfactions, – on love winged upward and not tied to the stake of egoistic craving or with its feet sunk in the mire, on beauty restored to its priesthood of interpretation of the Eternal, on strength and will and mastery as instruments not of the ego but of the Spirit. Its will is for the divinisation of life, the expression through it of a higher Truth, its dedication to the Divine and the Eternal.

But the most intimate character of the psychic is its pressure towards the Divine through a sacred love, joy and oneness. It is a divine Love that it seeks most, it is the love of the Divine that is its spur, its goal, its star of Truth shining over the luminous cave of the nascent or the still obscure cradle of the new-born godhead within us. In the first long stage of its growth and immature existence it has leaned on earthly love, affection, tenderness, goodwill, compassion, benevolence, on all beauty and gentleness and fineness and light and strength and courage, on all that can help to refine and purify the grossness and commonness of human nature; but it knows how mixed are these human movements at their best and at their worst how fallen and stamped with the mark of ego and self-deceptive sentimental falsehood and the lower self profiting by the imitation of a soul-movement. At once, emerging, it is ready and eager to break all the old ties and imperfect emotional activities and replace them by a greater spiritual Truth of love and oneness. It may still admit the human forms and movements, but on condition that they are turned towards the One alone. It accepts only the ties that are helpful, the heart's and mind's reverence for the Guru, the union of the God-seekers, a spiritual compassion for this ignorant human and animal world and its peoples, the joy and happiness and satisfaction of beauty that comes from the perception of the Divine everywhere. It plunges the nature inward towards its meeting with the immanent Divine in the heart's secret centre and, while that call is there, no reproach of egoism, no mere outward summons of altruism or duty or philanthropy or service will deceive or divert it from its sacred longing and its obedience to the attraction of the Divinity within it. It lifts the being towards a transcendent Ecstasy and is ready to shed all the downward pull of the world from its wings in its uprising to reach the One Highest; but it calls down also this transcendent Love and Beatitude to deliver and transform this world of hatred and strife and division and darkness and jarring Ignorance. It opens to a universal Divine Love, a vast compassion, an intense and immense will for the good of all, for the embrace of the World-Mother enveloping or gathering to her her children, the divine Passion that has plunged into the night for the redemption of the world from the universal Inconscience. It is not attracted or misled by mental imitations or any vital misuse of these great deep-seated Truths of existence; it exposes them with its detecting search-ray and calls down the entire truth of divine Love to heal these malformations, to deliver mental, vital, physical love from their insufficiencies or their perversions and reveal to them their true abounding share of the intimacy and the oneness, the ascending ecstasy and the descending rapture.

All true Truth of love and of the works of love the psychic being accepts in their place: but its flame mounts always upward and it is eager to push the ascent from lesser to higher degrees of Truth, since it knows that only by the ascent to a highest Truth and the descent of that highest Truth can Love be delivered from the cross and placed upon the throne; for the cross is the sign of the Divine Descent barred and marred by the transversal line of a cosmic deformation which turns it into a stake of suffering and misfortune. Only by the ascent to the original Truth can the deformation be healed and all the works of love, as too all the works of knowledge and of life, be restored to a divine significance and become part of an integral spiritual existence.

**Working Groups Reports**

**Land Board Report - May / July 2018**

The present Land Board has been selected and is in office since May 21st 2018. The new members who agreed to serve are: Banumathi, Helena, Padmanaban and Yuval. Unfortunately, the previous members have resigned in relation to the disputed purchase.

- At present the new members are training and re-shaping the administration procedures by putting more diligence in place. To be able to keep up with the workload multiple resource persons have been enrolled and more help is needed from the community to participate constructively in issues of protection and care of Land. It is aspired to develop processes for increased transparency, accountability and responsibility for the asset of Land that has been entrusted to Auroville.
Meanwhile we have about 18 negotiations in the pipeline and are in constant touch with the sellers for follow up. We will keep the community posted on further updates.

Rs. 1,32,817/- have been generated through the sale of timber and firewood from May to July. This amount has been credited to the Unity Fund. We continue to donate firewood to outreach schools namely Udavi, Isyambalam and Alkiyam for a total value of Rs.48,000/-. We have completed fence in City Area for a total extent of 234m.

One official survey was carried out and the boundaries fixed. On a legal front one judgment came in our favour. After receiving the official judgement Land Board will take necessary steps to secure the land. Another case got dismissed in our favour.

Land Board will remove dead trees in your garden, the firewood goes to schools or it is sold and the revenue is going towards Auroville land maintenance & purchase. Please send us an email at landboard@auroville.org.in and fix an appointment.

Report Working Committee over the month of July, 2018

The main issues dealt with in this period are:

1) General meeting:
The Working Committee reported on its work in a general meeting on June 12th. The main topics discussed were visa, the proposed highway through Auroville, and the disputed land purchase. A report of this meeting has been published

2) Proposed highway: A report of the Highway Task Force has been published at www.auroville.org.in/article/69778

3) Visa issues:
   a) Visa situation Paris.
The requirement from the Indian Embassy in Paris that Auroville applicants for an Entry Visa have to submit a financial guarantee has been dropped.
   b) Refused entry into India.
Two Auroville residents have been refused entry into India by the Indian immigration authorities, even though they held a valid entry visa. Upon enquiry, we were informed that the reason is that they have been working as private individuals in India outside Auroville. This is a violation of the Auroville Visa conditions.

We strongly urge anyone who engages in work outside of Auroville (including but not limited to giving classes, performances, presentations or seminars, playing music, DJing, consulting, construction, selling art/items) to make sure that the scope of work falls within the parameters of their relevant Auroville-registered unit or activity, as mentioned in the registration documents.

If an Aurovilian engages in work outside of Auroville which is done in person and not done through an Auroville registered entity or is not within the scope of that activity, it violates the Auroville visa conditions and is grounds for refusal of entry into India.

   c) Aurovilian waiting for their visa abroad.
One Aurovilian is waiting inordinately long for the Indian mission to issue her the new Entry Visa. Ruth (chair), Guy (notes), Rita, Fabian, Agnes, Christoph, P. Elamalai, Amos, D. Sagar, Ana (Existence), R. Kanyappan, Yuval, Francois, David (Aurodam), Johnny, T. Sagar, Balu S., Boobalan V., Achilles, Malvika, Jessamijn, Sandeep, Ilango, Shalini, Lakshmi, Eneia, Rishi, Dominic, Glenn, Shona.

Highway:
The Working Committee reports on its work in a general meeting:

Present: Hans (chair), Guy (notes), Rita, Fabian, Agnes, Christoph, P. Elamalai, Amos, D. Sagar, Ana (Existence), R. Kanyappan, Yuval, Francois, David (Aurodam), Johnny, T. Sagar, Balu S., Boobalan V., Achilles, Malvika, Jessamijn, Sandeep, Ilango, Shalini, Lakshmi, Eneia, Rishi, Dominic, Glenn, Shona.

Bliss: Christoph gave an update from Bliss forest in relation to the proposed solar project by Varuna in adjacent lands.

Northern Forest Collective - planned evergreen nursery: Rishi announced that the Northern Forest Collective, comprising forest stewards and members in the northern forest tracts of Auroville, are creating a nursery. The new nursery will complement other nurseries in Auroville, such as Botanical Gardens, and it will focus on evergreen trees. The nursery will be located in Arkahbumi. It will be under the direct management of Balu and Sagar, and under the supervision of the Northern Forest Collective. It will be funded from the pooled resources of the N.F. Collective (see maintenance request). The nursery addresses the need to increase the number and diversity of evergreen species in Auroville forests. It aims to make available 5,000 - 10,000 saplings each planting season.

Maintenance request: The Forest Group requests a maintenance for D. Sagar, of Neidal. Sager has been working in the northern forests of AV for two years without a maintenance. One year ago he requested a maintenance. Instead he received a watchman’s budget as a temporary measure. Sagar’s Forest mentors, Dominic and Rishi, attest to his work and dedication.

Eternity fencing: Yuval announced that the survey and fencing on the western side of Eternity will be completed on the 8th of August.
Plant requests: Glenn asks members to hand in plant requests in time for the planting season.

Aurodam announcement
David (Aurodam) states that he has planted saplings in Aurodam, and that he has used all the funds allocated for this purpose. He would like to acknowledge the assistance of members of the African Pavilion.  
Next meeting: Siddharta Forest, 3pm Friday 7 September.

ANNOUNCEMENTS

HTF account for contributions
Dear All, to help us cover various expenses (travel mostly) you can contribute to Account #252037 HTF (HighwayTaskForce).
Thank you, Renu for HTF

To All services under City Services: Budget Form
All services/activities that are receiving full or partial funding from City Services are requested to submit a budget within the scheduled submission deadline in order to be considered for continued funding.

There are two forms that need to be filled. They are posted on Auronet for downloading: (1) The Budget Form 2019-20 (request for the next financial year) and (2) The Narrative Report Form for 2018-19 (describing the activities under the current financial year). Please download both forms, fill them up and submit to BCC office (bccoffice@auroville.org.in). The deadline for budget submission is 31 October 2018.

Please note:
Unlike the previous years, this year BCC, on recommendation from the FAMC, will follow what is called a zero-based budgeting (ZBB). It is a method where budgeting for any service/activity will start from scratch (zero) and where all expenses need to be justified for the new budget period - which is 2019-20.

The budget starts from zero and all functions old and new within the activity are reviewed before being added to the budget in order to determine a realistic financial need. This process will take substantial time. Hence, activities are requested to submit their budgets at the earliest. Only those services whose budget requests have been received will be considered for funding.

Thanking you and wishing you the best, The BCC

Presentation on Prevention of Sexual Harassment of Women at Workplace Act.
Dear friends,
In the last three years, the Auroville Internal Complaints Committee (ICC) has been promoting awareness on the Prevention of Sexual Harassment of Women at the Workplace Act.
We invite you to a presentation so you can further understand what this means in the context of Auroville.

AN INVITATION TO ALL EUROPEAN AUROVILIANS: Friday 24th August, 5pm

‘India is the representation of all human difficulties on earth, and it is in India that the cure will be found … That is why I was made to start Auroville’ - The Mother

Europe is struggling with a lot of internal problems. Its unity is seriously at stake. A Europe without its Union will be a crippled Europe. Strength comes from unity. In Auroville the first step towards the manifestation of the European Unity on Auroville’s soil has been made by building the ‘European House’ in the ‘International Zone’, no matter how humble it may be. It is a first step towards the ‘European Plaza’ in the making, symbol and embodiment of a strong Europe to live up to its cultural and humanitarian heritage.

And another 60 European Aurovilians from various countries.

Approx. 1200 Europeans reside in Auroville, but only a meager 10 (mainly French, German and Italian) feel the call to help manifesting the cultural richness of our beautiful continent through participation in creating a ‘European Plaza’ in the ‘International Zone’.

Shouldn’t the European Aurovilians be a bit more enthusiastic about a European Pavilion? Shouldn’t the European Aurovilians help/support the difficult struggle Europe is going through? Shouldn’t WE show Europe how to unite in Human Unity, how to create a harmonious Europe, how to stand together in challenging times?

Where are the Dutch (known over centuries all over Europe, and beyond, for their … tulips and bicycles), where are the Brits (known over centuries for their … breakfast and for the Queen), where are the Spaniards (known over centuries for their … paella and flamenco), where are the Swiss (known over centuries for their … chocolate and the banking secrets), where are the Belgians (known over centuries for their … beer and as well as for their chocolate), where are the Swedish (known over centuries for their … blond hair and blue eyes), where are the Austrians (known over centuries for … having invented the croissant and for fighting the Huns), where are the …

Let’s come together and breathe life into the ‘European House’, and then let’s build the ‘European Plaza’, the manifestation of European unity and of cultural diversity. Come and join hands, come and invest some time, some energy, some inspiration, some creativity. Come and invest yourself into the rich heritage of Europe. Become part of the ‘European House Coordination Team’. If we manage, Europe will manage. Let’s show them the way, here in India, here in Auroville.

After a long summer break we will start meeting again on a weekly basis every Friday at 04:00 pm at the ‘European House’ (opp. the entrance to the ‘Pavilion of Tibetan Culture’, on the same premise as the ‘International House’, former ‘American Pavilion’). You are welcome to join in at 05:00 pm the first time you come by. Our next meeting will be on Friday 24th August.

Beside the need for more participants in the endeavor to manifest the embodiment of a European Unity, we are as well encouraging every European Aurovilian (and, actually, not only European, but all Aurovilians), to help us covering our monthly expenses, to help with the purchase of needed office-/kitchen-items, to help paying for necessary landscaping and fencing, and many more little bits and pieces, by donating either a one-time amount or by installing a monthly recurring amount, no matter how little, towards our FS account # 25 12 07, ‘European House’.

All help is highly appreciated.

Manjini JAGADEESAN (Indian) staying in Djaima, working at Comfort Design.

On July 5th of this year, Manjini Jagadeesan had the “Final Aurovilian” interview. During the subsequent Entry Board meeting on July 9th, the Board decided to approve announcing Manjini as Aurovillian for the customary four-week feedback process.
As Manjini’s situation is rather unusual, the Entry Board decided to provide some additional information:
Manjini approached the Entry Service the first time in 2004. Due to various contradictory feedback received, Manjini was not accepted as an Aurovillian. Subsequently, he applied a few more times, but each time his process did not end in him becoming an Aurovillian.
In view of the sizeable number of feedbacks and the lack of a fully functional Entry Service, the Auroville Council and Working Committee took up his case in the end of 2016. After reviewing the information available, also the AVC/Wcom did not come up with an acceptance to make Manjini as Aurovillian.
Instead, they wrote to him, on 7 September 2016, a joint statement of which the pertinent sections are quoted below:

**Murugan Adhimoolam**

This is to inform the community of the sudden demise this morning of our good friend and brother Murugan Adhimoolam at the age of 43.

Hailing from Kottakarai, Murugan joined Auroville in 2007 and has been working with Michael in Dana’s Flame Pottery. He lived in Courage with his wife Meena (who does the catering for Transition School) and their two children Adhavan, at college in Chennai, and Arthi studying in Pondy. 

Apart from his work at the pottery, Aurovilians may have experienced Murugan’s calm and friendly presence at various occasions, such as at Matrimandir duty, the organisation of the Marathon, Sangamam festivities and other such events. He also helped Celestine with her art work on Auroville’s roads.

Murugan’s remains are taken to Farewell where friends can visit and pay homage tomorrow, Sunday, from 8am - 2pm. The burial will take place tomorrow at Adventure’s burial grounds on Sunday, 12 August, at 4pm.

Thank you, Murugan, for having been with us, and our heartfelt strength for Meena, Adhavan and Arthi.

**Big Piet**

On 14 August our long-term Dutch friend and brother Pieter van der Molen ('Big Piet' for us all) passed away at the age of 75 in his home in Holland.

Pieter, who in the sixties was the top judo trainee of the then world champion Judo Anton Geesink, had during a judo demonstration session a profound inner experience which left him in shock and in search for answers.

Finding a work by Sri Aurobindo, and hearing about Auroville, he completely changed his life and came to Auroville in 1970.

Starting out in Aspiration, from where he transported goods and people to and from Pondy, he soon moved to Kottakarai where he started a fruit orchard, ‘Angiras Garden’, along with Judith. The couple had three children, Angrias, Bhima and Aurama. At the time Piet started working with villagers, making leather bags.

In the eighties, Piet managed Abri workshop, repairing water pumps and motorcycles, and moved to Centre Field where he made paper lanterns with young villagers. His passion for the increasing birdlife in Auroville was remarkable; he painstakingly documented the growth of the handful of bird species in the early days into the 100+ different varieties of now and was often in contact with Salim Ali about the same.

Piet left in 1989, but has always kept contact with Auroville and a deep connection with Mother and Sri Aurobindo. He will be missed by his children Emanuel, Angrias, Bhima and Aurama and his grandchildren with whom he developed close contact, as well as by his close family in Auroville, Holland, Canada and Sweden.

Auroville fondly remembers this bear of a man with a golden heart.

**The Endangered Craft Mela**

For 6 days of the Auroville birthday week in February 2019, and part of the windup for the bicentenary, we are planning to hold a series of workshops in the Youth Centre employing what we consider to be endangered traditional craftspeople - Potters, blacksmiths, basket weavers, rope makers, bronze casters, natural dyeing, etc., to celebrate and proliferate manual intelligence.

These workshops will be free and open primarily to children over the age of 10. But not to discourage the involvement of Auroville artists and craft people also.

So what we need to do at this point is to scout around for such craftspeople whom you may know whom you consider would also be willing and able to share their skill with children.

Please contact Johnny at 7598671944 / Johnnyidli@gmail.com or Marc at 94420 06807.

Meanwhile, under the banyan tree on the way to the MM viewing point, Ishta is creating an installation of the Mother’s signature with casuarina poles. He will be working on it this month, so if you have the time, take a stroll that way. This project is part of the 50th anniversary celebrations.

GREEN MATTERS

Water Words: On Multi-Sourcing (3) of WMS

(This is part 7/10 of the introduction to the Water Management Strategy (WMS) that the Water Group is currently working on. Please visit our website to read the full draft and share your feedback.)

Currently the questions of land use (soil densities, infiltration rates, etc), future developments (how Auroville zoning will impact different water management features) and the environment (considerations of site specific conditions) don’t seem to figure prominently into decision taken at the level of governance. But each of these is critical when planning for a sustainable water future. The remainder of this chapter synthesizes the entire chapter and constructs a beautiful image of an Auroville “waterscape”. Imagine water reservoirs and ponds smartly located to catch as much water as they can, with a high infiltration rate, and all interconnected so that overflow of one leads to another. Imagine storage for roof water integrated into every community. Imagine functioning, efficient wastewater treatment plants with a piping system that brings the recycled water back to water our gardens. And more! Check out the chapter and tell us what you think.

Rethink your milk!

Because milk is so integral to our culture we often overlook the fact that every mammal produces milk only for its young. Two animals in nature drink another animal’s milk. (Pigs don’t drink goats milk and monkeys don’t drink elephants milk). No mammal needs another animal’s milk, and no one needs milk past infancy. Our love for dairy is multiplying the cow population, killing calves, and making people sick and decimating forests. So many humans are lactose intolerant (for a good reason - we are not calves). So why not save our environment and ourselves? Try dairy free and see for yourself. It’s a whole new world. Peanut curd, Rice milk... here are lots of easy recipes for dairy alternatives to get you started: see LINK. Dr Nandita Shah / SHARAN Auroville 0413 2622637 / www.sharan-india.org

**A note from the Auroville Library to the Dutch, Spanish, Korean and Hebrew community**

Following a proposal from some readers we took the opportunity to make the Dutch and Spanish sections more attractive, by expanding their shelf space. Of the eight languages, so far, seven were of European origin, with Tamil being the only Asian language in our collection. Generous book donations allowed us to exceptionally open a Korean and a Hebrew section for this rapidly expanding part of our society. However, as shelf space is limited the continuation of this experimental arrangement depends on how actively readers will be making use of the book. Please come forward and fill this space with life: help keeping the selection attractive through your book donations and suggestions, by telling your friends about the library, and of course by lending books.

**THANK YOU**

Thank you all who have organised and helped with the beautiful 15th August morning meditation and celebrations, the wonderful fire and breakfast after, like in the old days, and the white rose and “laddu” each of us received; so well organised and so many young people present.

I was immensely touched. Auroville is.

Thank you!

Shivaya

**BEING AND BECOMING**

In this Massive Immobility all these rhythmic and spiral movements, full of freshness and perfumed sweetness, from the Himalayan air descend.

Equally there are faithfulnesses at the entrance of the Spirit which re-find a new purified Will, which guides without hindrance through all the traps of the outer Life; like a sunflower, turned towards the Sun of Truth...because these progressive purifications are there, always circling around, with their two inseparable companions, wakeful awareness and receptive wakefulness.

Therefore this regenerated flow takes up again its peaceful streaming into the “secret depths of our inner Valley” and again, with its guides from yesterday, today and future, we prepare together “a Unity en route” on the Book of the World.

To all of you,

In a new Joy,

GangaLakshmi (H.O.M.A. / Savitri Bhavan)

**Living Near A Highway**

We live near a highway - the only highway we knew in Auroville until recently, when the sudden threat of a four-to-six-lane highway cutting through Auroville came to shake our community like a lightning bolt.

‘Our’ highway, the Pondy-Tindivanam road, is 350 m away from our home in Auro Orchard. Between the big road and us are a boundary wall, the farm’s cashew tope, a mango orchard, and some cultivated fields. Fortunately for us the highway is hidden behind all this greenery; only at night the floodlights of the tollgate create a permanent bright-orange artificial sunset, preventing the restful darkness of the night.

More than anything it is the noise, constant and unrelenting, even though somewhat filtered through the trees, that makes sure we never forget that the highway is near. Hooting, emergency sirens, the ‘vrom-vrom-vrom’ of engines and the sound of tires racing along the tar combine into an unceasing sound tapestry. ‘You will get used to it’, we were comforted when we moved here from the North-eastern greenbelt, which we had always cherished for its deeply peaceful nights (at most times) thanks to the forest.... Fortunately this stretch of the Tindivanam highway is relatively ‘underutilised’, and if we wake up in the heart of the night, there are rare moments where for a minute or so we can enjoy the blissful absence of traffic noise...

Another effect of the highway is that it creates an effective boundary. Perhaps not for the occasional cow that manages to cross the road; but for most of us crossing the road takes an effort – another effect is that it creates an effective boundary. Perhaps not for the occasional cow that manages to cross the road; but for most of us crossing the road takes an effort – another effect of the highway is that it creates an effective boundary. Perhaps not for the occasional cow that manages to cross the road; but for most of us crossing the road takes an effort – another effect...
This is not an essay on the multiple devastating effects of a highway on the surrounding environment; it is simply sharing what it means for us, practically, in terms of our day-to-day experience, to have a highway in the vicinity. If anyone has doubts or you would like to check it out for yourself, we are just a few minutes away from Edayanchavadi and you are most welcome to come over!

Facing the threat of the planned new highway, here’s sharing the reflection of a fellow Aurovilian who describes the likely scenario: [Can one imagine that] 5000 people or 50.000 people packed in a handkerchief with millions of tonnes of cement, will not get choked, surrounded by promoters, a 4 or 6 lane National Highway, all kind of noise, ugliness, commercial shops, hotels? Will our children not dare to go out of this handkerchief for fear of being run down by speedling lorries, or groped by roaming boys? Auroville needs to wade up quickly to the extreme danger that this road represents.

I have no doubt that we are indeed waking up. In the words of a member of our vast international Auroville family: ‘This is a situation that requires all hands on deck.’

May we find our strong and happy unity, solidly grounded and luminously aligned with Auroville’s Spirit and Shakti.

Together in aspiration and prayer,
Jasmin (AuroOrchard)

How to build a Photographic Project  
Think photography differently with Marco  
Every Wednesday, 10am to 12pm  
At the Atelier, Creativity Community  
In this workshop, we will go beyond the single beautiful photo.  
We'd rather tell stories with good images. The ability to shoot good pictures is today within reach of everybody, and the quality of the images produced is no longer because of the skills of the photographer but because of the technological progress. So, what and how to photograph to distinguish himself in the millions of images shot every day in the world? How can we develop a project that makes us feel authors and not just images producers? Bring your previous works and any image capturing device. Guests’ Contribution is Rs. 200/- and for volunteers is Rs. 100/-. Aurovilians and newcomers are welcome to donate.  
Call Marco on 0413 2623188 for more information.

LAST MINUTE:
The FRENCH PAVILION presents “The Intelligence of Trees”
A documentary film
Saturday 18th August 2018 at 5pm
Town Hall - Cinema Paradiso
in French subtitles in English, duration: 120min

A forester in Germany, Peter Wohlleben, has observed that trees communicate with one another by lovingly caring for their offsprings, their elders and neighboring trees when they are sick. He wrote the bestseller “The Secret Life of Trees” (sold more than a million copies) that has amazed nature lovers. His claims have been confirmed by scientists, Suzanne Simard, at the University of British Columbia in Canada. This documentary shows the meticulous and fascinating work of the scientists, necessary to the understanding of the interactions between the trees as well as the consequences of this discovery. This knowledge will change your outlook on living things, trees and forests.

AT SAVITRI BHAVAN
Monday, August 20, 2018 at 6:30pm. Duration: 75min.
EVOLUTION FAST FORWARD, Part 3 - PARTS OF THE BEING & PLANES OF CONSCIOUSNESS - as mapped by Sri Aurobindo and The Mother.

This film shares knowledge about the objective and subjective views of our existence and shows that two systems are simultaneously active in the organization of the being and its parts: a vertical system spanning above and below and a concentric system. In these two systems the Physical, the Vital and the Mind each work in their own way. In the Physical there is an automatic intelligence and organization by which the body-consciousness manages extremely complex operations to maintain itself in a health and dynamic equilibrium. The Vital, the life-force, is by nature fluid and dynamic and transforms matter into living substance. Our breath and heartbeat are the most tangible physical rhythms of the vital energy animating the body. Mind works in many ways with our cognition and intelligence, including mental vision and will. This film by Sopanam is a good educational tool for the Integral Yoga. It was produced with support from SAIIER and has been translated into seven languages.

2. “SAMAPTI!” (The Conclusion) - with: Soumitra Chatterjee, Aparna Sen, Sita Mukherjee, Gita Dey, Santosh Dutta.
The third story tells about a tomboyish girl who finally will accept the love of her husband after an early arranged marriage. Original Bengali version, with English Subtitles Duration: 1h.09’ - You may know that while Soumitra Chatterjee was Ray’s fetiche actor until his last film, Aparna Sen, very young for this film, became a major Bengali film director and personality. Actress Konkona Sen Sharma is her daughter.

His life takes an unexpected turn as he gets the news of his father’s death in a car accident. As he copes with the tragedy, hidden truths begin to unravel. Even as his mother Nandini struggles to shield him from the truth, Dhruv starts looking for answers. Was his father’s death an accident or a premeditated murder? The search leads to a series of unexpected revelations, as he discovers the shades of his father’s personality he had never seen before.

Potpourri - Tuesday 21 August, 8.00 pm:
• EISENSTEIN IN GUANAJUATO
Netherland-Mexico-Belgium, 2016, Dir. Peter Greenaway, w/ Elmer Bäck, Luis Alberti and others, Biography-Comedy-Drama, 105mins, English-Spanish w/English subtitles, Rated:R
Eisenstein traveled to Mexico in 1931 to consider a film privately funded by American pro-Communist sympathizers, headed by the American writer Upton Sinclair. Eisenstein’s (homo) sensual Mexican experience appears to have been pivotal in his life and film career - a significant hinge between the early successes of Strike, Battleship Potemkin, and October, which made him a world-renowned figure, and his hesitant later career with Alexander Nevsky, Ivan the Terrible and The Boyar’s Plot.

Nature Series - Wednesday 22 August, 8:00 pm:
• BLUE PLANET II: COASTS (EPISODE 6)
UK, 2017-18, BBC Series w/ David Attenborough, Documentary Series, 60mins, English, Rated:NR (G)
At the coast, two worlds collide. Coasts is the story of how our Blue Planet’s wildlife survives in this ever-changing world. It’s a roller-coaster ride of heart-stopping action and epic drama, with characters from the beautiful to bizarre.

Favourites - Thursday 23 August, 8.00 pm:
• THE SQUARE
Sweden-Germany-France-Denmark, 2017, Dir. Ruben Ostlund, w/ Claes Bang, Elisabeth Moss, Dominic West, Comedy-Drama, English-Swedish-Danish w/ English subtitles, 151 mins, Rated: R
Christian is the respected curator of a contemporary art museum, a divorced but devoted father of two who drives an electric car and supports good causes. His next show is “The Square”, an installation which invites passersby to altruism, reminding them of their role as responsible fellow human beings. But sometimes, it is difficult to live up to your own ideals: Christian’s foolish response to the theft of his phone drags him into shameful situations. Meanwhile, the museum’s PR agency has created an unexpected campaign for “The Square”. The response is overblown and sends Christian, as well as the museum, into an existential crisis.

News&Notes 20th August 2018 [760]

• A MONSTER CALLS
UK-Spain, 2016, Dir. J.A. Bayona w/ Lewis MacDougall, Sigourney Wiver, Felicity Jones, Animation-Drama-Fantasy, 108 mins, English w/ English subtitles, Rated: PG 13
The monster does not come walking often. This time it comes to Conor, and it asks for the one thing Conor cannot bring himself to do. Tell the truth. This is a very touching story about a boy who feels very damaged, guilty and mostly angry. He struggles at school with bullies, and pity looks from everyone, and at home with his mother’s sickness. Will Conor overcome his problems? Will everything be okay? Will Conor be able to speak the truth?

Children’s Film - Sunday 26 August, 4:30pm
• MARY POPPINS
USA, 1964, Dir: Robert Stevenson, w/ Julie Andrews, Dick Van Dyke, David Tomlinson and others, Musical, 139mins, English w/English subtitles, Rated: G,

The pastor of a small rural church performs service for a tiny congregation. After the service, he attempts to console a fisherman who is tormented by anxiety, but Pastor can only speak about his own troubled relationship with God. A school teacher offers Pastor her love as consolation for his loss of faith. But Pastor resists her love as desperately as she offers it to him. This is the second in Bergman’s trilogy of films dealing with man’s relationship with God.

Deserts on the Move: Asia
50 mins / 2017 / English / Directed by: Klaus Feichtenberger
According to estimates of the United Nations, more than 2.6 billion people in 110 countries are directly affected by progressive desertification. Deserts now cover more than a third of the entire surface of the earth, thus 65% of arable lands. More than three billion cattle, sheep and goats chomp their way through pastures faster than they can be regenerated. This program shows how desertification is changing the balance of the earth and affecting two continents in particular: Asia and Europe.
